Aqa Heinemann*

Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race

to build the biggest and the best began with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's

being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Emperor, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania surviving two world wars

before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade.

AQA AS/A Level Year 1 Chemistry Student Guide:

Physical chemistry 1  
Hodder Education  
Practise and prepare for AQA GCSE Combined Science with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with

practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students

will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

#### AS Chemistry for AQA

HarperCollins UK

A good way to prepare for your exam is to practise solving exam-style questions. This book provides a comprehensive range of chemistry

problems at a foundation level, especially formulated to familiarise the student with exam questions. Although the book is based on the AS level specification (UK), it can be used by anyone studying foundation chemistry. The book covers the following topics: Atomic Structure, Amount of Substance, Bonding, Periodicity, Introduction to Organic Chemistry, and Alkanes. AQA GCSE Chemistry Required Practicals Exam Practice Workbook Philip Allan

Part of the series of AS and A2 revision guides, this title gives students what they need to know for the AQA exams. It includes material organised into bite-sized chunks of information. **Revise A2 Chemistry for AQA** Oxford University Press, USA This ultimate study guide with in-depth GCSE course coverage is all you need for exam success. Revise GCSE Physics has everything you need to achieve the GCSE grade you want. It is written by GCSE examiners to boost

learning and focus revision.
