Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

Caretta Caretta Johnson Books

"Paulus Hochgatterer's *Caretta, Caretta* (1999) features a fifteen-year-old juvenile delinquent named Dominik Bach, the product of a dysfunctional family, featuring a narcissistic mother and an abusive stepfather. Alone, forced to reside in a halfway house with other delinquents, he meets Isabella, who also has "family problems." She introduces him to turtles: 'Caretta, Caretta,' the most beautiful animal they have ever seen, becomes the object of their quest.

Come to the riverbank with Adrian Smith and cast a line on the wild side. 'Beautifully written account' Dave Simpson, *The Guardian* 'Writes beautifully' *The Sun* Welcome to the world of Adrian Smith, playing his Jackson guitar onstage to millions - while behind the scenes he explores far-flung rivers, seas and lakes, waterways and weirs, in a fearless quest for fishing nirvana. Hooked on the angling adrenaline rush since first catching perch from East London canals on outings with his father, Adrian grew up to be in one of Rock's most iconic bands. On tour, his gear went with him. The fish got bigger. The adventures more extreme. In *Monsters of River and Rock* you'll hear about his first sturgeon: a whopping 100-pounder from the roaring rapids of Canada's Fraser River that nearly wiped him out mid-Maiden tour. Then there's the close shave with a shark off the Virgin Islands whilst wading waist-deep for bonefish. Not to mention an enviable list of specimen coarse fish from the UK.

For years, the Dutch oven has been popular on the grill and barbecue scene, and cooking with the "black pots" over an open fire has become a fashionable cult; it is a symbol of the Wild West, freedom and adventure. The History and Theory of Fetishism, the expanded version of Iacono's enduring classic *Teorie del feticismo* and available for the first time in English, aims to provide the historical context necessary to understanding the concept of "fetishism" and offers an overview of the ideologies, prejudices, and critical senses that shaped the Western observer's view of otherness and of his own world. Iacono examines the moment when the Western observer turned his colonizing and evangelizing gaze to continents such as Africa and the Americas, while attempting to simultaneously destabilize and look at his own world critically.

Flycasting is a skill of almost mythic proportions. Yet discussions of casting often bog down in a world of technical minutiae that is almost impenetrable to the beginner. Now, in *The Essence of Flycasting*, Mel Krieger has created a clear, indispensable manual for anglers of all skill levels. Through detailed instructions and dozens of precise photographs, Krieger dissects this arcane art into understandable and executable steps that take the raw beginner from piles of line on the ground to graceful loops in the air. And the seasoned veteran will advance from struggling with 30-foot casts to skillfully double-hauling vastly more line across the water. Book jacket.

Dutch Oven

It's the Christmas holiday, the presents have been opened, and a six-year-old girl is drinking cocoa and playing with her grandfather. The doorbell rings, and the old man gets up. The next time the girl sees her grandfather, he is lying by the barn, his skull broken; his face a red pulp against the white snow. From that time on, she does not speak a single word. Along with Detective Superintendent Ludwig Kovacs, Raffael Horn, the psychiatrist engaged to treat the silent child, reluctantly becomes involved in solving the murder. Their parallel researches sweep through the town: a young mother who believes her new-born child is the devil; a Benedictine monk who uses his iPod to drown the voices in his head; a high-spending teenager who tortures cats. With his background as a child psychiatrist, Hochgatterer draws back the veil of normality and presents a disconcerting portrait of a winter-held town filled with unsavory inhabitants.

The Complete Illustrated Directory of Salmon Flies

The captivating watercolors of James Prosek, the artist the *New York Times* calls "the Audubon of the fishing world." In the tradition of his acclaimed *Trout: An Illustrated History*, renowned naturalist, artist, and fisherman James Prosek captures thirty-five of the most pursued game fish—from striped bass to tarpon, swordfish to bonefish—as well as many creatures that share these marine ecosystems through rich, highly detailed watercolors painted specifically for this volume. Each painting reflects Prosek's individual experience with a single fish. The artist traveled the world to experience firsthand each species just out of the water before the fish lose their true colors. The original works are life-size portraits (from a 14-inch porgy to a 12-foot blue marlin), and details from the originals are reproduced at full size to give a sense of scale. This book is a must-have for saltwater anglers, conservationists, art lovers, and anyone passionate about the beauty of the coastline and the mysteries swimming off its shores.
