What White People Can Do Next Da Capo Lifelong Books

A fresh cultural analysis of female monsters from Greek mythology, and an invitation for all women to reclaim these stories as inspiration for a more wild, more "monstrous" version of feminism. The folklore that has shaped our dominant culture teems with frightening female creatures. In our language, in our stories (many written by men), we underline the idea that women who step out of bounds—who are angry or greedy or ambitious, who are overtly sexual or not sexy enough—aren't just outside the norm. They're unnatural. Monstrous. But maybe, the traits we've been told make us dangerous and undesirable are actually our greatest strengths. Through fresh analysis of 11 female monsters, including Medusa, the Harpies, the Furies, and the Sphinx, Jess Zimmerman takes us on an illuminating feminist journey through mythology. She guides women (and others) to reexamine their relationships with traits like hunger, anger, ugliness, and ambition, teaching readers to embrace a new image of the female hero: one that looks a lot like a monster, with the agency and power to match. Often, women try to avoid the feeling of monstrousness, of being grotesquely alien, by

tamping down those qualities that we're told fall outside the bounds of natural femininity. But monsters also get to do what other female characters—damsels, love interests, and even most heroines—do not. Monsters get to be complete, unrestrained, and larger than life. Today, women are becoming increasingly aware of the ways rules and socially constructed expectations have diminished us. After seeing where compliance gets us—harassed, shut out, and ruled by predators—women have never been more ready to become repellent, fearsome, and ravenous.

Everything I Never Told You HarperCollins

A grieving young woman learns something new about love from a dominatrix in this haunting and erotic debut. Echo is a failing actress who prefers to lose herself in the lives of others rather than examine her own. When her father disappears in a seaside misstep, she and her mother are left grief-stricken, unsure of how to piece back together their family that, it turns out, had never been whole. But then Orly -- a dominatrix -- moves in across the street. And through her, Echo begins to find the pieces that will allow her to carry on. Set among the bright colours and harshly glittering lights of Los Angeles, this is a love story about people addled with dreams and expectations who turn to the erotic for answers.

Millions of men and (no doubt many) women have watched famed black porn queen Debbie Dare—she of the blond wig and blue contacts—“do it” on television and computer screens in every combination of partners and positions imaginable. But after an unexpected and thunderous on-set orgasm catches her unawares, Debbie returns home to find her porn-producer husband dead, electrocuted in their hot tub in the midst of “auditioning” an aspiring young starlet. Burdened with massive debt—incurred by her husband, and which various L.A. heavies want to collect on—Debbie must find a way to extricate herself from the peculiar subculture of the porn industry and reconcile herself to sacrifices she's made along the way. In *Debbie Doesn't Do it Anymore*, the creator of the Easy Rawlins series has painted a moving portrait of a resilient soul in search of salvation and a cure for grief.

Anarchism and Other Essays Penguin

WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

Experience World War 2 through the eyes of two very different women in this captivating New York Times bestseller by the author of *The Guest Book*. “A beautifully written, thought-provoking novel.”—Kathryn Stockett, #1 New York Times bestselling author of *The Help* In 1940, Iris James is the postmistress in coastal Franklin, Massachusetts. Iris knows more about the townspeople than she will ever say, and believes her job is to deliver secrets. Yet one day she does the unthinkable: slips a letter into her pocket, reads it, and doesn't deliver it. Meanwhile, Frankie Bard broadcasts from overseas with Edward R. Murrow. Her dispatches beg listeners to pay heed as the Nazis bomb London nightly. Most of the townspeople of Franklin think the war can't touch them. But both Iris and Frankie know better... *The Postmistress* is a tale of two worlds—one shattered by violence, the other willfully naïve—and of two women whose job is to deliver the news, yet who find themselves unable to do so. Through their eyes, and the eyes of everyday people caught in history's tide, it examines how stories are told, and how the fact of war is borne even through everyday life.

In *Consensuality*, Helen Wildfell and her co-adventurers detail the process for creating or finding a healthy, successful relationship as well as common pitfalls and how to avoid them, like gender identity, sexual boundaries, power struggles, and emotional dysfunction. Overcoming regret and resentment, the authors describe a journey towards a respectful social environment. Their experiences lead to lessons of self-empowerment and communication tips for building healthy partnerships. We

recognize their preferences and boundaries. We discuss how those fit with our own preferences and boundaries. Filled with personal descriptions of the complex layers in human interaction, the book combines gender studies with memoir to truly make the personal political.

"Required reading for every woman who longs to step into her power and live with pleasure and purpose." — Kris Carr, New York Times best-selling author Author, educator, and School of Womanly Arts founder Regena Thomashauer has been working with women for the past 25 years, and what began as just a few women in her living room has since grown into a global movement with thousands of graduates worldwide. In her New York Times bestseller *Pussy: A Reclamation*, she reveals what no one taught you about the source of your feminine power and how to use it. This power is the part of a woman that she has been taught to ignore, push down, and despise. Indeed, the word that most viscerally sums it up is "arguably the most powerful pejorative word in the English language." Like any expletive used effectively, the title of this book is meant to be a wake-up call. It is a reclamation, in a world that desperately requires the feminine. Readers learn the secret ingredient every woman is missing; how to crack the confidence code; why sex appeal is an inside job; what's ahead on the next frontier of feminism—and how they can help make it happen; and much more. By turns earthy and erudite, passionately argued and laugh-out-loud funny, *Pussy* delivers the tools and practices a woman requires to do and be whatever she wants in this life. It's a call for her to tune in, turn on, and not drop out—but live more richly, fully, and lushly than she ever thought she could.

The Odd Women Beacon Press

Why aren't the great, qualified women already in tech being hired or promoted? Should people who don't fit in seek to join an institution that is actively hostile to them? Does the tech industry deserve women leaders? The split between the stated ideals of the corporate elite and the reality of working life for women in the tech industry—whether in large public tech companies or VC-backed start-ups, in anonymous gaming forums, or in Silicon Valley or Alley—seems designed to crush women's spirits.

Corporate manifestos by women who already fit in (or who are able to convincingly fake it) aren't helping. There is a high cost for the generation of young women and transgender people currently navigating the harsh realities of the tech industry, who gave themselves to their careers only to be ignored, harassed and disrespected. Not everyone can be a CEO; not everyone is able to embrace a workplace culture that diminishes the contributions of women and ignores real complaints. The very culture of high tech, where foosball tables and endless supplies of beer are de facto perks, but maternity leave and breast-feeding stations are controversial, is designed to appeal to young men. *Lean Out* collects 25 stories from the modern tech industry, from people who fought GamerGate and from women and transgender artists who have made their own games, from women who have started their own companies and who have worked for some of the most successful corporations in America, from LGBTQ women, from women of color, from transgender people and people who do not ascribe to a gender. All are fed up with the glacial pace of cultural change in America's tech industry. Included are essays by Anna Anthropy, Leigh Alexander, Sunny Allen, Lauren Bacon, Katherine Cross, Dom DeGuzman, FAKEGRIMLOCK, Krys Freeman, Gesche Haas, Ash Huang, Erica Joy, Jenni Lee, Katy Levinson, Melanie Moore, Leanne Pittsford, Brook Shelley, Elissa Shevinsky, Erica Swallow, and Squinky. Edited and selected by entrepreneur and tech veteran Elissa Shevinsky, *Lean Out* sees a possible way forward that uses tech and creative disengagement to jettison 20th century corporate culture: "I've figured out a way to create safe space for myself in tech," writes Shevinsky. "I've left Silicon Valley, and now work remotely from home. I adore everyone on my team, because I hired them myself."
