loomed as the focal point around which the Union and Confederate armies fought and suffered. This dramatic tale covers one of the Civil War's most gruesome battles, offering insight into the strategic turning point in Sherman's battle for Atlanta. From the Georgia rail towns of Acworth to Big Shanty (now Kennesaw) and Marietta, this book covers the Atlanta Campaign's deadly,

month-long struggle over possession of Kennesaw Mountain. From the fight through squalid trenches and adverse weather to the swarms of insects and the stench of lifeless soldiers, no misery endured by the troops is left out. Along with details of the grisly battle-which took the lives of nearly 200,000 men-author Russell W. Blount, Jr. provides insight into the character of the major

players on both sides of the conflict. The battle's common privates and their outlooks are chronicled as well, along with civilian accounts of the tragic occurrence. ABOUT THE AUTHOR Russell W. Blount, Jr. is a Civil War enthusiast who taught American history at the high-school level. He received a BS in history from the University of South Alabama, and his affinity for history is apparent in

his involvement with such organizations as the Civil War Preservation Trust, Sons of Confederate Veterans, and the Historic Mobile Preservation Society. Blount is also the author of Pelican's The Battles of New Hope Church. When not researching the Civil War, Blount enjoys reading, writing, and playing racquetball. He resides in Mobile, Alabama, with his wife. Minorities, Inc.

As the number of available priests has declined, the Sunday Mass is becoming less and less available in some parishes and dioceses. Sunday Celebrations in the Absence of a Priest addresses this growing reality by providing the appropriate ritual to be used in the celebrating community. This revised ritual edition of Sunday Celebrations in the Absence of a Priest is fully bilingual, with Spanish

and English printed side by side. It includes Morning Prayer, Evening Prayer, and two appendices, Directory for Sunday Celebrations in the Absence of a Priest and Gathered in Steadfast Faith. This beautifully bound ritual book includes three ribbons and is printed in two colors. It will be a welcome addition to the sacristy or library of every parish, school, convent, and

 Paddy Puzo didn't want to get involved in civil rights and American revisionary politics, but a bizarre midnight taxi ride in the most dangerous part of Los

Angeles abruptly catapults him into the wild and unpredictable world of Minorities, Inc. After barely surviving his involuntary entry into the more hazardous side of civil rights, Puzo's dysfunctional adventures take him to Washington, D.C., and subsequently, to a Pacific island aptly referred to as The Island of Thieves, where his continuing confrontations with racial enlightenment

finally lead him to hiding from the CIA while working at a remote and dilapidated pig farm somewhere in the Philippines. Records of Travel University of Illinois Press Few places in the United States feel the impact of courthouse disasters like the state of Georgia. Over its history, 75 of the state's counties have suffered 109 events resulting in the loss or severe damage of

their courthouse or court offices. This book documents those destructive events, including the date, time, circumstance, and impact on records. Each county narrative is supported by historical accounts from witnesses, newspapers, and legal documents. Maps show the geographic extent of major courthouse fires. Record losses are described in general terms,

helping researchers understand which events are most likely to affect their work.

 “A vivid account of a remarkable life.” —The Washington Post  
 In this comprehensive, revelatory biography—fifteen years of interviews and research in the making—historian Jane Sherron De Hart explores the central

experiences that crucially shaped Ginsburg’s passion for justice, her advocacy for gender equality, and her meticulous jurisprudence. At the heart of her story and abiding beliefs is her Jewish background, specifically the concept of tikkun olam, the Hebrew injunction to “repair the world,” with its profound meaning for a young girl who grew up during the Holocaust and World War II. Ruth’s journey

begins with her mother, who died tragically young but whose intellect inspired her daughter’s feminism. It stretches from Ruth’s days as a baton twirler at Brooklyn’s James Madison High School to Cornell University to Harvard and Columbia Law Schools; to becoming one of the first female law professors in the country and having to fight for equal pay and hide her second pregnancy to

avoid losing her job; to becoming the director of the ACLU's Women's Rights Project and arguing momentous anti-sex discrimination cases before the U.S. Supreme Court. All this, even before being nominated in 1993 to become the second woman on the Court, where her crucial decisions and dissents are still making history. Intimately, personally told, this biography

offers unprecedented insight into a pioneering life and legal career whose profound mark on American jurisprudence, American society, and our American character and spirit will reverberate deep into the twenty-first century and beyond. What does it mean for girls of color to become techno-social change agents-- individuals who fuse technological savvy with a deep understanding of society in order to analyze and confront inequality? Kimberly A. Scott explores this question and others as she details the National Science Foundation-funded enrichment

project  
COMPUGIRLS. This groundbreaking initiative teaches tech skills to adolescent girls of color but, as importantly, offers a setting that emphasizes empowerment, community advancement, and self-discovery. Scott draws on her experience as an architect of COMPUGIRLS to detail the difficulties of translating participants' lives into a digital context while tracing how the

program evolved. The dramatic stories of the participants show them blending newly developed technical and communication skills in ways designed to spark effective action and bring about important change. A compelling merger of theory and storytelling, COMPUGIRLS provides a much-needed roadmap for understanding how girls of color can find and define their selves in

today's digital age. [Clash at Kennesaw](#) READ 180 is a comprehensive reading intervention program designed to meet the needs of elementary to middle school students whose reading achievement is below the proficient level. The program directly addresses individual needs through differentiated instruction, adaptive and instructional software, high-interest literature, and

direct instruction in reading, writing, and vocabulary skills. Stage A provides tools for young struggling readers in elementary school to develop critical literacy skills. Stage B provides middle school struggling readers with topics designed for their level of reading that hold their interest. System 44 was designed for the most challenged, older struggling readers, and

helps these students understand that the English language is a finite system of 44 sounds and 26 letters that can be mastered. It uses validated assessment for screening and placement, research-based phonics instruction and highly motivating and age-appropriate adaptive technology. *The Missing Letter* Right in the middle of Marcy's city block is a littered vacant

lot. Then one day she has a wonderful idea that not only improves the useless lot but her entire neighborhood as well. "DiSalvo-Ryan's warm text is enhanced by her soft pencil-and-watercolor illustrations depicting a diverse neighborhood drawn together by a community project."--
