Historisch-genetische Studien zur Philosophie und Kulturgeschichte

In this first comprehensive study of Plato's conception of justice, apprehension of human dignity plays a crucial role for understanding an individual in relation to law and state. Plato's philosophy turns out to provide foundations for modern-day human rights protection rather than for totalitarian approaches.

What's in a

prefix? How to read a prefix as short as 're-'? Does 're-' really signify? Can it point into a specific direction? Can it reverse? Can it become the shibboleth of a 'postcritical' reboot? At first glance transparent and directional, 're-' complicates the linear and teleological models commonly accepted as structuring the relations between past, present, and future, opening onto

errant temporalities. *Religion and Difference* The first book to explore two of the biggest names in modern and contemporary art side by side, Marcel Duchamp and Jeff Koons In the first half of the 20th century, Marcel Duchamp redefined what we consider art and what it means to be an artist. Many of his ideas return, transformed, in the work of Jeff Koons,

born when Duchamp was 68 years old and whose own career lit up the art world of the late 20th and early 21st centuries. This is the first book to explore the affinities between these two highly influential artists, whose creative universes similarly question the function of objects and the allure of commodities. International art historians, writers, and curators contribute

their expertise on topics such as each artist's persona, as well as reflecting on the influence of technology and sexuality on their work. The publication of this intriguing book coincides with an exhibition at the Museo Jumex in Mexico City, opening in May 2019. This book is a copublication with Fundación Jumex Arte Contemporáneo. **Re-**
