Salt on Our Skin International Labour  
Organization

Der Literaturwissenschaftler und -kritiker  
Niklas Bender untersucht an ausgewählten  
Beispielen der modernen und der  
Gegenwartsliteratur, wie das Lesen von  
Literatur heute dazu beitragen kann, das  
Leben sinnvoll zu gestalten. Im ersten Teil  
seines Essays nimmt der Autor eine  
Diagnose der digitalen Gegenwart vor, die

uns mit einem Überangebot an möglichen  
Existenzweisen überhäuft. An den  
Beispielen Flaubert, Pirandello und  
Houellebecq zeigt er auf, wie Romane  
einen guten Umgang mit dieser  
Überflutung lehren können – gerade durch  
Erzählwelten, in denen Lebenswege auch  
einmal verpasst und Potenziale nicht  
immer genutzt werden. Im zweiten Teil  
wird anhand von drei Dichtern der  
Moderne und der Gegenwart (Baudelaire,  
Montale und Nico Bleutge)  
veranschaulicht, auf welche Weise Lyrik  
uns das Ergreifen von intensiven  
Momenten vor Augen zu führen vermag.

Im dritten Teil des Buches wird ein  
weiterer aktueller Aspekt hervorgehoben:  
das (etwa in den sozialen Medien)  
allgegenwärtige Storytelling, das mit mehr  
oder weniger lobenswerten Absichten  
unsere Existenz in erzählerische Bahnen  
zu lenken versucht. Die beiden Lehren der  
Literatur – die Pflege des Möglichkeits- und  
des Augenblickssinns – können uns helfen,  
die Mechanismen des Storytelling  
aufzubrechen und unsere  
Lebensgeschichte sowohl komplexer als  
auch intensiver zu gestalten. Sie  
ermuntern uns und leiten uns an, ein  
selbstbestimmtes Leben zu führen.

The stunning bestseller by Benji Davies, winner of the inaugural Oscar's First Book Prize. Noi and his father live in a house by the sea, his father works hard as a fisherman and Noi often has only their six cats for company. So when, one day, he finds a baby whale washed up on the beach after a storm, Noi is excited and takes it home to care for it. He tries to keep his new friend a secret, but there's only so long you can keep a whale in the bath without your dad finding out. Noi is eventually persuaded that the whale has to go back to the sea where it belongs. For Noi, even though he can't keep it, the arrival of the whale changes his life for the better - the perfect gift from one friend to another. Madame Ernestine: eine kleine Frau mit

Denn als ihr Arbeitgeber, der amerikanische Diplomat Harry Bishop, völlig überraschend an einem Herzinfarkt stirbt, sieht sie sich gleich mehreren Herausforderungen gegenüber: Zum einen wird sie unerwarteterweise zu Harrys Testamentseröffnung zitiert - und in Folge in die dubiosen Machenschaften der Brüsseler feinen Gesellschaft verwickelt. Zum anderen aber muss sie sich vor allem erst einmal um eine neue Stelle bemühen. Die findet sie im Haushalt des geheimnisumwehten ehemaligen Meistercellisten Sébastien Balthasar. Und bewirkt dort mit ihrem altmodischen Kehrgerät und ihrem eigenwilligen Charme ihr ganz eigenes kleines Wunder ...

Groundwork of Phenomenological Marxism

It was the biggest leak in history.

WikiLeaks infuriated the world's greatest superpower, embarrassed the British royal family and helped cause a revolution in Africa. The man behind it was Julian Assange, one of the strangest figures ever to become a worldwide celebrity. Was he an internet messiah or a cyber-terrorist? Information freedom fighter or sex criminal? The debate would echo around the globe as US politicians called for his assassination. Award-winning Guardian journalists David Leigh and Luke Harding have been at the centre of a unique publishing drama that involved the release of some 250,000 secret diplomatic cables and classified files from the Afghan and Iraq wars. At one point the platinum-haired hacker was hiding from the CIA in David Leigh's London house. Now, together with the paper's investigative reporting team, Leigh and Harding reveal the startling inside story of the man and the leak.

It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym

regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

Erasmus of Rotterdam (1466/67-1536) remains, for good reason, the best-known humanist of his time. He influenced reformers, philosophers, politicians,

literati, legal scholars, educators, artists and musicians in his own as well as in later centuries and covered an astonishingly broad range of topics: war and peace, politics and human dignity, jurisdiction and philosophy of law, church music and homiletics, piety and common wisdom, style and manners, as well as questions of matrimony, gender and education. Indeed, Erasmus thought continues to influence European intellectual history to this day. Christine Christ-von Wedel introduces Erasmus as a personality but also expands on his rich and multi-layered thinking and the struggles and longings in the age of Reformation characterised by his clashes with both Martin Luther and the Catholic establishment.

This book draws the philosophical contribution of Martin Heidegger together with theological-spiritual insights from the East, especially that of Nikolai Berdyaev. Thus, it brings into dialogue the West with the East, and philosophy with theology. By doing so, it offers Christian theology an existential-spiritual language that is relevant and meaningful for the contemporary reader. In particular, the work explores Heidegger's 'being towards death' (Sein zum Tode) as the basis for theological-philosophical thinking. Only the one who embraces 'being towards death' has the courage to think and poetize. This thinking, in turn, makes 'being towards death' possible, and in this circular movement of thinking and being, the mystery of being reveals itself and yet remains hidden. Since the work aims at demonstrating 'being towards death' through language, it transitions away from the common formulations and traditionally accepted ways of writing (dogmatic) theology towards an original, philosophical

reflection on faith and spirituality. At different points, however, the work also retrieves the profound thoughts and theologies of the past, the insightful creativity of which cannot be denied.

Regarding philosophical importance, Edmund Husserl is arguably "the" German export of the early twentieth century. In the wake of the linguistic turn(s) of the humanities, however, his claim to return to the "Sachen selbst" became metonymic for the neglect of language in Western philosophy. This view has been particularly influential in post-structural literary theory, which has never ceased to attack the supposed "logophobie" of phenomenology. "Phenomenology to the Letter. Husserl and Literature" challenges this verdict regarding the poetological and logical implications of Husserl's work through a thorough re-examination of his writing in the context of literary theory, classical rhetoric, and modern art. At issue is an approach to phenomenology and literature that does not merely coordinate the two discourses but explores their mutual implication. Contributions to the

volume attend to the interplay between phenomenology and literature (both fiction and poetry), experience and language, as well as images and embodiment. The volume is the first of its kind to chart a phenomenological approach to literature and literary approach to phenomenology. As such it stands poised to make a novel contribution to literary studies and philosophy.

This is an account of a spiritual enquiry into evolution, civilization, our place in the universe and the structure of reality itself. It is a cosmology which relates to present science but takes us beyond the Big Bang and back through our psyche to our original state in eternity or God's mind.

Die Prosa-Edda ist der wichtigste sprach- und dichtungstheoretische Text des skandinavischen Mittelalters. Sie wird in diesem Band einer ganzheitlichen und systematischen Lektüre unterzogen und als Form kultureller Sinnstiftung gelesen. Ausgangspunkt der Lektüre ist die Leitthese, dass die Prosa-Edda nicht nur ein Lehrwerk für skaldische Dichtung ist,

sondern sich umfassend und mit einem sprach- und medientheoretischen Ansatz für Sprache, Erzählen und Dichtung interessiert. Im Zentrum der vorliegenden Arbeit steht Codex Upsaliensis DG 11 4to (ca. 1300). Die Zusammenstellung verschiedenster medialer Phänomene macht die Edda-Version in dieser Handschrift so einzigartig: Neben den bekannten Texten finden sich genealogische Listen, grammatische Diagramme und Bilder, die alle Organisationsformen von Wissen darstellen, welche bisher noch ungenügend in eine Lektüre der Prosa-Edda eingeflossen sind. Eine solche Lektüre der vielfältigen Inhalte von Codex Upsaliensis wird durch den Theorieansatz der literarischen Performativität systematisiert. Dieser Diskurs ist in der skandinavistischen Mediävistik bislang noch nicht sehr bekannt. Er bietet jedoch ein theoretisches Begriffsinventar, das über mediale Grenzen hinweg anwendbar
