Strictly No Elephants Albert Whitman
Teacher TV: Sixty Years of Teachers on Television examines some of the most influential teacher characters presented on television from the earliest sitcoms to contemporary dramas and comedies. Both topical and chronological, the book follows a general course across decades and focuses on dominant themes and representations, linking some of the most popular shows of the era to larger cultural themes. Some of these include: - a view of how gender is socially constructed in popular culture and in

society - racial tensions throughout the decades - educational privileges for elite students - the mundane and the provocative in teacher depictions on television - the view of gender and sexual orientation through a new lens - life in inner-city public schools - the culture of testing and dropping out. Every pre-service and classroom teacher should read this book. It is also a valuable text for upper-division undergraduate and graduate level courses in media and education as well. It is commonly known that some individuals are more easily hypnotized than others. What is less clear is why, and what can be learnt from these individual differences for hypnosis as a whole. *The Highly Hypnotizable Person* is the first book to present an up-to-date, comprehensive overview of what research and evidence there is for the existence and features of highly hypnotisable people. *The Highly Hypnotizable Person* draws on research findings from cognitive, developmental and clinical psychology and from neuropsychology and neurophysiology. Leading authorities on hypnosis provide a comprehensive account of what is known and understood about this phenomenon and treatment procedure, and in particular, the nature and implications of high susceptibility.

A grand epic saga by Robert McKenzie, *The Chair* spans centuries, touching the lives of 22 related mothers and daughters, their stories witnessed by a simple pine chair. Resolute, strong, loving, and fiercely protective, these women must strive to pass their values to new generations in a world of racism and sexism, politics, scandal, fashion—even the rise and dominance of baseball. They live in privilege and poverty, with faith and despair, relishing every moment of love even as they suffer abiding grief. Volume I: *Lightning, Thunder, & Glory* spans the 1600s through WWI, while Volume II: *Faith, Hope, & Love* follows these women's descendants into modern times and beyond. An authentic and uniquely American novel, *The Chair* conjures the very hallmarks of history, yet navigates the simple intimacy of everyday lives to

reveal who and why we are. Everybody sits, so find your own seat and discover *The Chair*.

The portrayal of clergy, saints, missionaries, monks, and other spiritual leaders dates back to the very beginnings of motion pictures and television. Over the years, filmmakers have portrayed religious figures as heroes and villains, sinners and saints, and nearly everything in between. Through their works, filmmakers have influenced how society viewed these religious figures and, by extension, religion itself. This work details over 900 films and television series made from the 1890s through 2003 in which a religious figure plays a prominent or recurring role, or in which a character poses as a religious figure. For each motion picture, full filmographic data are provided—including title, studio, running time, year of release, director, producer, writer, and cast—along with a synopsis focusing on the role of the religious figure. Television series are covered in a separate section. For each show, the entry includes the title under which the show was commonly known; the original broadcast network; the years the show ran, running time, and cast; and a brief discussion of the religious character's role in the overall series. Extensively indexed.

Activists and politicians have long recognized the power of a good story to move people to action. In early 1960 four black college students sat down at a whites-only lunch counter in Greensboro, North Carolina, and refused to leave. Within a month sit-ins spread to thirty cities in seven states. Student participants told stories of impulsive, spontaneous action—this despite all the planning that had gone into the sit-ins. “It was like a fever,” they said.

Francesca Polletta's *It Was Like a Fever* sets out to account for the power of storytelling in mobilizing political and social movements. Drawing on cases ranging from sixteenth-century tax revolts to contemporary debates about the future of the World Trade Center site, Polletta argues that stories are politically effective not when they have clear moral messages, but when they have complex, often ambiguous ones. The openness of stories to interpretation has allowed disadvantaged groups, in particular, to gain a hearing for new needs and to forge surprising political alliances. But popular beliefs in America about storytelling as a genre have also hurt those challenging the status quo. A rich analysis of storytelling in courtrooms, newsrooms, public forums, and the United States Congress, *It Was Like a Fever* offers provocative new insights into the dynamics of culture and contention.

THE NATIONAL BESTSELLER New York Times bestselling author Jason Pargin's *Zoey Punches the Future in the Dick* is the latest—and arguably greatest—sci-fi thriller in the Zoey Ashe Series. In the futuristic city of Tabula Ra\$ā, Zoey Ashe is like a fish so far out of water that it has achieved orbit. After inheriting a criminal empire, the twenty-three year-old finds herself under threat from all sides as a rogue's gallery of larger-than-life enemies think they smell weakness. On the eve of the world's most lavish and ridiculous Halloween celebration, a steamer trunk-sized box arrives at Zoey's door and she is shocked to find that it contains a disemboweled corpse. She is even more shocked when that corpse, controlled by an unknown party, rises and goes on a rampage through the house. Speaking in an electronic voice, it publicly accuses Zoey of being

its murderer. This is the kind of thing that almost never happened at her old job. The city was already a ticking time bomb of publicity-hungry vigilantes with superhuman enhancements and Zoey knows this turn of events is unlikely to improve the situation. Now, she and her team of high-tech tricksters have to solve this bizarre murder while simultaneously keeping Tabula Ra\$ā from descending into chaos. “Biting humor and blatant digs at modern society overlay a subtly brilliant and thoughtful plot” (Publishers Weekly) in *John Dies at the End* author Jason Pargin's first installment of the Zoey Ashe Series, *Futuristic Violence and Fancy Suits*. Now, “one of today's great satirists” (Nerdist) is back with *Zoey Punches the Future in the Dick*, the second installment in a “Technicolor tomorrowland.” (Kirkus Reviews) Don't Try This at Home Fresh Ink Group CMJ New Music Report is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend-forward retail sales.
