Handbuch der Fundamentaltheologie Secretariado Trinitario

Die interdisziplinär angelegte caritaswissenschaftliche Studie rückt Religiosität bzw. Spiritualität (im Sinne von Offenheit für Transzendenz, Sinn, das Ganze, Werthaltungen, ein transzendentes Gegenüber ...) als klinisch ernst zu nehmende Dimension in den Fokus. Sie erörtert die anthropologische Frage, inwiefern diese Dimension eine zu beachtende Möglichkeit des Menschseins darstellt, und diskutiert im internationalen Vergleich berufsethische Fragen und Richtlinien sowie den empirischen Forschungsstand. Im Zentrum stehen die Ergebnisse einer über 18 Monate durchgeführten Patientenbefragung an der Klinik für Psychiatrie und Psychotherapie der Uniklinik Freiburg/Br. und Konsequenzen für die Versorgung von Menschen mit psychischen Störungen in Klinikseelsorge und multidisziplinärer Spiritual Care.

This book examines the so-called hiddenness argument of the Canadian philosopher John L. Schellenberg. The hiddenness of God is a topic evincing a rich tradition in the monotheistic religions of Judaism, Christianity, and Islam. Rather recently, an argument emerged claiming that the hiddenness of God reveals on closer inspection the non-existence of God. Some say that Schellenberg's hiddenness argument is likely as forceful as the argument from evil rendering theism rather implausible or even false. In this book, an account of the traditional theistic notion of divine hiddenness is presented, which contrasts sharply from Schellenberg's use of the term. Moreover, a well-needed detailed exposition of the premises of the hiddenness argument is offered, thereby preparing the ground for an even more in-depth future hiddenness debate. Furthermore, a reply to the argument is given which challenges the truth of one specific subpremise, according to which belief that God exists is necessary in order to personally relate to God. Even though a plausible case is made that the hiddenness argument is unsound, it is beyond dispute that the argument deserves more serious reflection by theists and atheists alike.

Die "Berufung der Getauften" wird in vielen kirchlichen Verlautbarungen für die Zukunft der Kirche hervorgehoben. Wie aber kann die individuelle und kirchliche Taufberufung im täglichen Leben unseres "säkularen Zeitalters" zu einer erneuernden Kraft christlichen Glaubensvollzugs werden? Die Annahme, dass eine gegenseitige Bezugnahme von Taufe und Vaterunser wegweisende Impulse für das Christsein heute - in Auseinandersetzung mit zentralen Fragen der Zeit - geben könnte, ist Ausgang dieser fundamentaltheologischen Arbeit in ökumenischer Absicht. Hierbei kristallisiert sich heraus, dass Nachfolge weniger als Nachahmung, denn als AnVerwandlung in den Vaterunser-Glauben Jesu verständlich und wirksam wird, nämlich als anVerwandelt/anVerwandelndes Beziehungsgeschehen nach innen und nach außen. Im Abba-Vertrauen gründet Jesu Glaubens-Stil und Sendung. Hierin ruhen seine Herzensanliegen, wie sie in den Vaterunser-Bitten zum Ausdruck kommen. Sie geben "in Christus Jesus" Orientierung und Inspiration für das Wie (anVerwandelt werden) und Wozu (anVerwandeln) der Taufspiritualität und Taufsendung jedes Einzelnen wie der Gemeinschaft der Getauften, der Kirche.

Handbuch der Fundamentaltheologie: Traktat Religion Walter de Gruyter

This book proposes to offer a solution to the tension in the Church around the teaching of Pope Paul VI in *Humanae Vitae* that continues to this day. The book covers the dissent that began immediately and develops a theology of magisterium that justifies dissent from non-infallible teaching in the Church. The book then goes on to examine the encyclical and reaches the conclusion that Pope Paul was correct in his judgment on the substantive issue but that there is a flaw in the reasoning of the encyclical that explains, at least in part, the on-going dissent.

Maureen Junker-Kenny offers a systematic overview of the discipline of theological ethics in the variety of its approaches, which draw upon different philosophical traditions and theological visions in treating its sources. Part One examines the four sources of theological ethics: the Bible, tradition, philosophical accounts of the human, and the individual human sciences. Part Two compares five frameworks in English- and German-speaking theological ethics, based on virtue, worship, natural law, autonomy, and feminist analyses. Part Three compares three types of vision - integralist, praxis-oriented, and discourse-focused - , and Junker-Kenny concludes by situating the investigation of the discipline within contemporary philosophical and theological exchanges on religion in the public sphere. The book provides a framework in which students can locate the specific use of core ethical concepts and argumentations, comparing how each approach relates to the Bible, to historical reason, theological thought, practical self-understandings and interdisciplinary perspectives on ethics in a scientific and technological culture. In an age of globalisation where different cultures, religions, lifestyles and values meet in the workplace, in schools, and in public spaces shaped by religious and cultural traditions, it is necessary to foster the ability to create possibilities and venues for dialogue between different self-understandings. Analysing the variety of approaches to theological ethics helps articulate different visions of what constitutes a fulfilled life, of how the moral vocation of each human being can be supported, and of the role of the Christian faith for ethics.

Approaches to Theological Ethics Ignatius Press

The wholesale rejection of metaphysics today has become the test of the postmodern. In this groundbreaking volume Oliver Davies argues for a renewal of metaphysics, as the language of createdness, based not in a return to outmoded concepts of essence but in a dynamic new understanding of ontology as narrative and performance. This repairing of the Western metaphysical tradition is grounded both in the divine self-naming in Exodus--which, for the rabbis, identified God's presence in the world with God's compassionate acts--and in the compassionate resistance of Etty Hillesum and Edith Stein to the violence of the Holocaust. Building on a new metaphysics of compassion that is attentive to the histories of the contemporary world, Davies offers a renewed

systematic theology of divine speech and relation, focused in Jesus Christ, who, as the triadic "Word" of God, speaks creatively at the heart of human culture and action and who, as the redeeming "Compassion" of God, regenerates the world.

Series: Jewish and Christian Heritage, 1 Is the Gospel of John anti-Jewish? What would this mean in the context of the original writer, of his community, the final text and its first readers? Who, precisely, are the loudaioi who are so scathingly criticized in the Gospel - "Judeans", perhaps, or some other more specific group than the Jewish nation as a whole? What are the implications for New Testament study and for Christian theology in the light of the troubled history of relations between Judaism and Christianity? The papers in this volume were presented at the special international colloquium held in January 2000 in Leuven, Belgium, which was convened to assemble the world's leading experts on John's Gospel and issues of anti-Judaism for a thorough assessment of the state of the question. The result is a fascinating panorama of the issues and of current approaches to them, and an extremely valuable resource for further work on anti-Judaism in the Christian tradition. Contents: 1. 2020 Catholic Press Association second place award for English translation edition Is the Christian hope for resurrection still alive or has it become tired? How can we talk about the Resurrection today? Gerhard Lohfink takes up the question of death and resurrection in this new book. He argues against the dazzling array of today's ideas and expectations and seeks his answers in Scripture, the Christian tradition, and human reason. With his characteristically gentle but clear language, he

reveals the power of Christian resurrection, showing it is not about events that lie in the distant future but rather occurrences incomprehensibly close to us. They were long since begun and they will embrace us fully in our own death..

Making the case for the Christian faith—apologetics—has always been part of the Church's mission. Yet Christians sometimes have had different approaches to defending the faith, responding to the needs of their respective times and framing their arguments to address the particular issues of their day. Cardinal Avery Dulles's *A History of Apologetics* provides a masterful overview of Christian apologetics, from its beginning in the New Testament through the Middle Ages and on to the present resurgence of apologetics among Catholics and Protestants. Dulles shows how Christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of Christian belief. Written by one of Catholicism's leading American theologians, *A History of Apologetics* also examines apologetics in the 20th and early 21st centuries including its decline among Catholics following Vatican II and its recent revival, as well as the contributions of contemporary Evangelical Protestant apologists. Dulles also considers the growing Catholic-Protestant convergence in apologetics. No student of apologetics and contemporary theology should be without this superb and masterful work.

New Directions in Biblical Theology Walter de Gruyter

This collection of articles presents the main contributions to the third LEST (Louvain Encounters in Systematic Theology) conference, held at the K.U.Leuven's Faculty of Theology, November 2001. Its theme, Theology and Conversation: Towards a Relational Theology, continues the explorations in contemporary theology as set out in the 1997 LEST I conference on The Myriad Christ (BETL 152) and in the 1999 LEST II conference on Sacramental Presence in Postmodern Context (BETL 160). In LEST III also, the plurality and diversity of theological approaches play a major role and the question is raised whether the contemporary theological endeavour in a global world contains in itself the tools to respectfully and constructively approach this diversity. The ideas of relation and conversation, as found in the theologies of the Trinity and of creation, as presupposed in ecclesial praxis, and as articulated in reflections that take their bearings from spiritual experience, provide a powerful means for renewed theological reflection capable of confronting plurality and diversity.

Niels Christian Hvidt argues that prophecy has persisted in Christianity as an inherent and continuous feature in the life of the church. He presents a comprehensive history of prophecy from ancient Israel onwards and closely examines the development of theological discourse about it.
