 This publication draws conclusions from IIEP's research into ethics and corruption in education. It defines the key concepts of corruption, transparency,

accountability and ethics and identifies the main opportunities for corruption in education. It then looks at tools that can be used to assess corruption problems such as perception and tracking surveys. Lessons are drawn from strategies used worldwide to improve transparency and accountability in educational management.

Chandresh Agrawal Most Asian cities are facing an acute parking crisis as a result of rapid urbanization and motorization, and high urban densities. Parking policy is an important component of a holistic approach to sustainable urban transport across the region. The report provides an international comparative perspective on parking policy in Asian cities,

while highlighting the nature of the policy choices available. It is a step in building a knowledge base to address the knowledge gap on parking and the lack of adequate guidance for parking policy in Asia.

The role of the

portrait in India between 1560 and 1860 served as an official chronicle or eye-witness account, as a means of revealing the intimate moments of everyday life, and as a tool for propaganda. Yet the proliferation and mastery of Indian portraiture in the Mughal and Rajput courts brought a new level of artistry and style to the genre.

This technical

report covers all aspects of the uses of precast concrete piles - design, manufacture, transport, handling, pitching and driving. Both reinforced and prestressed concrete piles are dealt with and attention is paid to the use of both plan piles and those with enlarged toes. Although the report is a translation of parts of a set of three volumes produced in the Netherlands, those parts reproduced

are internationally applicable. Special sections deal with the effects of pile driving on adjacent buildings and their occupants - both as regards vibration and noise.

How Financial Technologies, which created an extensive ecosystem of exchange institutions across Asia and Africa, is demonised and systematically demolished for payment defaults at

one of its subsidiaries owing to abrupt action by the Ministry of Consumer Affairs on the ill-advice of the Forward Markets Commission Precast concrete piles A multi-country research initiative to understand poverty from the eyes of the poor, the Voices of the Poor project was undertaken to inform the World Bank's activities and the upcoming World Development

Report 2000/01. The research findings are being published in three books: "Can Anyone Hear Us?" gathers the voices of over 40,000 poor women and men in 50 countries from the World Bank's participatory poverty assessments (Deepa Narayan, Raj Patel, Kai Schafft, Anne Rademacher, and Sarah Koch-Schulte, authors). "Crying Out for Change" pulls together new field work

conducted in 1999 in 23 countries (Deepa Narayan, Robert Chambers, Meera Shah, and Patti Petesch, authors). "From Many Lands" offers regional patterns and country case-studies (Deepa Narayan and Patti Petesch, editors). Voices of the Poor marks the first time such an exercise has been undertaken in so many developing countries and transition

economies around the world. It provides a unique and detailed picture of the life of the poor and explains the constraints poor people face to escape from poverty in a way that more traditional survey techniques do not capture well. Each of the three volumes demonstrates the importance of voice and power in poor people's definition of poverty. Voices of the Poor concludes that we need to expand our conventional views of poverty which focus on income expenditure, education, and health to include measures of voice and empowerment .
