This edited volume contains the best papers in the geo-engineering field accepted for presentation at the 1st Springer Conference of the Arabian Journal of Geosciences, Tunisia 2018. In addition, it includes 3 keynotes by international experts on the following topics: 1. A new three-dimensional rock mass strength criterion 2. New tools and techniques of remote sensing for geologic hazard assessment 3. Land subsidence induced by the engineering-environmental effects in Shanghai China The book is useful for readers who would like to get a broad coverage in geo-engineering. It contains 11 chapters covering the following main areas: (a) Applications in geo-environmental

engineering including soil remediation, (b) Characterization of geo-materials using geological, geotechnical and geophysical techniques, (c) Soil improvement applications, (d) Soil behaviour under dynamic loading, (e) Recent studies on expansive soils, (f) Analytical and numerical modelling of various geo-structures, (g) Slope stability, (h) Landslides, (i) Subsidence studies and (j) Recent studies on various other types of geo-hazards.

**Frou-Frou** ABC-CLIO

A comprehensive bibliography of the French capital. Includes sections on geography, guidebooks, history, economy, literature and intellectual life, politics, the arts, architecture and urban planning, and mass media. The history, arts, and literature sections take up the

bulk of the text. Most cited works were published after 1970. Annotation copyrighted by Book News, Inc., Portland, OR

The Dictionary of Universal Information. Geography, History and Biography  
University of Ottawa Press

This book encompasses a historically based literary analysis through an ecocritical perspective, in a thematic examination of how backwoodsmen from the seventeenth-century through the nineteenth-century are portrayed in four works of French Canadian literature. Literary depictions of these men of European origin reveal the dominant culture's changing attitudes toward Amerindians and land use, exposing each period's problematic behavior vis-à-vis different cultures and the

environment and the intercultural connections and business relationships that point to the way forward.

Appréhender, connaître Paris aujourd'hui tout en le restituant dans sa longue histoire, en s'attendrissant sur ce qui lui reste de son passé, en découvrant ce que lui a apporté le présent, tel est l'objet de cet ouvrage. Paris y est conté, au fil du temps, au fil de la Seine. A travers ses églises, ses jardins, ses villages secrets. Avec le foisonnement de ses musées et la richesse de ses bibliothèques. Dans le sourire de ces plaisirs au jour le jour, à la nuit la nuit, dans l'éclat de ses lieux festifs qui en font l'une des villes les plus gaies et les

plus brillantes du monde. Résolument parisienne, Colette Gouvion nous invite à la suivre dans la capitale, et nous propose un itinéraire ponctué des plus belles images des photographes de GEO, de ceux qui portent sur la ville un regard amoureux, le seul qui vaille...

dans l'éclat de ses lieux festifs qui en font l'une des villes les plus gaies et les plus brillantes du monde. Résolument parisienne, Colette Gouvion nous invite à la suivre dans la capitale, et nous propose un itinéraire ponctué des plus belles images des photographes de GEO, de ceux qui portent sur la ville un regard amoureux, le seul qui vaille...

#### *International Commerce*

Over the last few decades, the Westphalian nation-state has lost its hegemonic position in the system of geo-governance. A dispersive revolution has led to the emergence of powerful newly networked business organizations, new subsidiary-focused governments, and increasingly virtual, elective, and malleable communities. This in turn has led to the crystallization of distributed

governance regimes, based on a wider variety of more fluid and always evolving groups of stakeholders. In *The New Geo-Governance*, Gilles Paquet develops a general conceptual framework to deal with the new evolving reality of global governance. He uses this framework to critically examine the evolving territorial governance (hemispheric governance, meso-innovation systems, smart city-regions) and tackles the more complex governance challenges raised by sustainability and common-property resources like oceans. Paquet further explores the implications of this emerging polycentric geo-governance on the new forms of stewardship and its impact on citizenship, federalism, and other technologies of coordination, and reflects on the sort of subversive

bricolage required if the missing mechanisms for effective coordination are to be put in place. The New Geo-Governance will be of great interest to students and scholars interested in governance, organizational design, international affairs, and political studies.
