The Jazz of Physics Courier Corporation

About a century after its beginnings, traditional jazz remains the definitive music of New Orleans and an international hallmark of the city. The enduring sound and boundless energy of this American art form have produced a long list of jazz legends. From Lionel Ferbos -- the city's oldest working jazz musician -- to Grammy winner Irvin Mayfield, the musical heritage of traditional jazz lives on through each player's passion. In *Traditional New Orleans Jazz*, veteran jazz journalist Thomas Jacobsen discusses that legacy with Ferbos, Mayfield, and a who's who of the present-day scene's "trad jazz" players. Through intimate conversations with jazz veterans and up-and-coming talent, Jacobsen elicits honest, witty, and sometimes comedic discussions that reveal a strong mutual devotion to do one thing -- compose and play music inspired by the Crescent City's earliest jazz musicians. *Traditional New Orleans Jazz* presents local perspectives on what has become an international language with interviews from Lucien Barbarin, Evan Christopher, Duke Heitger, Leroy Jones, Dr. Michael White, and many more. Jacobsen also notes the stewardship of traditional jazz means more than making music. Its longevity relies on teaching and innovation, furthering the inextricable ties between the music and the men who make it. *Traditional New Orleans jazz* is a culture of its own, and the players in this remarkable volume are its native speakers.

Talking Jazz Gale Cengage

A deeply personal, intimate conversation about music and writing between the internationally acclaimed, best-selling author and the former conductor of the Boston Symphony Orchestra. In *Absolutely on Music*, internationally Haruki Murakami sits down with his friend Seiji Ozawa, the revered former conductor of the

Boston Symphony Orchestra, for a series of conversations on their shared passion: music. Over the course of two years, Murakami and Ozawa discuss everything from Brahms to Beethoven, from Leonard Bernstein to Glenn Gould, from Bartók to Mahler, and from pop-up orchestras to opera. They listen to and dissect recordings of some of their favorite performances, and Murakami questions Ozawa about his career conducting orchestras around the world. Culminating in Murakami's ten-day visit to the banks of Lake Geneva to observe Ozawa's retreat for young musicians, the book is interspersed with ruminations on record collecting, jazz clubs, orchestra halls, film scores, and much more. A deep reflection on the essential nature of both music and writing, *Absolutely on Music* is an unprecedented glimpse into the minds of two maestros.

"A comprehensive collection of bebop studies, with detailed explanation of some of jazz improvisations fundamental tools. The pages in this book contain a collection of studies developed that will help you improve your technique, knowledge of your instrument, and a feeling for jazz melodies. If practiced in tempo you will also develop a good sense of rhythm. There is a great deal of material here, all of which is based on actual jazz phrases. Any part of the following studies can be easily adopted as part of a solo. Fingerings and fret-board diagrams are included as well as an accompanying CD with 15 tracks that features the studies in this book as played by Roni Ben-Hur with the accompaniment of one of New Yorks best rhythm sections: Tardo Hammer on piano, Earl May on bass and Leroy Williams on drums. It is a powerful tool to help you master this material. Use it to listen to the studies and get acquainted with them, then practice them with the CD. You can turn the guitar channel off on the CD, and practice just with the rhythm section."

Saying Something University of Chicago Press

A woman in jazz. How was she treated on- and offstage? What was it like to play with Dizzy Gillespie or Charlie Parker? What was the breakthrough moment in her career? How did she balance her personal and professional life? In six illuminating interviews, female jazz musicians answer these questions and more, discussing the challenges of being a woman in a scene historically dominated by men. *Jazzwomen Speak* gathers the voices of women whose careers highlight the bebop and post-bop era of jazz, as they share stories of their musical training and entrance into the jazz world, relationships and encounters with other musicians, limitations on the bandstand and in the recording studio, and how being a female musician has formed their musical performances over time.

Jazz Spoken Here Hal Leonard

A landmark in jazz studies, *Thinking in Jazz* reveals as never before how musicians, both individually and collectively, learn to improvise. Chronicling leading musicians from their first encounters with jazz to the development of a unique improvisatory voice, Paul Berliner documents the lifetime of preparation that lies behind the skilled improviser's every idea.

The product of more than fifteen years of immersion in the jazz world, *Thinking in Jazz* combines participant observation with detailed musicological analysis, the author's experience as a jazz trumpeter, interpretations of published material by scholars and performers, and, above all, original data from interviews with more than fifty professional musicians: bassists George Duvivier and Rufus Reid; drummers Max Roach, Ronald Shannon Jackson, and Akira Tana; guitarist Emily Remler; pianists Tommy Flanagan and Barry Harris; saxophonists Lou Donaldson, Lee Konitz, and James Moody; trombonist Curtis Fuller; trumpeters Doc Cheatham, Art Farmer, Wynton Marsalis, and Red Rodney; vocalists Carmen Lundy and Vea Williams; and others. Together, the interviews provide insight into the production of jazz by great artists like Betty Carter, Miles Davis, Dizzy Gillespie, Coleman Hawkins, and Charlie Parker. *Thinking in Jazz* overflows with musical examples from the 1920s to the present, including original transcriptions (keyed to commercial recordings) of collective improvisations by Miles Davis's and John Coltrane's groups. These transcriptions provide additional insight into the structure and creativity of jazz improvisation and represent a remarkable resource for jazz musicians as well as students and educators. Berliner explores the alternative ways—aural, visual, kinetic, verbal, emotional, theoretical, associative—in which these performers conceptualize their music and describes the delicate interplay of soloist and ensemble in collective improvisation. Berliner's skillful integration of data concerning musical development, the rigorous practice and thought artists devote to jazz outside of performance, and the complexities of composing in the moment leads to a new understanding of jazz improvisation as a language, an aesthetic, and a tradition. This unprecedented journey to the heart of the jazz tradition will fascinate and enlighten musicians, musicologists, and jazz fans alike.

Miles Davis, Gil Evans, Dizzy Gillespie, Jon Hendricks, Max Roach, Betty Carter, Jackie McLean, Don Cherry, Sonny Rollins, McCoy Tyner, Archie Shepp, Herbie Hancock, Tony Williams, Keith Jarrett, Wynton Marsalis, and Jack DeJohnette—these are just a few of the jazz musicians whose conversations with Ben Sidran are recorded in this volume. In stimulating, personal, and informative discussions, they not only reveal their personalities, but also detail aspects of the performance, technique, business, history,

and emotions of jazz. Newly expanded with previously unpublished dialogues with David Murray, Dr. John, and Mose Allison, *Talking Jazz* is undoubtedly the best oral history of recent and contemporary jazz.

Thinking in Jazz Oxford University Press, USA

Ken Prouty argues that knowledge of jazz, or more to the point, claims to knowledge of jazz, are the prime movers in forming jazz's identity, its canon, and its community. Every jazz artist, critic, or fan understands jazz differently, based on each individual's unique experiences and insights. Through playing, listening, reading, and talking about jazz, both as a form of musical expression and as a marker of identity, each aficionado develops a personalized relationship to the larger jazz world. Through the increasingly important role of media, listeners also engage in the formation of different communities that not only transcend traditional boundaries of geography, but increasingly exist only in the virtual world. The relationships of "jazz people" within and between these communities is at the center of *Knowing Jazz*. Some groups, such as those in academia, reflect a clash of sensibilities between historical traditions. Others, particularly online communities, represent new and exciting avenues for everyday fans, whose involvement in jazz has often been ignored. Other communities seek to define themselves as expressions of national or global sensibility, pointing to the ever-changing nature of jazz's identity as an American art form in an international setting. What all these communities share, however, is an intimate, visceral link to the music and the artists who make it, brought to life through the medium of recording. Informed by an interdisciplinary approach and approaching the topic from a number of perspectives, *Knowing Jazz* charts a philosophical course in which many disparate perspectives and varied opinions on jazz can find common ground.

This fresh look at the neglected rhythm section in jazz ensembles shows that the improvisational interplay among drums, bass, and piano is just as innovative, complex, and spontaneous as the solo. Ingrid Monson juxtaposes musicians' talk and musical examples to ask how musicians go about "saying something" through music in a way that articulates identity, politics, and race. Through interviews with Jaki Byard, Richard Davis, Sir Roland Hanna, Billy Higgins, Cecil McBee, and others, she develops a perspective on jazz improvisation that has "interactiveness" at its core, in the creation of music through improvisational interaction, in the shaping of social communities and networks through music, and in the development of cultural meanings and ideologies that inform the interpretation of jazz in twentieth-century American cultural life. Replete with original musical transcriptions, this broad view of jazz improvisation and its emotional and cultural power will have a wide audience among jazz fans, ethnomusicologists, and anthropologists.

The story of a transgender child based on the real-life experience of Jazz Jennings, who has become a spokesperson for transkids everywhere "This is an essential tool for parents and teachers to share with children whether those kids identify as trans or not. I wish I had had a book like this when I was a kid struggling with gender identity questions. I found it deeply moving in its simplicity and honesty."—Laverne Cox (who plays Sophia in "Orange Is the New Black") From the time she was two years old, Jazz knew that she had a girl's brain in a boy's body. She loved pink and dressing up as a mermaid and didn't feel like herself in boys' clothing. This confused her family, until they took her to a doctor who said that Jazz was transgender and that she was born that way. Jazz's story is based on her real-life experience and she tells it in a simple, clear way that will be appreciated by picture book readers, their parents, and teachers.

One of the Best Books of the Year: NPR, GQ, Billboard, JazzTimes
In jazz parlance, "playing changes" refers to an improviser's resourceful path through a chord progression. In this definitive guide to the jazz of our time, leading critic Nate Chinen boldly expands on that idea, taking us through the key changes, concepts, events, and people that have shaped jazz since the turn of the century—from Wayne Shorter and Henry Threadgill to Kamasi Washington and Esperanza Spalding; from the phrase "America's classical music" to an explosion of new ideas and

approaches; from claims of jazz's demise to the living, breathing scene that exerts influence on mass culture, hip-hop, and R&B. Grounded in authority and brimming with style, packed with essential album lists and listening recommendations, *Playing Changes* takes the measure of this exhilarating moment—and the shimmering possibilities to come.
