 This is a history of flight inspection from  
 1926 to 1990. Flight inspection is provided  
 by the Federal Aviation Administration  
 (FAA) to ensure that the National Airspace  
 System is the safest and most reliable  
 system in the world. Flight inspection is a  
 term used to define electronic airborne  
 flight checks (quality assurance) of airway  
 navigational ground-based radio aids and  
 space-based satellites assuring their  
 accuracy and performance. Under Public  
 Law, the FAA is responsible for  
 accomplishing these checks. The FAA  
 performs flight inspection services in over  
 50 countries. Over 100 photos.
