*Vigilantism Against
Migrants and Minorities*
Taylor & Francis Group
Provides an original
view of the potential
for a radical
democratic politics
today that speaks not
only to the Italian
situation but also to a
broadly international

context. First, the
essays settle accounts
with the culture of
cynicism, opportunism
and fear that has come
to permeate the Left.
They then proceed to
analyze the new
difficulties and
possibilities opened by
current economic
conditions and the
crisis of the welfare
state. Finally, the
authors propose a
series of new concepts

that are helpful in rethinking revolution for our times.

Contributors include Giorgio Agamben, Massimo De Carolis, Alisa Del Re, Augusto Illuminati, Maurizio Lazzarato, Antonio Negri, Franco Piperno, Marco Revelli, Rossana Rossanda, Carlo Vercellone and Adelino Zanini.

Interdisciplinarity

Chicago : S.C. Griggs
Chronicles the avant-garde rock music scene that has developed in continental Europe and elsewhere around the globe over the last 30 years.

Phrases and Names, Their Origins and Meanings Rizzoli Publications

Over the last two decades "poverty" has moved centrestage as an issue within the social sciences. This volume, edited by one of Europe's foremost sociologists, aims to assess the debates

surrounding poverty and the responses to it, exploring the ways in which the various socio-political systems and welfarist regimes are being radically transformed. The essays examine how such change is effected by failing welfare programmes and enervating social structures such as family and community which once would have provided mechanisms of social stability. The first part of the book provides reflections on urban poverty; the second part discusses the widely debated idea of an "underclass" and its meanings in Europe and in the USA, and the final part draws on concrete empirical analyses to examine the patterns of poverty throughout Western Europe. This

volume will be of first-rate importance to all serious students of politics, sociology, geography, public policy, youth and community studies, social policy and American studies.

From victim diaspora to transborder citizenship?

Cambridge University Press

The third of a three-part study of Latin American history, focusing on events and people of the twentieth century.

Urban Poverty and the Underclass Springer

This comprehensive volume examines the little-known relationship—both artistic and personal—between two of the greatest avant-garde artists of the twentieth century.

Pablo Picasso and Alberto Giacometti, each in their own way, deeply disrupted existing artistic codes and pushed the barriers of established aesthetic canons in the domains of painting and sculpture. This tome reveals their friendship and the little-known artistic dialogue between them on the subjects and questions central to their work. Richly illustrated, this volume establishes clear correlations in their artistic production and provides new insight into the Picasso and Giacometti ateliers through incisive essays from art historians, which draw on previously unpublished documents. An anthology of historical texts offers the intimate perspective of

the master artists' contemporaries including Man Ray, whose descriptions reveal fascinating portraits of the characters and working habits of his two friends.

One-Punch Man

Eurock

This book reassesses the role of Russian Montparnasse writers in the articulation of transnational modernism generated by exile. Examining their production from a comparative perspective, it demonstrates that their response to urban modernity transcended the Russian master narrative and resonated with broader aesthetic trends in interwar Europe. *Urban Uprisings* Univ. Press of Mississippi
Creolizing Europe

critically interrogates creolization as the decolonial, rhizomatic thinking necessary for understanding the cultural and social transformations set in motion through trans/national dislocations. Exploring the usefulness, transferability, and limitations of creolization for thinking post/coloniality, raciality and othering not only as historical legacies but as immanent to and constitutive of European societies, this volume develops an interdisciplinary dialogue between the social sciences and the humanities. It juxtaposes US-UK debates on 'hybridity', 'mixed-race' and the 'Black Atlantic' with Caribbean and Latin American theorizations

of cultural mixing in order to engage with Europe as a permanent scene of Édouard Glissant's creolization. Further, through a comparative methodological angle, the focus on Europe is broadened in order to understand the role of Europe's colonial past in the shaping of its post/migrant and diasporic present. 'Europe' thus becomes an expanded and contested term, unthinkable without reference to its historical legacies and possible futures. While not all the contributions in this volume explicitly address Édouard Glissant's approach to creolization, they all engage with aspects of his thinking. All of the chapters explore the usefulness,

transferability, and limitations of creolization to the European context. As such, this edited collection offers a significant contribution and intervention in the fields of European Studies, Postcolonial Studies, and Cultural Studies on two levels. First, by emphasizing that race and cultural mixing are central to any thinking about and theorization on/of Europe, and second, by applying Glissant's perspective to a variety of empirical work on diasporic spaces, conviviality, citizenship, aesthetics, race, racism, sexuality, gender, cultural representation and memory.

Zombie Apocalypse!

Fightback Multilingual Matters

Millie Greenwood leads

an uneventful life with her overprotective parents in Bramblewood, the most boring village in England - until one day, not long after her sixteenth birthday, she sneakily forges her mother's signature to go on a school trip to Paris. But by leaving Great Britain via the Channel Tunnel, Millie unwittingly breaks an invisible seal. Before she knows what's going on, she and her friends find themselves targeted by Maison Pim, a Parisian fashion house... which just happens to be the front for an ancient and incredibly evil syndicate of vampires. Soon, Millie will learn that Bramblewood isn't as boring as she thinks, that there's more to her parents than meets the eye, that the

paintings in the Louvre aren't just paintings, that the world is full of ghosts, witches and shapeshifters, that some of her classmates possess hidden talents even they are unaware of... and that the key to her survival might be an ugly, misshapen pearl. But who can she trust? Because now the vampires are after her blood, and their evil influence reaches far and wide. *Blood Pearl* is the first volume in *The Camillography*, a seductive fantasy saga in which Britain and France provide settings for the age-old struggles between good and evil, life and death, innocence and experience - and casual wear versus haute couture. *GoGo Monster* W. W. Norton

Bonadio brings together experts to provide the first comprehensive analysis of issues related to copyright in street art and graffiti. This book sheds light on the legal tools available for artists and offers policy and sociological insights to spur further debate. It will appeal to legal scholars and law practitioners around the world.

Radical Thought in Italy
Boston : H. Mifflin

Pantomime is a theatrical form that has come to rule our everyday lives as terror. In the early years of the 21st century, a dissembling political demonology has sometimes placed otherwise merely lyrical musicians in a volatile predicament. The discussion here is

of Fun-da-Mental's Aki Nawaz portrayed as a 'suicide rapper', Asian Dub Foundation striking poses from the street in support of youth in Paris and Algiers, and M.I.A., born free fighting immigration crackdown with atrocity video. Along the way, bus bombs, comedy circuits, critical theory, Arabian Nights, Bradley Wiggins, Dinarzade, Karl Marx, Paris boulevards, Molotov, Mao, the Eiffel Tower, reserve armies, lists, Richard Wagner, Samina Malik, Slavoj Žižek, Freudian slips, red-heads, Guantanamo. The book offers some sharp critiques of our contemporary complacency, and the failures of theory as more than ten years of war on terror turns

anxiety at home and drone-strike assassinations abroad into a normal everyday. This pantomime is a terror story told over and over to distract from the workings of a despotic power. The need for an adequate (winning) counter-narrative was never more clear.

Pantomime Terror

Cornell University Press
 Youth has been represented on screen for decades and has informed many directors' visual, narrative and social perspectives, but there has not been a body of work addressing the richness and complexity of this topic in a French and Francophone context. This volume offers new insights into the works of emerging and well-established directors alike, who all chose to place youth at the heart of their narrative and aesthetic concerns. Showing how the topic of 'youth' has inspired filmmakers to explore and reinvent common tropes associated with young people, the book also addresses how the representation of youth can be used to mirror

the tensions - political, social, religious, economic or cultural - that agitate a society at a given time in its history.

Valences of Interdisciplinarity

John Wiley & Sons
 In this volume, Julie Klein provides the first comprehensive study of the modern concept of interdisciplinarity, supplementing her discussion with the most complete bibliography yet compiled on the subject. Spanning the social sciences, natural sciences, humanities, and professions, her study is a synthesis of existing scholarship on interdisciplinary research, education and health care. Klein argues that any interdisciplinary activity embodies a complex network of

historical, social, psychological, political, economic, philosophical, and intellectual factors. Whether the context is a short-ranged instrumentality or a long-range reconceptualization of the way we know and learn, the concept of interdisciplinarity is an important means of solving problems and answering questions that cannot be satisfactorily addressed using singular methods or approaches.

Russian Montparnasse
Springer

This book analyses the waves of protests, from spontaneous uprisings to well-organized forms of collective action, which have shaken European cities over the last decade. It shows how analysing

these protests in connection with the structural context of neoliberal urbanism and its crises is more productive than standard explanations. Processes of neoliberalisation have caused deeply segregated urban landscapes defined by deepening social inequality, rising unemployment, racism, securitization of urban spaces and welfare state withdrawal, particularly from poor peripheral areas, where tensions between marginalized youth and police often manifest in public spaces. Challenging a conventional distinction made in research on protest, the book integrates a structural analysis of processes of large scale urban

transformation with analyses of the relationship between 'riots' and social movement action in nine countries: France, Greece, England, Germany, Spain, Poland, Denmark, Sweden and Turkey.

A New Pocket Dictionary of the French and English Languages Springer

This book, addressed to experienced and novice language educators, provides an up-to-date overview of sociolinguistics, reflecting changes in the global situation and the continuing evolution of the field and its relevance to language education around the world. Topics covered include nationalism and popular culture, style and identity, creole languages, critical

language awareness, gender and ethnicity, multimodal literacies, classroom discourse, and ideologies and power. Whether considering the role of English as an international language or innovative initiatives in Indigenous language revitalization, in every context of the world sociolinguistic perspectives highlight the fluid and flexible use of language in communities and classrooms, and the importance of teacher practices that open up spaces of awareness and acceptance of -- and access to--the widest possible communicative repertoire for students. *Life and Letters of Toru Dutt* John Hunt Publishing
This book examines the emotional

engagements of both Indigenous and Non-Indigenous people with Indigenous history. The contributors are a mix of Indigenous and Non-Indigenous scholars, who in different ways examine how the past lives on in the present, as myth, memory, and history. Each chapter throws fresh light on an aspect of history-making by or about Indigenous people, such as the extent of massacres on the frontier, the myth of Aboriginal male idleness, the controversy over Flynn of the Inland, the meaning of the Referendum of 1967, and the policy and practice of Indigenous child removal.

Watchfiends & Rack Screams DigiCat
"This edited volume traces the rise of far

right vigilante movements - some who have been involved in serious violence against minorities, migrants and other vulnerable groups in society, whereas other vigilantes are intimidating but avoid using violence. Written by an international team of contributors, the book features case studies from Western Europe, Eastern Europe, North America, and Asia. Each chapter is written to a common research template examining the national social and political context, the purpose of the vigilante group, how it is organised and operates, its communications and social media strategy and its relationship to mainstream social actors and institutions,

and to similar groups in other countries. The final comparative chapter explores some of the broader research issues such as under which conditions such vigilantism emerges, flourishes or fails, policing approaches, masculinity, the role of social media, responses from the state and civil society, and the evidence of transnational co-operation or inspiration. This is a groundbreaking volume which will be of particular interest to scholars with an interest in the extreme right, social movements, political violence, policing and criminology"--

Screening Youth

Palgrave Macmillan

Based on a series of case studies of globally distributed media and their reception in different parts of the world, *Imagining the Global* reflects on what contemporary global culture can teach us about transnational cultural dynamics in the 21st century. A focused multisited cultural analysis that reflects on the symbiotic relationship

between the local, the national, and the global, it also explores how individuals' consumption of global media shapes their imagination of both faraway places and their own local lives. Chosen for their continuing influence, historical relationships, and different geopolitical positions, the case sites of France, Japan, and the United States provide opportunities to move beyond common dichotomies between East and West, or United States and "the rest." From a theoretical point of view, *Imagining the Global* endeavors to answer the question of how one locale can help us understand another locale.

Drawing from a wealth of primary sources—several years of fieldwork; extensive participant observation; more than 80 formal interviews with some 160 media consumers (and occasionally producers) in France, Japan, and the United States; and analyses of media in different languages—author Fabienne Darling-Wolf considers how global culture intersects with other significant identity factors, including gender, race, class, and geography. *Imagining the Global* investigates who gets to participate in and who gets excluded from global media representation, as well as how and why the distinction matters.
