CASSIDY MOODY

The Blue Bistro An Aspen Cove
Romance

Does one, can one ever forget . . .
dismiss . . . disdain the life-changing,
mind-boggling, heart-blasting impact of
a first love? Memories of it may flounder
in the fog of passing years, or be

consumed by the blaze of more
persistent, lasting love. Whether it was
ecstasy or agony, does a first love ever
lose its power? Does sunlight truly
obliterate fog, or does it merely push it
aside until it is merely the shadows?
Renita Vander Voon never expected to
be asking these questions, but then her
first-love reappeared. That's when she
realizes that fog obscures all but what is
most important: the next step to take,

which is something only her heart knew.

Mars, 600 years in the future, is dying. Five hundred years after the Chinese conquered the Red Planet, the great work of terraforming is failing. The human-machine Consensus of Earth had persuaded the AI Emperor to follow the Golden Path into a vast virtual reality universe, leaving behind an ungoverned planet swept by hunger riots and the beginnings of civil war. Enter Wei Lee, a lowly itinerant agricultural technician: rock 'n' roll fan, dupe, holy fool - and unlikely Messiah. After stumbling on an anarchist pilot hiding near the wreckage of her spacecraft, he's drawn into a revolutionary plot that has been spinning for decades. With the help of a ghost,

the broadcasts of the King of the Cats, a Yankee yak herder, and a little Girl God, Lee travels across the badlands, swampy waterways and vast dust seas to a showdown at the summit of the biggest volcano in the Solar System. Not even the God-like Consensus can predict the outcome of his struggle to define his own destiny . . . Epic in scope, Red Dust's spectacular, fast-paced story brilliantly brings to life the planet that has captured our imagination like no other. *The FAA's Impact on Small Businesses in the General Aviation Industry* Aspen Publishing

As a favor to her sister, she arrived in the small mountain town for a temporary job as the clinic doctor. Her first question when she got there was 'how fast can I leave?' That was until sinfully, sexy Wes Covington came into the clinic seeking care. With him around Lydia might have found a reason to stay-for now.Wes Covington left his demons in Denver.

Working for his family's architectural firm, he was tired of being almost-almost good enough-almost rich enough-almost loveable enough. When Wes meets Dr. Lydia Nichols he likens her to a hellion with a halo. She's the perfect mix of sassy and sweet, cunning and compassion, but she'll never be his unless he can convince her to stay. Japan is arguably the first postindustrial society to embrace the prospect of human-robot coexistence. Over the past decade, Japanese humanoid robots designed for use in homes, hospitals, offices, and schools have become celebrated in mass and social media throughout the world. In *Robo sapiens japonicus*, Jennifer Robertson casts a critical eye on press releases and public relations videos that misrepresent robots as being as versatile and agile as their science fiction counterparts. An ethnography and sociocultural history of governmental and academic discourse of human-robot relations in Japan, this book explores how actual robots—humanoids, androids, and animaloids—are

“imagineered” in ways that reinforce the conventional sex/gender system and political-economic status quo. In addition, Robertson interrogates the notion of human exceptionalism as she considers whether “civil rights” should be granted to robots. Similarly, she juxtaposes how robots and robotic exoskeletons reinforce a conception of the “normal” body with a deconstruction of the much-invoked Theory of the Uncanny Valley.

Talking about money in a personal way remains more of a taboo than sex or

politics. This seems odd within a Christian context, since Jesus addressed topics of money, poverty, and wealth more than any other concerns. For many, money becomes an idol; we see it in our own culture as we pursue economic growth no matter the cost to the overall well-being of God's creation. When that happens, "enough" is always more than we have right now, and scarcity becomes the lens through which we see the world. On a personal level, this book opens up issues of scarcity and abundance, idolatry and freedom; on a societal level, it invites exploration of greater equity and sustainability. On both levels, it empowers individuals and groups to apply their faith's values in practical ways while taking pastoral and prophetic stances. The author suggests

we need to experience the nurturing companionship of a wise, compassionate pastor or spiritual guide in our relationship to money, while also needing to experience the power, strength, anger, and call to repentance of an Old Testament prophet. People want to connect their values with everyday concerns, while discovering ways to make a positive difference. This book helps them do both. Includes a comprehensive study guide within the book for groups and individuals.

Few American lives are stranger, more action-packed, or wilder than that of Hunter S. Thompson. Born a rebel in Louisville, Kentucky, Thompson spent a lifetime channeling his energy and insight into such landmark works as Fear

and Loathing in Las Vegas - and his singular and provocative style challenged and revolutionized writing. Now, for the first time ever, Jann Wenner and Corey Seymour have interviewed the Good Doctor's friends, family, acquaintances and colleagues and woven their memories into a brilliant oral biography. From Hell's Angels leader Sonny Barger to Ralph Steadman to Jack Nicholson to Jimmy Buffett to Pat Buchanan to Marilyn Manson and Thompson's two wives, son, and longtime personal assistant, more than 100 members of Thompson's inner circle bring into vivid focus the life of a man who was even more complicated, tormented, and talented than any previous portrait has shown. It's all here in its uncensored glory: the creative

frenzies, the love affairs, the drugs and booze and guns and explosives and, ultimately, the tragic suicide. As Thompson was fond of saying, "Buy the ticket, take the ride."

she would rather fly planes and deliver supplies than allow him to touch her. Contracts: Cases and Doctrine features a

mix of lightly-edited classic and contemporary cases that stresses current contract doctrine along with the essential lawyering skill of case analysis—how to sift through the facts of the case to discern the prevailing rules and theory. Randy Barnett and Nate Oman’s innovative text introduces each case and provides the historical background of the iconic cases that make the study of contract law engaging. Study Guide questions help students identify salient issues as they read each case. Judicial biographies of each judge provide additional context. The Seventh Edition has been edited to delete materials that are seldom covered in a 1L class. This edition adds new cases that have been chosen for their topicality, facts, or pedagogical

usefulness. New areas covered include so-called “smart contracts” and the relationship between restitution and contract. As always, we have tried to focus on cases with facts that will be easier to teach. New cases in this edition include a contract with a spy that turns out to be a double agent for the KGB, the effect of pandemics on contractual obligations, the gambling shenanigans of a royal prince, and emotional support animals. New to the Seventh Edition: In order to keep the size of the book manageable, we have eliminated the section on the signature requirement under the statute of frauds and have slimmed down the materials on internet contracting, which is no longer the “cutting edge” area that once it was. New cases include: Attorney General v.

Blake (restitution damages for breach of contract against a British spy who defected to the USSR) *Snepp v. United States* (squib) (constructive trust against an American spy for breach of contract) *Al-Ibrahim v. Edde* (denied an unjust enrichment remedy to unwind a contract declared unenforceable for illegality) *Pelletier v. Johnson* (claim for unjust enrichment allowed to unwind a contract declared unenforceable for illegality) *Carter Baron Drilling v. Badger Oil Corp.* (discussing the parole evidence rule under the UCC) *C.R. Klewin Inc. v. Flagship Properties, Inc.* (the exception to the 1-year requirement under the statute of frauds) *Cohen v. Clark* (case imposing liability on a breaching party that everyone agrees breached in “good faith”; illustrates the strictness of

contractual liability) *Hanford v. Connecticut Fair Ass’n, Inc.* (public policy exception for public health in time of a pandemic) *B2C2 Ltd v. Quoine Ltd Pte* (unilateral mistake case dealing with “smart contracts”) Professors and student will benefit from: Case-based approach that gives students ample doctrinal materials to sift through for facts and analyze for prevailing rules and theory. Cases that are lightly edited, or presented as whole as possible, to give first-year students the opportunity to develop case-analysis skills. Restatement and UCC sections integrated to encourage students to consult them as they read the cases. Iconic and contemporary cases combined to show how the classic cases are still relevant. Chapters that begin

with a brief, accessible textual introductions. Study Guide questions before each case help focus student attention on salient issues. Flexible organization begins with Remedies, but chapters can be taught in any order.
