In an unnamed Third World country, in the not-so-distant future, three "dumpsite boys" make a living picking through the mountains of garbage on the outskirts of a large city. One unlucky-lucky day, Raphael finds something very special and very mysterious. So mysterious that he decides to keep it, even when the city police offer a handsome reward for its return. That decision brings with it terrifying consequences, and soon the dumpsite boys must use all of their cunning and courage to stay ahead of their pursuers. It's up to Raphael, Gardo, and Rat—boys

who have no education, no parents, no homes, and no money—to solve the mystery and right a terrible wrong. Andy Mulligan has written a powerful story about unthinkable poverty—and the kind of hope and determination that can transcend it. With twists and turns, unrelenting action, and deep, raw emotion, *Trash* is a heart-pounding, breath-holding novel.

Hiroshima Penguin

The greatest novel of the Mexican Revolution, in a brilliant new translation by an award-winning translator *The Underdogs* is the first great novel about the first great revolution of the twentieth century. Demetrio Macias, a poor, illiterate Indian, must join the rebels to save his family. Courageous and charismatic, he earns a generalship in Pancho Villa's army, only to become discouraged with the cause after it becomes hopelessly factionalized. At once a spare, moving depiction of the limits of political idealism, an authentic representation of Mexico's peasant life, and a timeless portrait of revolution, *The Underdogs* is an iconic novel of the Latin American experience and a powerful novel about the disillusionment of war.

The Pole Vault Vintage

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when

Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Track and Field Coaching Manual Independently Published
Not all casualties of war die on the battlefield. In the wake of World War II, Yugoslavia purged its territory of the ethnic Germans who had formed a part of its human mosaic. Tarrred with their ethnic origins and the conscription of their fighting-age men into the Waffen SS, the Volksdeutsche, as these settlers were called, were rounded up at the war's end and herded into concentration camps. Those who were not murdered or did not die from the harsh conditions were expelled from the village homes their families had known and loved for three hundred years. Nine years old when she entered the concentration camp in 1945, author Luisa Lang Owen survived the persecution of the Danube Swabians, eventually finding herself in America, where she made a new life for herself, a life that nonetheless held within it the memories and lessons of the atrocities she had experienced in her homeland. Like thousands of other Germans in the Danube Valley at the end of the war, Luisa and her family were chased from their home, lodged in a sheep stall, and resettled in camps with other Germans from her village. Shorn of their possessions, given little food or fuel, pressed into hard labor, beaten by guards, and separated from their families, many despaired and many died. Luisa barely survived as others succumbed to malnutrition, disease, and exposure. Her haunting memoir

provides a window into the ethnic cleansing that preceded the recent exterminations in Bosnia and Kosovo by fifty years—an episode of horrors that has not appeared as even a footnote in descriptions of the more recent atrocities practiced in that region. Her testament, as a casualty of war, bears historic witness and gives insight into the personal experiences of ethnic cleansing. It stands as witness to a massive crime that has been conveniently forgotten, a corrective to a bit of neglect that did away with its victims as a people, and a personal depiction of what ethnic cleansing is really about. “The problem was not just that they did not want us to have or to be,” Luisa Lang Owen writes, “they wanted us not to have been.”
