HADASSAH NIXON

The Everything Store Cambridge University Press

Taking a career break is a conflicted and risky decision for high-achieving professional women. Yet many do so, usually planning, even as they quit, to return to work eventually. But can they? And if so, how? In *Opting Back In*, Pamela Stone and Meg Lovejoy revisit women first interviewed a decade earlier in Stone's book *Opting Out? Why Women Really Quit Careers and Head Home* to answer these questions. In frank and intimate accounts, women lay bare the dilemmas they face upon reentry. Most succeed but not by returning to their former high-paying, still family-inhospitable jobs. Instead, women strike out in new directions, finding personally gratifying but lower-paid jobs in the gig economy or predominantly female nonprofit sector. *Opting Back In* uncovers a paradox of privilege by which the very women best positioned to achieve leadership and close gender gaps use strategies to resume their careers that inadvertently reinforce gender inequality. The authors advocate gender equitable policies that will allow women—and all

parents—to combine the intense demands of work and family life in the twenty-first century.

Stone of Tears Duke University Press

Public Policy: A Concise Introduction, by Sara R. Rinfret, Denise Scheberle, and Michelle C. Pautz, is a student-friendly primer that quickly connects readers to the inner workings of public policy. The text condenses early chapters on theory and the policy-making process, allowing students to take up key policy challenges—such as immigration, education, and health care—much earlier in the semester. Structured chapter layouts of substantive policy areas allow instructors to supplement with their own examples seamlessly. The book's emphasis on policy choices asks students to look beyond simple pros and cons to examine the multifaceted dimensions of decision making and the complexities inherent in real-world problem solving. Not every student starts out engaged in public policy, so place your students—both majors and non-majors alike—in the driver's seat by fostering their analytical skills early, and spend the rest of the semester discussing policy issues, examining data, and debating current policy examples that matter most to them.

Policy Analysis as Problem Solving CQ Press

In the Fifth Edition of *A Practical Guide for Policy Analysis: The Eightfold Path to More Effective*

Problem Solving, Eugene Bardach and new co-author Eric Patashnik draw on more than 40 years of experience teaching students to be effective, accurate, and persuasive policy analysts. This bestselling handbook presents dozens of concrete tips, interesting case studies, and step-by-step strategies that are easily applicable for the budding analyst as well as the seasoned professional. In this new edition, Bardach and Patashnik update many examples to reflect the shifting landscape of policy issues. A new section with advice on how to undertake policy design in addition to making policy choices makes the book even more engaging. Readers will also appreciate a sample document of real world policy analysis, suggestions for developing creative, "out-of-the-box" solutions, and tips for working with clients.

The Perfect Candidate Policy Paradox

"FAITH ROOTS, the previous book of the TALES OF THE EXODUS series, focused on how to trust God when things don't make sense. In HUMBLE STONES, I have concentrated on the next part of the process of developing righteous hearts--humility. Moses, the meekest man who ever lived,

must have been a wonderful instructor! HUMBLE STONES explains how God's love restrains and guides His use of power. It contrasts the laws of the kingdom of God with the kingdom of Pharaoh--and the kingdom of Satan."--Preface.

Studyguide for Policy Paradox: The Art of Political Decision Making by Stone Univ of California Press
The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

This is the only comprehensive political history of national ID card proposals and identity policing developments in the United States.

Health Policy and the Disadvantaged Routledge

Returning to Fairyland after a long period away following her first adventure there, September discovers that her stolen shadow has become the Hollow Queen, the new ruler of Fairyland Below, who is stealing the magic and shadows from Fairyland folk and refusing to give them back.

Policy Design for Democracy Cornell University Press

When the 2011 municipal takeover in Flint, Michigan placed the city under state control, some supported the intervention while others saw it as an affront to democracy. Still others were ambivalent about what was supposed to be a temporary disruption. However, the city's fiscal emergency soon became a public health emergency--the Flint Water Crisis--that captured international attention. But how did Flint's municipal takeovers, which suspended local representational government, alter the local political system? In *Power, Participation, and Protest in Flint, Michigan*, Ashley Nickels addresses the ways residents, groups, and organizations were able to participate politically--or not--during the city's municipal takeovers in 2002 and 2011. She explains how new politics were created as organizations developed, new coalitions emerged and evolved, and people's understanding of municipal takeovers changed. Inwalking readers through the policy history of, implementation of, and reaction to Flint's two municipal takeovers, Nickels highlights how the ostensibly apolitical policy is, in fact, highly political.

The Antitrust Paradox Springer Nature

Drawing extensively from real-life cases, *Policy Analysis as Problem Solving* helps students develop the analytic skills necessary to advise government officials and nonprofit executives on a wide range of policy issues. Unlike other texts, *Policy Analysis as Problem Solving* employs a pragmatic, heterodox approach to the field. Whereas most texts on policy analysis are anchored in microeconomics, emphasizing economic efficiency, this book takes a broader view, using realistic examples to illustrate the full scope of policy analysis. The book provides succinct but thorough discussions of the key elements of the policy-analytic process, including problem definition, objectives and criteria, development of alternative policy options, and analysis of these alternatives. The text's practical approach and extensive downloadable resources—which include

interviews, case studies, and further readings—will be of enormous benefit to both students and instructors of policy analysis.

Public Policy Duke University Press

"The perfect YA thriller for right now—think John Grisham meets John Green." —Margaret Stohl, New York Times bestselling author of *Beautiful Creatures* "Gripping and twisty, but also filled with heart. A fun must-read." —Melissa de la Cruz, New York Times bestselling author of *Alex and Eliza* "An enthralling plot of power, greed, and murder." —Kirkus Reviews "A YA version of the TV show *Scandal*, and it is just as addictive." —Publishers Weekly From debut author Peter Stone comes a heart-stopping, pulse-pounding political thriller that's perfect for fans of *Ally Carter* and *House of Cards*. When recent high school graduate Cameron Carter lands an internship with Congressman Billy Beck in Washington, DC, he thinks it is his ticket out of small town captivity. What he lacks in connections and Beltway polish he makes up in smarts, and he soon finds a friend and mentor in fellow staffer Ariel Lancaster. That is, until she winds up dead. As rumors and accusations about her death fly around Capitol Hill, Cameron's low profile makes him the perfect candidate for an FBI investigation that he wants no part of. Before he knows it—and with his family's future at stake—he discovers DC's darkest secrets as he races to expose a deadly conspiracy. If it doesn't get him killed first.

Counting: How We Use Numbers to Decide What Matters HarperCollins

Updated in its 3rd edition, *Basic Methods of Policy Analysis and Planning* presents quickly applied methods for analyzing and resolving planning and policy issues at state, regional, and urban levels. Divided into two parts, *Methods* which presents quick methods in nine chapters and is organized around the steps in the policy analysis process, and *Cases* which presents seven policy cases, ranging in degree of complexity, the text provides readers with the resources they need for effective policy planning and analysis. Quantitative and qualitative methods are systematically combined to address policy dilemmas and urban planning problems. Readers and analysts utilizing this text gain comprehensive skills and background needed to impact public policy.

Public Policymaking Bold Type Books

A New York Times Bestseller • A Read with Jenna Today Show Book Club Pick! Named a Best Book of the Year by The New York Times Book Review, The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, Buzzfeed, and PopSugar "I can't believe how good this book is.... It's wholly original. It's also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire." —Taffy Brodesser-Akner, author of *Fleishman* is in Trouble, New York Times Book Review From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange

children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.

The Art of Political Manipulation W. W. Norton

One civil rights-era law has reshaped American society—and contributed to the country's ongoing culture wars Few laws have had such far-reaching impact as Title IX of the Education Amendments of 1972. Intended to give girls and women greater access to sports programs and other courses of study in schools and colleges, the law has since been used by judges and agencies to expand a wide range of antidiscrimination policies—most recently the Obama administration's 2016 mandates on sexual harassment and transgender rights. In this comprehensive review of how Title IX has been implemented, Boston College political science professor R. Shep Melnick analyzes how interpretations of "equal educational opportunity" have changed over the years. In terms accessible to non-lawyers, Melnick examines how Title IX has become a central part of legal and political campaigns to correct gender stereotypes, not only in academic settings but in society at large. Title IX thus has become a major factor in America's culture wars—and almost certainly will remain so for years to come.

Introduction to the Policy Process Little, Brown

Includes index.

Opting Back In Lawrence : University Press of Kansas

"This book provides a wise and engaging how-to guide that meets the central challenge of policy analysis: combining scientific evidence and social goals to craft practical, real-world solutions." —Thomas S. Dee, Barnett Family Professor of Education, Stanford University Drawing on more than 40 years of experience with policy analysis, best-selling authors Eugene Bardach and Eric M. Patashnik use real-world examples to teach students how to be effective, accurate, and persuasive policy analysts. The Sixth Edition of *A Practical Guide for Policy Analysis* presents dozens of concrete tips, new case studies, and step-by-step strategies for the budding analyst as well as the seasoned professional.

As much a model for future research as a study of the status of the fetus, this book offers an examination of one of the most divisive and complex issues of American life."--BOOK JACKET.

Is the Fetus a Person? Addison-Wesley Educational Publishers

A leading political scientist's response to a generation of political orthodoxy, arguing for compassion as a political movement

The Policy Paradox in Africa Brookings Institution Press

Thoroughly revised, reorganized, updated, and expanded, this widely-used text sets the balance and fills the gap between theory and practice in public policy studies. In a clear, conversational style, the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction. A newly added chapter surveys the social, economic, and demographic trends that are transforming the policy environment.

Public Policy CQ Press

In *Public Policy: Politics, Analysis, and Alternatives*, students come to understand how and why policy analysis is used to assess policy alternatives. To encourage critical and creative thinking on issues ranging from the federal deficit to health care reform to climate change, authors Michael Kraft and Scott Furlong introduce and fully integrate an evaluative approach to policy. The Sixth Edition of *Public Policy* offers a fully revised, concise review of institutions, policy actors, and major theoretical models as well as a discussion of the nature of policy analysis and its practice. Both the exposition and data have been updated to reflect major policy controversies and developments through the end of 2016, including new priorities of the Donald Trump administration.
