Let There Be Light: Engineering, Entrepreneurship and Electricity in Colonial Bengal, 1880-1945 University of Hawaii Press

The book examines critically, some aspects of the work of several outstanding scholars, Indian, French and American in Part I. Part II provides an insightful commentary on the major approaches to the study of society in India, notably functionalism, structuralism, Marxism, cultural analysis and ethnomethodology.

The Fortunes of Primitive Tribes Atlantic Publishers & Dist

According to Arnold J. Toynbee, 'India is a world in itself; it is a society of the same immensity and importance as is our Western society'. In global perspective, the immensity, diversity, and unique importance of Indian society and culture can hardly be underestimated. This reference volume, first published in 1975, encompasses studies that reflect both the unity and diversity of India's culture and social system.

Caste, Communication and Power Routledge

Salient Features Presents a comprehensive, indepth and updated socio-cultural profile of the Tharu and their habitat. - Indepth

documentation of various facets of all activities that can be clubbed as artistic, since it takes into consideration the term arts and crafts in its widest sense. - Analyses importance of arts and crafts and its functional place in a society. - Unique book containing numerous colour, black & white photographs, line drawings and illustrative tables at appropriate places, which makes it vivid and comprehensible. - Suggests ways in which the various indigenous artistic activities can be innovated upon to create exquisite marketable products which would be economically viable for the tribals. - Helpful bible for welfare and development agencies who can derive from this microscopic study to formulate macroscopic welfare programmes.

Invitation to Social and Cultural Anthropology Atlantic Publishers & Dist

Any growing discipline continuously adds to the corpus of factual knowledge about the phenomena being studied and enriches its conceptual apparatus. Over time, some themes are dropped, and new concerns incorporated. This makes older and classical texts less relevant, and necessitates a process of selection and reprioritization of themes to meet changing times. Hence the need for new textbooks, especially one as detailed and concise as

Sociology: A Study of the Social Sphere. The book serves as an invitation to sociology and it helps the reader to learn the language that sociologists employ, and the way commonly used words (such as family, marriage, caste) are given distinct definitions. It follows the logic of scientific research that governs sociological analysis. The various topics covered in the book are illustrated with examples taken from everyday life, and from studies conducted in India.

Dhirendra Nath Majumdar Vikas Publishing House

The book, now in its second edition, fulfills the need for an up-to-date comprehensive text on irrigation water management for students of agriculture both at the undergraduate and postgraduate levels. The scope of the book makes it a useful reference for courses in agricultural engineering, agronomy, soil science, agricultural physics and environmental sciences. It can also serve as a valuable guidebook to persons working with farming communities. The coverage in sixteen chapters brings out different aspects of irrigation including irrigation situation in the world, rainfall, evaporation, water wealth and progressive development of irrigation in India, measurement of soil water and irrigation water, methods of irrigation, irrigation with saline water, formulating cropping pattern in irrigated area and management of high water table. In the second edition, a new chapter on 'On-farm Irrigation System' has been included and a few chapters have been updated to include latest development. The book has useful research data and a large number of diagrams for easy comprehension of the topics. The end-of-chapter problems and numerous worked-out examples serve to aid further understanding of the subject. The book also contains an extensive glossary.

Races and Cultures of India S. Chand Publishing

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but

experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

The Social System and Culture of Modern India Pearson Education India

A Companion to South Asia in the Past provides the definitive overview of research and knowledge about South Asia's past, from the Pleistocene to the historic era in India, Pakistan, Sri Lanka, Bangladesh and Nepal, provided by a truly global team of experts. A large number of illustrations, pictures and interesting examples have been provided to make the reading interesting and understandable. The question that have been provided in the Exercise are in tune with the latest pattern of examination.

The Tharu Cambridge University Press

Dhirendra Nath Majumdar was one of the pioneers of anthropological research in India. He joined the Department of Economics & Sociology, University of Lucknow in 1928. In the course of his 32 years of academic work, he created in Lucknow an exceptional center for anthropological studies through the institutions and journals he founded. Trying to relate the basic concepts of anthropology to the general public, he popularized the concept of 'public anthropology, ' and was also instrumental in promoting anthropology in Hindi. Author H.S. Saksena, one of his prominent students, analyzes Majumdar's life and works on his contributions to tribal ethnography, covering communities from a wide range of habitat, cultural and economic life, and social organization. The book also considers Majumdar's post-1947 studies of changing caste structure and dynamics seen in Indian villages, rural development programs, urban settlements, composition of the working class, as well as emerging problems, such as unemployment among the educated. In his earlier works on tribal communities, Majumdar's anthropometric and serological surveys of select communities and groups in Bengal, Gujarat, and Uttar Pradesh, as well as his contributions to other fields of anthropology, are also discussed. Professor T.N. Madan in his foreword describes this study as the "first full length study of the work on an Indian anthropologist." He adds that "to write about a "general" anthropologist such as D.N. Majumdar, in our times of specialization is, needless to emphasize, a daunting task." [Subject: India Studies, Anthropology]

A Companion to South Asia in the Past Atlantic Publishers & Dist

This Is A Comprehensive Textbook On Anthro-Pology. List Of Books Published On Tribal Studies In India. This Will Be Particularly Useful For Researchers Working In The Field Of Tribal Studies.

Indian Anthropology Oxford India Paperbacks

The revision comes 10 years after the first edition and completely overhauls the text not only in terms of look and feel but also content which is now contemporary while also being timeless. A large number of words are explained with the help of examples and their lineage which helps the reader understand their individual usage and the ways to use them on the correct occasion.

Culture and Development PHI Learning Pvt. Ltd.

This book is designed to present introductory information on tribes especially on characteristics, family, distribution, dialect, demography, economy, kinship, marriage, dormitory, religion, culture, magic, role in forest development, symbiotic relationship, anthropological aspects of tribe and the tribal development through various plans, schemes and programmes. Presently, there is no text book available that comprehensively covers the syllabus prescribed for Forest Tribology and Anthropology course in the Forestry degree programme. Authors have attempted to fill this gap by collecting and compiling all the necessary information on tribals of India at one place in the form of textbook. The entire material is presented in simple language for easy understanding and supported with latest data and research findings. This book is expected to serve as an excellent text book for undergraduates and post graduates in forestry colleges and related disciplines. It will serves as a reference book for students, teachers, foresters, policy makers, anthropologists, research workers, aspirants of competitive exams and general readers as well.

Sociology: A Study of the Social Sphere Hassell Street Press

This book covers the thought, theories, meaning and views on the origin, history, of anthropological thought. It analyses and interprets the diffusion, structure, function and personality of culture. It also discusses the theoretical contributions of Indian anthropologies and the pioneering works of some independent sociologists and anthropologists of the world. It is useful for students of Anthropology, Sociology and those appearing for Central Services examinations (UPSC and state service commissions).

Report. 1960-61 John Wiley & Sons

The book makes serious theoretical contribution to the field of political economy in indigenous development, public policy, sociology and development studies. It further establishes the relationship between Hinduisation of indigenous communities and rise of Hindu fundamentalism with a mining led industrial capital while evaluating the impact on the new economic reforms on tribals and their social, cultural, and religious identities in Orissa.

With Actual University Questions At The End Of Each Chapter, This Book Intends To Deliver First Division At The Examination.

B.SC. Chemistry-III (UGC) Scientific Publishers

This work explores some of the constitutive elements in the life and mind of Bengal in the twentieth century. The author addresses some frequently unasked questions about the history of modern Bengal. In what way was twentieth-century Bengal different from 'Renaissance' Bengal of the late-nineteenth century? How was a regional identity consciousness redefined? Did the lineaments of politics in Bengal differ from the pattern in the rest of India? What social experiences drove the Muslim community's identity perception? How did Bengal cope with such crises as the impact of World War II, the famine of 1943 and the communal clashes that climaxed with the Calcutta riots of 1946? The author has chosen a significant period in the history of the region and draws on a wealth of sources archival and published documents, mainstream dailies, a host of rare Bengali magazines, memoirs and the literature of the time to tell his story. Looking closely at the momentous changes taking place in the region's economy, politics and socio-cultural milieu in the

historically transformative years 1920-47, this book highlights myriad issues that cast a shadow on the decades that followed, arguably till our times.

IRRIGATION WATER MANAGEMENT Rowman & Littlefield
Caste, Communication and Power explores communication and the constitution of caste in Indian society. Intimately connected, both communication and caste are determined by historical developments. The book looks at communication as a lens to study caste and power relations, with its immense potential to shape perception and affect ground reality. It also studies the evolution of the conceptual and theoretical foundations of caste and power relations, and maps their emergence from communicative resources and practices. These communication practices are inevitably linked to the social structure, with their reliance on symbolic forms of self-expression, often revealing the underlying ideological attitudes. The book studies this interface of culture and media, evaluating the caste question and the associated power relations in terms of modes of communication practised in the society.
