Isolated by the repressions and censorship of Franco's regime, Spanish cinema developed distinctive style and content from the 1930s to the 1970s, largely without reference to its international counterparts. Through a series of close readings of films made in the Republican period under Franco and more recently under socialism, contributors here seek to present a clearer picture of Spanish national

cinema.

The first few minutes of a film orient the viewer, offering cues for a richer, more nuanced reading. With this premise, the author provides many insights into the history of Spanish language film, encouraging an enhanced understanding of the Spanish/Hispanic canon commonly taught in courses on film. The author explores *El espíritu de la colmena* (1973), *La historia oficial* (1985), *Fresa y chocolate* (1994), *El crimen del padre*

Amaro (2002), *Abre los ojos* (1997), *Te doy mis ojos* (2003) and Carlos Saura's flamenco trilogy—*Bodas de sangre* (1981), *Carmen* (1983) and *El amor bruno* (1986), among others.

17 papers take a holistic view of beekeeping archaeology (including honey, wax, associated products, hive construction, and trade) in one large interconnected geographic region, the Mediterranean, central Europe, and the Atlantic Façade. The book serves as a handbook for current and future researchers considering the archaeology of beekeeping.

In this extraordinary novel of life in Madrid after the Spanish Civil War, Camilo Jose Cela conveys with startling

immediacy not only the brutality but also the vitality of life in the city. His style—economical but vivid—carries the reader through a series of vignettes, following Cela's many characters through the streets and tenements and brothels and, above all, the cafés of the great beehive—*la colmena*—of Madrid. Both a social document of its time and place and a moving tale of human suffering—and human triumph--under a totalitarian regime, *The Hive* is “a brilliant and original work” (Gerald Brenan, *The New York Times Book Review*).

With more than 1800 critical entries on the writers and literatures of 33 languages, this work presents the entire

range of modern European writing -- from the symbolist and modernist works rooted in the last decades of the nineteenth century; through the avant-garde and existentialist movement to Barthes, Blanchot, Breton, and continental thought pertinent today.

This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials.

Selections discuss the play in terms of historical context, dating, and sources; character analysis; comic elements and verbal conceits; evidence of authorship; performance analysis; and feminist interpretations. Alongside theater reviews, production photographs, and critical commentary, the volume also includes essays written by practicing

theater artists who have worked on the play. An index by name, literary work, and concept rounds out this valuable resource.

This anthology examines the aesthetic, historical, and sociological forces at work in Victor Erice's films and includes an extensive interview with the director.

This broad array of writings provides insight into not only three unforgettable films but also into 20th-century Spanish society, as well as world cinema. The Cinema of Víctor Erice will serve as an important resource to measure the career of this director who—along with Buñuel, Saura, and Almodóvar—has helped show the world the creative range of Spanish cinema.

 Seit der Erfindung des Films sind Literaturadaptionen und -transformationen verbreitet. Aber trotz zunehmender Auseinandersetzung mit den Formen moderner Massenkommunikationen zählen Literaturverfilmungen immer noch zu einem umstrittenen Grenzbereich der Literaturwissenschaft. Und dies nicht zuletzt wegen der derzeit noch ungenügenden Forschungsmethoden, die der Intermedialität der Literaturverfilmung, also der Beziehung zwischen Text, Drehbuch und filmischer Realisation, nur bedingt gerecht werden. Die vorliegende Studie untersucht beispielhaft an der Verfilmung des Romans *La Colmena*, die komplexen Zusammenhänge von literarischem

Ausgangstext, Drehbuch und filmischer Realisation. Sie ist damit ein weiterer Versuch, Methoden und Perspektiven aufzuzeigen, die zur Beschäftigung mit Literaturverfilmungen ermutigen sollen. *Pacifico Magazine* Peter Lang GmbH, Internationaler Verlag Der Wissenschaften  
 Desde los orígenes mismos de la civilización, se ha venido asociando el mundo de las abejas con todo tipo de virtudes. La colmena ha sido modelo de sociedad ideal y sus productos básicos (cera y miel) han servido como soporte de numerosas metáforas positivas. Pero las abejas elaboran además una arquitectura natural de gran perfección: los panales que se alojan en un B+edificioB; con una estructura determinada. Juan Antonio Ramírez

demuestra que esto influyó considerablemente en los arquitectos y artistas que dieron origen al Movimiento Moderno. Los modelos de colmenas tradicionales, junto con los proporcionados por la llamada B+apicultura modernaB; o B+racionalB; , fueron importantes para arquitectos como Gaudí, Rudolf Steiner, Wright, Mies van der Rohe o Le Corbusier. También a veces se ha considerado como abejas a algunos pintores y escultores, lo cual permite examinar aquí episodios de la vanguardia, como La Ruche de Montparnasse, o la obra de otros creadores más recientes como Joseph Beuys o Jose María Sicilia. Este es, pues, un libro fascinante y muy original donde se examinan, por primera vez, las complejas repercusiones ideológicas,

políticas, artísticas y arquitectónicas de las metáforas apícolas.

Life couldn't have been better for Buzzie Bee. But she heard something that made her furious! Buzzie and the younger bees revolt and start a new hive. It's a disaster! Then they make a great discovery. La vida no podría haber sido mejor para la Abeja Buzzie, hasta que por casualidad escuchó algo que la perturbó. Buzzie se enfureció y comenzó una revuelta entre las abejas obreras jóvenes. Enojadas, las abejas dejaron la colmena para idear una manera más justa de vivir. En la nueva colmena las abejitas discuten y pelean sobre quién debería hacer el trabajo. Todas las

abejas quieren hacer el trabajo más fácil. Buzzie—la líder— intenta ayudarlas, pero no se lo permiten. Buzzie se frustra intentando orientar a las abejas hacia una mejor forma de vida. Pero, ¿pueden las abejas ser felices sin una reina?

The first book-length study of Reichardt's career and works

La Colmena Edinburgh University Press  
Cinema has always been a vital medium for articulating the Basque region's unique identity and politics. The first definitive study of Basque cinema, this book provides a systematic analysis of the key Basque films, directors and cinematic institutions. Its narrative moves from the romanticised Basque Country travelogues of Pathe to the

coded oppositional aesthetics of Franco-era films; from the post-Franco 'new wave' supported by regional government funding to the boom in auteurist cinema during the 1980s and 1990s. It also charts the contemporary impact of the film institute Basque Fimoteca and television channel Euskal Telebista in producing and disseminating Basque-language films. Based on archival research, close readings of films and in-depth interviews with influential figures in the Basque film scene, this book is essential reading for world film scholars and cultural historians.

This book offers a radically new account of the rich and varied culture of contemporary Spain. It focuses on three intellectuals who chronicle contemporary life (including journalist Francisco Umbral); three filmmakers who engage with the many nationalisms of the Spanish state (Victor Erice, Bigas Luna, and Julio Medem); and three crucial topics that are expressed in many media (the replaying of history, the rise and fall of the city, and the practice of everyday life). Ranging from the ethnographic photography of Cristina Garcia Rodero to the high tech architecture of Santiago Calatrava and from the

hyperrealist painting of Antonio Lopez to the neo-flamenco dance of Joaquin Cortes, this book is also the first to draw on theorists of the intellectual field, the production of space, and the arts of bricolage (Pierre Bourdieu, Henri Lefebvre, and Michel de Certeau). Refuting the charge that contemporary Spanish culture is trivial or superficial, this book argues that it is fully engaged in the aesthetic and historical project of modernity.

Two World Wars engulfed Europe, Asia and the United States, leaving indelible scars on the landscape and survivors. The trauma of civil wars in Spain (declared) and Latin America (tacit) spanned decades yet, contradictorily, bind parties together even today. Civil wars still haunt Africa where, in more recent years, ethnic cleansing has led to wholesale genocide. Drawing on the emerging field of Memory Studies, this book examines narrative and documentary films, made far from Hollywood, that address memory--both traumatic and nostalgic--surrounding these conflicts, despite attempts by special interests to erase or manipulate history.

The relationship between fiction and historiography in Francoist Spain (1939–1975) is a contentious one. The intricacies of this relationship, in which fiction works to subvert the regime's authority to write the past, are the focus of David K. Herzberger's book. The narrative and rhetorical strategies of historical discourse figure in both the

fiction and historiography of postwar Spain. Herzberger analyzes these strategies, identifying the structures and vocabularies they use to frame the past and endow it with particular meanings. He shows how Francoist historians sought to affirm the historical necessity of Franco by linking the regime to a heroic and Christian past, while several types of postwar fiction—such as social realism, the novel of memory, and postmodern novels—created a voice of opposition to this practice. Focusing on the concept of writing history that these opposing strategies convey, Herzberger discloses the layering of truth and meaning that lies at the heart of postwar Spanish narrative from the early 1940s to the fall of Franco. His study clearly reveals how the novel in postwar Spain

became a crucial form of dissent from the past as it was conceived and used by the State. Making a decisive intervention in the debate about the ways in which narration determines both the meaning and truth of history and fiction, Narrating the Past will be of special interest to students and scholars of the politics, history, and literature of twentieth-century Spain.

En ella encontramos los ingredientes que han creado la reputación de las anteriores versiones, así como los recientes avenes y los nuevos elementos en materia apícola. Ricamente ilustrada, sintética y

completa, esta obra ha sido concebida tanto para los profesionales como para los apasionados deseosos de lanzarse a la aventura de los colmenares. Junto con dibujos naturalista y fotos, y dando explicaciones teóricas y consideraciones prácticas, los autores nos conducen, a través de los 21 capítulos, a la gestión

de un enjambre, iniciándonos en las diferentes técnicas apícolas y en la lucha contra las enfermedades (especialmente la varroasis, azote de las colmenas), sin olvidar las nociones económicas esenciales para el buen funcionamiento de una explotación.
