The New York Times bestseller Nikki Sixx is one of the most respected, recognizable, and entrepreneurial icons in the music industry. As the founder of Mötley Crüe who is now in his twenty-first year of sobriety, Sixx is incredibly passionate about his craft and wonderfully open about his life in rock and roll, and as

a person of the world. Born Franklin Carlton Feranna on December 11, 1958, young Frankie was abandoned by his father and partly raised by his mother, a woman who was ahead of her time in some ways and deeply troubled in others. Frankie ended up living with his grandparents, bouncing from farm to farm and state to state. He was an all-American kid—hunting, fishing, chasing girls, and playing football—but underneath it all, there was a burning desire for more, and that more was music. He eventually took a Greyhound bound for Hollywood. In Los Angeles, Frank lived with his aunt and his uncle—the president of Capitol Records. But there was no short path to the top. He was soon on his own. There were dead-end jobs: dipping circuit boards, clerking at liquor and record stores, selling used light bulbs, and hustling to survive. But at night, Frank honed his craft, joining Sister, a band formed by fellow hard-rock veteran Blackie Lawless, and formed a group of his own: London, the precursor of Mötley Crüe. Turning down an offer to join Randy Rhoads' band, Frank changed his name to Nikki London, Nikki Nine, and, finally, Nikki Sixx. Like Huck Finn with a stolen guitar, he had a vision: a group that combined punk, glam, and hard rock into the biggest, most theatrical and irresistible package the world had ever seen. With hard work, passion, and some luck, the vision manifested in reality - and this is a profound true story finding identity, of how Frank Feranna became Nikki Sixx. And it's a road map to the ways you can overcome anything, and achieve all of your goals, if only you put your mind to it.

As an Indian wedding gathers a family back together, parents Rafiq and Layla must reckon with the choices their children have made. There is Hadia: their headstrong, eldest daughter, whose marriage is a match of love and not tradition. Huda, the middle child, determined to follow in her sister's footsteps. And lastly, their estranged son, Amar, who returns to the family fold for the first time in three years to take his

place as brother of the bride. What secrets and betrayals have caused this close-knit family to fracture? Can Amar find his way back to the people who know and love him best? *A Place for Us* takes us back to the beginning of this family's life: from the bonds that bring them together, to the differences that pull them apart. All the joy and struggle of family life is here, from Rafiq and Layla's own arrival in America from India, to the years in which their children—each in their own way—tread between two cultures, seeking to find their place in the world, as well as a path home. *A Place for Us* is a book for our times: an astonishingly tender-hearted novel of identity and belonging, and a resonant portrait of what it means to be an American family today. It announces Fatima Farheen Mirza as a major new literary talent.

A trio of misbehaving, mango-loving monkeys have a close call as the creator of *Don't Worry, Little Crab* gives readers a taste of vicarious mischief. Three little monkeys and their big monkey are sitting high on a branch in the forest canopy. "OK, monkeys! I'm off," says the big monkey. "Remember . . . Whatever you

do, do NOT go down to the mango tree. There are tigers down there." Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries—and indulging your more impish side (when nobody is looking).

The heiress of Styles has been murdered, dying in agony from strychnine slipped into her coffee. And there are plenty who would gain from her death: the financially strapped stepson, the gold digging younger husband, and an embittered daughter-in-law. Agatha Christie's eccentric and hugely popular detective, Hercule Poirot, was introduced to the world in this book, which launched her career as the most famous and best loved of all mystery writers.

The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

Little did Isaac Newton, Charles Darwin and other ‘gentlemen scientists’ know, when they were making their scientific discoveries, that some centuries later they would inspire a new field of scientific practice and innovation, called citizen science. The current growth and availability of citizen science projects and relevant applications to support citizen involvement is massive; every citizen has an opportunity to become a scientist and contribute to a scientific discipline, without having any professional qualifications. With geographic interfaces being the common approach to support collection, analysis and dissemination of data contributed by participants, ‘geographic citizen science’ is being approached from different angles. *Geographic Citizen Science Design* takes an anthropological and Human-Computer Interaction (HCI) stance to provide the theoretical and methodological foundations to support the design, development and evaluation of citizen science projects and their user-friendly applications. Through a careful selection of case studies in the urban and non-urban contexts of the Global North and South, the chapters provide insights into the design and interaction barriers, as well as on the lessons learned from the engagement of a diverse set of participants; for example, literate and non-literate people with a range of technical skills, and with different cultural backgrounds. Looking at the field through the lenses of specific case studies, the book captures the current state of the art in research and development of geographic citizen science and provides critical insight to inform technological innovation and future research in this area.

NEW YORK TIMES BESTSELLER • “A powerfully imagined novel . . . [a] profoundly moving book that engages the heights and depths of human experience.”—Los Angeles Times It is September 8, 1943, and fourteen-year-old Claudette Blum and her father are among the thousands of Jewish refugees scrambling over the Alps toward Italy, where they hope to find safety now that the Italians have broken from Germany and made a separate peace with the Allies. The Blums will soon discover that Italy is anything but peaceful, as it quickly becomes an open battleground for the Nazis, the Allies, Resistance fighters, Jews in hiding, and ordinary Italian civilians trying to survive. Tracing the lives of a handful of fascinating characters—a charismatic Italian Resistance leader, a priest, an Italian rabbi's family, a disillusioned German doctor—Mary Doria Russell tells the little-known story of the vast underground effort by Italian citizens who saved the lives of 43,000 Jews during the final phase of World War II. *A Thread of Grace* puts a human face on history.
