The third volume in this acclaimed series focuses on the J.J. Abrams' Star Trek films - featuring nearly 20 ships, including the new Enterprise! Explore the process behind the creation of the ships features in the Star Trek, Star Trek: Into Darkness and Star Trek: Beyond films. This is the story of how some of the most talented designers in Hollywood created STAR TREK's starships from the first sketches to the finished models that appeared on screen. This book covers nearly 20 new ships from the modern STAR TREK movies, from the new Enterprise to a fleet of Federation ships that was barely seen. Along the way it covers the thinking behind Klingon and Romulan ships and the heavily-armed U.S.S. Vengeance. This third volume in the Designing the Starships series collects the profiles and design history from the rebooted Star Trek "Kelvin Timeline" film universe. The "Kelvin Timeline" is an alternate reality timeline in which the current Star Trek film universe operates. It is named after the ship captained by Captain Kirks father in the first of J.J. Abrams' Star Trek films, the U.S.S. Kelvin. Ships included: U.S.S. Enterprise, U.S.S. Enterprise-A, Narada, U.S.S. Kelvin, Spock's Jellyfish, U.S.S. Yorktown Space Station, and many more. Includes 6 ships that were designed for the final sequence of Star Trek: Beyond which were not used and have never been seen before.

A puzzle book with a hauntingly good twist. This is no conventional 'seek-and-find.' Each of the detailed, full-color pages is packed with out-of-context items and blood-curdling continuity errors that only a true fan can spot. The perfect holiday gift for the Ghostbusters fan in your life! What is a Nerd Search? It's a chance to nitpick your favorite stuff! We all adore discussing our top movies and TV shows. Be honest, we even love to find fault with them. Well, here we provide the faults! This is not your ordinary search-and-find book, but a diabolical test of your nerdular knowledge of your favorite topic. Instead of simply locating lost objects, you have to spot tiny errors no one but an obsessive superfan could spot. Let us explain our categories... NERD ALERT Look out for continuity errors - things that just shouldn't be there. For example, it could be a character who wasn't in the scene, or a gadget that wasn't used at that point in time. In the Mr. Stay Puft-busting scene, for example, Janine should not be fighting alongside the guys - or the Library Ghost should not appear at all. MOVIE MIX-UPS These are items or characters that are simply in the wrong movie. If our featured scene is Slimer Showdown, from the first movie, then we should not see Dr. Janosz

Poha from the sequel, cowering behind a table in the Sedgewick Hotel ballroom. Misplaced items can be anything from the Ecto-1 (before it was customized) to jars of mood slime or a stray spook.

MYTHS AND MANIFESTATIONS To really test your ghostbusting credentials we've added five 'out-of-universe' monsters, spooks or demons into every spread. Simply spot if they are from the original Ghostbusters movies or not - and, for extra points, identify them! Our special feature on page 6 is there to help you.

SUPER QUIBBLES There are just five of these in the entire book; they are errors relating to behind-the-scenes information, such as a character from a deleted scene appearing. Or maybe it is something planned for the movie that never made the final version. If you check out the scoring system below they will put you in reach of a score of biblical proportions, enabling you to hit a significant number...

The Star Trek Book Simon and Schuster New York Times bestselling author Robb Pearlman focuses on STAR TREK: DISCOVERY's breakout star, Grudge the cat. Full of cat photos and whimsical illustrations! Make no mistake, Cleveland Booker's massive - and massively cool - cat, Grudge is no mundane mouser. This taciturn tabby is, in fact, "a Queen." She knows it, and everyone aboard the Discovery knows it, too... though some realize it just a bit too late!

William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But

even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

Star Trek Voyager: A Celebration

Simon and Schuster

Earth Command defeated the Romulans with the help of other races across the galaxy, and the Neutral Zone was established. Out of that necessary and uneasy collaboration came the United Federation of Planets and its combined forces, Starfleet. But the close quarters of a starship among so many races and personalities is discomfiting to all the ranks. Control of what could grow to be the greatest power in the galaxy is at stake and no one is taking it lightly. A powerful new class of starship, the Daedalus, flagship of the new Federation fleet, is up for grabs among the six new Starfleet captains. Adm. Ed Walker is determined to keep this jewel, and all of Starfleet, under military command and away from the scientists. He chooses Capt. Aaron Stiles as his protégé in the endeavor. Stiles, bent on avenging the death of his brother Jake, faces stiff resistance from Walker's rebellious space jock nephew Dane and scientist Capt. Bryce Shumar. But they face their biggest threat of all in an unknown alien race destroying the bases of the Oreias system. Can brains and brawn combine to win without killing each other in the process?

Star Trek: Deep Space 9 & The U.S.S. Defiant Illustrated Handbook Penguin

"When Star Trek first premiered in 1966, viewers were shown a window into an amazing new sci-fi universe. That vision has lasted and grown for decades after - and it was fulfilled by the creativity of this legendary show's talented art directors, prop masters, and set decorators. Star Trek would not have been the same without the Burke and Origami chairs, sculptures and other decorative arts, and props used on-set. These items would not even exist, were it not for various designers of the midcentury modern movement, such as Pierre Paulin, Joe Colombo, Paul McCobb, Warren Platner, and Milo Baughman. Authors Dan Chavkin and Brian McGuire invite you on a journey through the original series. Together, they illustrate in depth how Midcentury Modern design gave rise to the feel and aesthetic of Star Trek. Detailed, expert examination of key episodes shows how these highly influential design movements are nigh-inseparable from Star Trek -- and how they helped to shape one of the greatest visions of the future."--Back cover.
