#1 NEW YORK TIMES BESTSELLER

Featured by Oprah's Book Club on the
Anti-Racist Books for Young Adults list
curated by bestselling author Jacqueline
Woodson A USA TODAY Bestseller
Recommended by The Guardian, Time,
Grazia, The Telegraph, Express, and The
Sun 'This is one for you, your neighbour,

the children in your lives and especially
that 'only slightly' racist colleague... A
guide to the history of racism and a
blueprint for change' —The Guardian Who
are you? What is racism? Where does it
come from? Why does it exist? What can
you do to disrupt it? Learn about social
identities, the history of racism and
resistance against it, and how you can use
your anti-racist lens and voice to move the
world toward equity and liberation. 'In a
racist society, it's not enough to be non-
racist—we must be ANTI-RACIST.' —Angela
Davis Gain a deeper understanding of your
anti-racist self as you progress through 20

chapters that spark introspection, reveal
the origins of racism that we are still
experiencing and give you the courage
and power to undo it. Each chapter builds
on the previous one as you learn more
about yourself and racial oppression. 20
activities get you thinking and help you
grow with the knowledge. All you need is a
pen and paper. Author Tiffany Jewell, an
anti-bias, anti-racist educator and activist,
builds solidarity beginning with the
language she chooses – using gender
neutral words to honour everyone who
reads the book. Illustrator Aurélia Durand
brings the stories and characters to life

with kaleidoscopic vibrancy. After examining the concepts of social identity, race, ethnicity and racism, learn about some of the ways people of different races have been oppressed, from indigenous Americans and Australians being sent to boarding school to be 'civilized' to a generation of Caribbean immigrants once welcomed to the UK being threatened with deportation by strict immigration laws. Find hope in stories of strength, love, joy and revolution that are part of our history, too, with such figures as the former slave Toussaint Louverture, who led a rebellion against white planters that eventually led to Haiti's independence, and Yuri Kochiyama, who, after spending time in an internment camp for Japanese Americans during WWII, dedicated her life to supporting political prisoners and advocating reparations for those wrongfully interned. Learn language and phrases to interrupt and disrupt racism. So, when you hear a microaggression or racial slur, you'll know how to act next time. This book is written for EVERYONE who lives in this racialised society—including the young person who doesn't know how to speak up to the racist

adults in their life, the kid who has lost themselves at times trying to fit into the dominant culture, the children who have been harmed (physically and emotionally) because no one stood up for them or they couldn't stand up for themselves and also for their families, teachers and administrators. With this book, be empowered to actively defy racism and xenophobia to create a community (large and small) that truly honours everyone. **Two Planets** Putnam Publishing Group

Mehrsinnliches Geschichtenerzählen - eine Idee setzt sich durch Walther König Verlag
 The author of Lincoln's Boys takes us inside Lyndon Johnson's White House to show how the legendary Great Society programs were actually put into practice: Team of Rivals for LBJ. The personalities behind every burst of 1960s liberal reform - from civil rights and immigration reform, to Medicare and Head Start. "Absorbing, and astoundingly well-researched -- all good historians do their homework, but

Zeitzy goes above and beyond. It's a more than worthwhile addition to the canon of books about Johnson."--NPR "Beautifully written...a riveting portrait of LBJ... Every officeholder in Washington would profit from reading this book." --Robert Dallek, Author of An Unfinished Life: John F. Kennedy, 1917-1963 and Franklin D. Roosevelt: A Political Life LBJ's towering political skills and his ambitious slate of liberal legislation are the stuff of legend: the Civil Rights Act of 1964, the Voting Rights Act of 1965, Medicare, Medicaid, Head Start, and environmental reform. But what happened after the bills passed? One man could not and did not go it alone. Joshua Zeitzy reanimates the creative and contentious atmosphere inside Johnson's White House as a talented and energetic group of advisers made LBJ's vision a reality. They desegregated public and private institutions throughout one third of the United States; built Medicare and Medicaid from the ground up in one year; launched federal funding for public education; provided food support for millions of poor children and adults; and launched public television and radio, all in the space of five years, even as Vietnam

strained the administration's credibility and budget. Bill Moyers, Jack Valenti, Joe Califano, Harry McPherson and the other staff members who comprised LBJ's inner circle were men as pragmatic and ambitious as Johnson, equally skilled in the art of accumulating power or throwing a sharp elbow. Building the Great Society is the story of how one of the most competent White House staffs in American history - serving one of the most complicated presidents ever to occupy the Oval Office - fundamentally changed everyday life for millions of citizens and forged a legacy of compassionate and interventionist government.

Futures of Science and Technology in Society Simon and Schuster

Harold Wilson's famous reference to 'white heat' captured the optimistic spirit of a society in the midst of breathtaking change. From the gaudy pleasures of Swinging London to the tragic bloodshed in Northern Ireland, from the intrigues of Westminster to the drama of the World Cup, British life seemed to have taken on a dramatic new momentum. The memories, images and colourful personalities of those heady times still

resonate today: mop-tops and mini-skirts, strikes and demonstrations, Carnaby Street and Kings Road, Harold Wilson and Edward Heath, Mary Quant and Jean Shrimpton, Enoch Powell and Mary Whitehouse, Marianne Faithfull and Mick Jagger. In this wonderfully rich and readable historical narrative, Dominic Sandbrook looks behind the myths of the Swinging Sixties to unearth the contradictions of a society caught between optimism and decline.

The title refers to the legend of a horseman who rode over the frozen Lake Constance in a snowstorm and dropped dead with fright on the other side on discovering what he had done. In the play a group of characters, known only by the names of the actors who perform the parts, talk and play games together, skating over the thin ice that separates them from unspoken danger.

The stirring, never-before-translated story of a single, pregnant, and wickedly nervy young secretary making her way through a Germany succumbing to the Nazis. Irmgard Keun's first novel *Gilgi* was an overnight sensation upon its initial publication in Germany, selling thousands of copies, inspiring numerous imitators, and making Keun a household name—a reputation that was only heightened when, a few years later, the nervy Keun sued the Gestapo for blocking her royalties. The story of a young woman trying to establish her independence in a society being overtaken by fascism, *Gilgi* was not only a brave story, but revolutionary in its depiction of women's issues, at the same time that it was, simply, an absorbing and stirring tale of a dauntless spirit. *Gilgi* is a secretary in a hosiery firm, but she doesn't intend to stay there for long: she's disciplined and ambitious, taking language

classes, saving up money to go abroad, and carefully avoiding both the pawing of her boss and any other prolonged romantic entanglements. But then she falls in love with Martin, a charming drifter, and leaves her job for domestic bliss—which turns out not to be all that blissful-- and Gilgi finds herself pregnant and facing a number of moral dilemmas. Revolutionary at the time for its treatment of sexual harassment, abortion, single motherhood, and the "New Woman," Gilgi remains a perceptive and beautifully constructed novel about one woman's path to maturity. It is presented here in its first-ever translation into English.

Heinrich Heine's role in the formation of Critical Theory has been systematically overlooked in the course of the successful appropriation of his thought by Marx, Nietzsche, Freud, and the legacy they left, in particular for Adorno, Benjamin and the Frankfurt School. This book examines the critical connections that led Adorno to call for a “reappraisal” of Heine in a 1948 essay that, published posthumously, remains under-examined. Tracing Heine's Jewish difference and its liberating comedy of irreverence in the thought of the Frankfurt School, the book situates the project of Critical Theory in the tradition of a praxis of critique, which Heine elevates to the art of public controversy. Heine's bold linking of aesthetics and political

concerns anticipates the critical paradigm assumed by Benjamin and Adorno. Reading Critical Theory with Heine recovers a forgotten voice that has theoretical critical significance for the formation of the Frankfurt School. With Heine, the project of Critical Theory can be understood as the sustained effort to advance the emancipation of the affects and the senses, at the heart of a theoretical vision that recognizes pleasure as the liberating force in the fight for freedom.

Longer-term developments shape the present and endogenous futures of institutions and practices of science and technology in society and their governance. Understanding the patterns allows diagnosis and soft intervention, often linked to scenario exercises. The book collects six articles offering key examples of this perspective, addressing ongoing issues in the governance of science and technology, including nanotechnology and responsible research and innovation. And adds two more articles that address background philosophical issues.

In the decades that followed World War II, cheap and plentiful oil helped to fuel rapid economic growth, ensure political stability, and reinforce the legitimacy of liberal democracies. Yet waves of price increases and the use of the so-called “oil weapon” by a group of Arab oil-producing countries in the early 1970s demonstrated the West’s dependence on this vital resource and its vulnerability to economic volatility and political conflicts. Oil and Sovereignty analyzes the national and international strategies that American and European governments formulated to restructure the world of oil and deal with the era’s disruptions. It shows how a variety of different actors combined diplomacy, knowledge creation, economic restructuring, and public relations in their attempts to impose stability and reassert national sovereignty.

A History of Modern Britain confronts head-on the victory of shopping over politics. It tells the story of how the great political visions of New Jerusalem or a

second Elizabethan Age, rival idealisms, came to be defeated by a culture of consumerism, celebrity and self-gratification. In each decade, political leaders think they know what they are doing, but find themselves confounded. Every time, the British people turn out to be stropier and harder to herd than predicted. Throughout, Britain is a country on the edge – first of invasion, then of bankruptcy, then on the vulnerable front line of the Cold War and later in the forefront of the great opening up of capital and migration now reshaping the world. This history follows all the political and economic stories, but deals too with comedy, cars, the war against homosexuals, Sixties anarchists, oil-men and punks, Margaret Thatcher's wonderful good luck, political lies and the true heroes of British theatre.

The exhibition Lens Based Sculpture explores contemporary sculpture's relationship and indebtedness to photography and the ways in which photography has transformed sculpture as a medium. With over 200 displayed works by more than 70 international artists, Lens

Based Sculpture develops the antiquated argument over the nature of these two mediums while bending the boundaries of their relationship to each other through an

innovative curation by Bogomir Ecker, Raimund Kummer, Friedemann Malsch, and Herbert Molderings. The exhibition

offers unique and interactive perspectives that challenge conceptions of depth, spatial-limits, and relational approaches to objects and methods of display.
