Joseph M. Marshall's thoughtful, illuminating account of how the spiritual beliefs of the Lakota people can help us all lead more meaningful, ethical lives. Rich with storytelling, history, and folklore, *The Lakota Way* expresses the heart of Native American philosophy and reveals the path to a fulfilling and meaningful life. Joseph Marshall is a member of the Sicunga Lakota Sioux and has dedicated his entire life to the wisdom he learned from his elders. Here he focuses on the twelve core qualities that are crucial to the Lakota way of life--bravery, fortitude, generosity, wisdom, respect, honor, perseverance, love, humility, sacrifice, truth, and compassion. Whether teaching a lesson on respect imparted by the mythical Deer Woman or the humility embodied by the legendary Lakota leader Crazy Horse, *The Lakota Way* offers a fresh outlook on spirituality and

ethical living.

From best-selling Native American writer Joseph M. Marshall III comes an inspirational guide deeply rooted in Lakota spirituality. When a young man's father dies, he turns to his sagacious grandfather for comfort. Together they sit underneath the family's cottonwood tree, and the grandfather shares his perspective on life, the perseverance it requires, and the pleasure and pain of the journey. Filled with dialogues, stories, and recollections, each section focuses on a portion of the prose poem "Keep Going" and provides commentary on the text. Readers will draw comfort, knowledge, and strength from the Grandfather's wise words—just as Marshall himself did.

Although cross-cultural encounter is often considered an economic or political matter, beauty, taste, and artistry were central to cultural exchange and political negotiation in early and nineteenth-century America. Part of a new wave of scholarship in early American studies that contextualizes American writing in Indigenous space, *Literary Indians* highlights the significance of Indigenous aesthetic practices to American literary production. Countering the prevailing notion of the "literary Indian" as a construct of the white American literary imagination, Angela Calcaterra reveals how Native people's pre-existing and evolving aesthetic practices influenced Anglo-American writing in precise ways. Indigenous aesthetics helped to establish borders and foster alliances that pushed against Anglo-American settlement practices and contributed to the discursive, divided, unfinished aspects of American letters. Focusing on tribal histories and Indigenous artistry, Calcaterra locates surprising connections and important distinctions between Native and Anglo-American literary aesthetics in a new history of early American encounter, identity, literature, and culture.

"This monograph, the result of years of study and discussion with tribal elders, is an important addition to our knowledge of Native American sky-related traditions. It demonstrates that knowledge of star and sun watching practices is very much alive in some tribal contexts, despite centuries of acculturation and attempts by the dominant society to root out such 'pagan' sacred observances. It also provides important lessons for other tribal groups who wish to retain more of their traditional practices for their descendants" (p. iii).

Pickup trucks and eagles, yellow school buses and painted horses, Mother Earth and Sister Meadowlark all join together to greet the dawn. They marvel at the colors and sounds, smells and memories that come with the opening of the day. Animals and humans alike turn their faces upwards and gaze as the sun makes its daily journey from horizon to horizon. Dawn is a time to celebrate with a smiling heart, to start a new day in the right way, excited for what might come. Birds sing and dance, children rush to learn, dewdrops glisten from leaves, and gradually the sun warms us. Each time the sun starts a new circle, we can start again as well. All these things are part of the Lakota way, a means of living in balance. S. D. Nelson offers young readers a joyous way of appreciating their culture and surroundings. He draws inspiration from traditional stories to create *Greet the Dawn*. His artwork fuses elements of modern with traditional. Above all, he urges each of us to seize the opportunity that comes with the dawn of each new day.

Some might think that the 27 thousand tons of material launched by earthlings into outer space is nothing more than floating piles of debris. However, when looking at these artifacts through the eyes of historians and anthropologists, instead of celestial pollution, they are seen as links to human history and heritage. *Space: The New Frontier for Archeologists Handbook of Space Engineering, Archaeology and Heritage*, published this month by CRC Press Taylor and Francis Group, brings together 43 anthropologists, historians, physicists, and engineers, a scientific team as culturally diverse as the crew of any science fiction cruiser. They offer a range of novel historical

and technological perspectives on humankind's experience in space. This ambitious work presents an informative, thought-provoking, and educational text that discusses the evolution of space engineering, spacecraft reliability and forensics, field techniques, and mission planning, as well as space programs for the future. The book is edited by a pair of scientists from different sides of the campus: Ann Garrison Darrin, aerospace engineer and NASA veteran and Beth Laura O'Leary, anthropologist and member of the World Archaeological Congress Space Heritage Task Force. The handbook delves into the evolution of space archaeology and heritage, including the emerging fields of Archaeoastronomy, Ethnoastronomy, and Cultural Astronomy. It also covers space basics and the history of the space age from Sputnik to modern day satellites. It discusses the cultural landscape of space, including orbital artifacts in space, as well as objects left on planetary surfaces and includes a look at the culture of Apollo as a catalog of manned exploration of the moon. It also considers the application of forensic investigation to the solving of cold case mysteries including failed Mars mission landing sites and lost spacecraft, and even investigates the archaeology of the putative Roswell UFO crash site and appraises material culture in science fiction.

The story of the last deaths in the American Indian wars and their far-reaching ramifications The massacre of at least 150 Indians by the U.S. Army along Wounded Knee Creek in the Lakota reservation on December 29, 1890 generally is considered the closing salvo in America's Indian Wars. But as Roger L. Di Silvestro reveals in startling detail, the fight was hardly over. Two tragic events in the weeks immediately following would reignite the conflict and forever color its legacy. In the *Shadow of Wounded Knee* is the first book to chronicle the senseless killings that riveted the country in 1891: the assassination of Lieutenant Edward Casey by the young Brulé Lakota warrior Plenty Horses, and the ambush of Few Tails and two other Indians by rancher Pete Culbertsons and his brothers. According to frontier justice of the day, Plenty Horses would have been summarily hanged and the Culbertsons would never have been tried. Yet in the aftermath of Wounded Knee--a slaughter that had horrified politicians, soldiers, and citizens alike--the trial of Plenty Horses made headlines nationwide as a cause célèbre. Soon prosecutors faced a quandary: if Plenty Horses were convicted, then the Army itself would have to be held accountable for its actions at Wounded Knee. How Plenty Horses--a "civilized" Indian who was educated in a school back east--was ultimately exonerated, and the Culbertsons were forced to stand trial, forms a fascinating closing chapter in the Indian Wars and in the last days of the Old West.

Economic collapse, poverty, disease, natural disasters, the constant threat of community unrest and international terrorism--a quick look at any newspaper is enough to cause almost anyone to feel trapped and desperate. Yet the recent election also revealed a growing search for hope spreading through society. In the timely *Hope in the Age of Anxiety*, Anthony Sciolli and Henry Biller illuminate the nature of hope and offer a multitude of techniques designed to improve the lives of individuals, and bring more light into the world. In this fascinating and humane book, Sciolli and Biller reveal the ways in which human beings acquire and make use of hope. *Hope in the Age of Anxiety* is meant to be a definitive guide. The evolutionary, biological, and cultural roots of hope are covered along with the seven kinds of hope found in the world's religions. Just as vital, the book provides many personal tools for addressing the major challenges of the human condition: fear, loss, illness, and death. Some of the key areas illuminated in *Hope in the Age of Anxiety*: How do you build and sustain hope in trying times? How can hope help you to achieve your life goals? How can hope improve your relationships with others? How can hope aid your recovery from trauma or illness? How does hope relate to spirituality? *Hope in the Age of Anxiety* identifies the skills needed to cultivate hope, and offers suggestions for using these capacities to realize your life goals, support health and healing, strengthen relationships, enhance spirituality, and inoculate yourself against the despair that engulfs many individuals.

When we began our search for consultants for *Into the West*, we were looking for individuals with a deep knowledge of the culture and history of the Lakota people. In Joe Marshall, we found that

person, but the happy surprise was that we also found a poet, a storyteller, and an educator who led us through challenging terrain with great patience and wisdom. Michael Wright Executive in Charge of Production, *Into the West* Turner Network Television Native American lineage holders have long been cautious about sharing their spiritual truths because the essence of this wisdom has been so often misunderstood. In *Walking with Grandfather*, authentic Lakota lineage holder and award-winning storyteller Joseph M. Marshall breaks this silence with the very best from a lifetime of lessons passed on to him by his grandfather. With him, you will gain access to the timeless teachings that until now remained largely unheard outside the culture of the Lakota people. Part of an unbroken series of narratives dating back countless centuries, this rare new transmission includes Marshall's rendition of legendary stories such as; *Follow Me* why it is not authority but character, compassion, and experience that make a good leader.

Drawing on the long and arduous history between the Indigenous people of North America and the Christian church that colonists brought to them, the harmful relationship of the past must be addressed. To move forward so that Native American spiritual practices have much to offer the Christian world of spiritual living, a way, a spirit of respect and reverence must be established. For centuries, these two deeply spiritual worlds were told that they could not and would not coexist. Drawing deep attention to ways Native American spiritual practices have been misappropriated and trivialized over the years through a lack of reverence draws us into a deeper sense of respect and appreciation for non-Native persons and offers a new sense of hope and beginning for Native peoples that continue to struggle with the voices of the past telling them that being fully Native and fully Christian are incompatible. There is a new reality that these two worlds very much can and should coexist, and it is a good and joyful thing for all people to begin to explore where Native American cultures and faith intersect.
