 Screening Guideline  
 Overview  
 Cancer Screening Guidelines  
 Overview and Processes  
 The American Cancer Society has issued cancer screening guidelines since 1980. ACS processes and recommendations for the early detection of specific cancer types have evolved with new scientific data, as new screening technologies became available, and as standards for creating guidelines changed.  
 Cancer

Screening Guidelines  
 Overview and Processes  
 Find out who should get tested.  
 Protect yourself and others. Wear a mask, wash hands often, stay 6 ft from others. Two kinds of tests are available for COVID-19: viral tests and antibody tests.  
 Testing for COVID-19 | CDC  
 Authorized assays for viral testing include those that detect SARS-CoV-2 nucleic acid or antigen. Viral (nucleic acid or antigen) tests check samples from the respiratory system (such as nasal or oral swabs or saliva) to determine whether an infection with SARS-CoV-2, the virus that causes COVID-19, is present.
