KANE DILLON

The Advancing Guitarist Rock House Method

"We loved the book. The information was well paced and concise enough not to overwhelm. Any beginner would definitely benefit from having this book, and it's a great reminder for those who might have forgotten details or are looking for them." -- Nimal De Silva, The Music Garage (Singapore)
 "Plenty of detail that goes into posture, hand position, thumb position, etc. The notation and strumming is really good here because it builds up in stages. In a lesson, you can introduce it in this way piece by piece and not overwhelm the student." -- Michael Hanna, Grade 8 RS.Guitar - Larne Guitar School (N.Ireland)
 Learn to Play Guitar is comprehensive and clear with over 180 photographic examples, illustrations and purpose made diagrams. This guitar book includes 42 downloadable mp3 tracks of full band demo and backing track with the guitar removed for you to play over. Learn to Play Guitar bridges the gaps explaining guitar techniques that can be taken for granted by more experienced guitar players. Melodies: To get you straight into playing music, numbers have been added underneath guitar tablature to assist with the rhythm. Later on, the rhythmical aspect of conventional music notation is covered so you can use it in conjunction with tablature. Rhythm Guitar: Changing between chords and strumming are presented as separate subjects initially, so that you can develop coordination in each hand independently. They are then brought together starting

basic and getting more advanced until there is a rhythm guitar musical piece to play. Music theory: The major scale, minor scale, major and minor pentatonic scales and basic major and minor chord construction are explained in terms of the fret-board and reinforced by musical pieces in various styles to make the learning process practical and enjoyable. What else?: Fret-board layout, power chords, barre chords, how to string a guitar, how to practise guitar, palm muting and basic lead guitar techniques. Please Note: The eBook includes musical pieces so is not suitable for smaller screens. "This top value eBook and MP3 package covers a wide range topics essential for all guitarists. Over 100 pages with plenty of information and solid advice that a player can dip into as needed. Evans does not gloss over the often neglected area of reading notation for rhythm. There are many examples to practice (melodies and rhythm patterns) with the backing tracks. I was especially interested in the final section of exercises to keep your body guitar-ready. A very useful tool to help you progress with your guitar playing." -- Hedley Timbs BA(Mus), Grad.Dip. Teaching (New Zealand)
 "Awesome. Well laid out, easy to look at and there is the supplemental material to top it off. The theory may get tedious for some, it's hard to not teach theory but most people seem to have an aversion to it, the idea of discipline I think." -- Gernot Schlegel, Professional Guitarist & Teacher (Canada)
 "There's two ways of learning the guitar – the first is two learn enough of the basics to fly towards playing your favourite songs competently, and the second is to intensively gain an understanding of the instrument by forming a solid foundation through taking your time with it in the early stages. The book titled "Learn to play Guitar" by Gareth Evans is of the latter approach. Through reading and learning from this book, players can discover a deep, extensive and in-depth approach to the technique, theory and everything else related to being a good beginner guitarist. Newcomers

can learn positive and productive exercises to train their body to better play the guitar (not just their fingers) and across the 120 or so pages within, it's clear that the writer has put a lot of time into figuring out the right approach for starters to take when adjusting to the standard 6-string. Would recommend this for anyone who is looking to get a really solid grip on how to play the guitar, and also to tutors who are looking at ways to improve their own tutoring abilities." -- Logan Ellis, Mgr. Spiderhands Productions Ltd (New Zealand) "Learn to play Guitar is an ideal companion to support the beginner on their new found musical journey. Highly recommended." -- Liam Cain, BMus (hons) Professional Guitarist (UK)

Progressive Beginner Blues Lead Guitar LearnToPlayMusic.com

The Progressive COMPLETE LEARN TO PLAY BLUES GUITAR MANUAL is the ultimate Blues guitar manual. It assumes you have no prior knowledge of music and will take you from beginner to professional level. In the course of the book you will learn all the essential techniques of Blues Guitar along with how to read traditional music notation, guitar TAB, and rhythm notation. By the end of the book you will be ready to play in a Blues band, perform solo and write your own Blues songs.

Advanced Guitar Theory and Technique Applied to the Metal and Shred Genres LearnToPlayMusic.com

(Book). Backbeat's successful Handbook format applied to the world's most popular instrument. The Electric Guitar Handbook is the latest entry in Backbeat's best-selling handbook series, combining a two-part book and an audio CD in a practical lay-flat binding for ease of reference when playing. Part one of the book examines how different types of electric guitars are made, and why varying construction methods influence the way guitars sound. It also looks at the role of various pieces of guitar hardware, including pick-ups, tremolo set-ups, and bridges. Part two is a comprehensive, user-friendly course in playing the electric guitar, from the basics of posture and hand positioning to music and tab reading and advanced performance. Newly written exercises presented in the book and also on the accompanying CD take the learner through each step in the process, covering styles including rock, country, blues, soul/funk, indie/alternative, and metal. Author Rod Fogg also offers practical advice on everything from simple scales to complex chords, alongside short features introducing key performers and styles.

Progressive How to Tune a Guitar L.T.P. Publications

Jamming along with a band is the ultimate way of learning how to create your own guitar solos. The 10 track full band backing CD that accompanies this book enables you to do just that! On the CD you'll hear a full band line-up, but without the lead guitar YOU will be the lead guitarist. Experience the thrill of creating your own guitar solos and playing along with your own band. The book explains from total beginner level: . how to improvise . how to invent stunning solos . how to create riffs and phrases . how to use scales and follow chord charts Everything is explained in a clear and straightforward way, with no compulsion to read traditional musical notation. This book and CD are also ideal as study aids for the Lead Guitar section of the Registry of Guitar Tutors Preliminary Grade electric guitar examination. By following this course you'll learn, in a structured and comprehensive way, how to improvise and create exciting guitar solos in a wide range of musical styles.

Progressive Lead Guitar Hal Leonard Corporation

From his prolific solo work as a Producer, Writer, Video Game Music Composer and Author, to his prominent memberships in many influential hard rock and metal groups, Joshua Craig Podolsky of THE ALIEN BLAKK has displayed one of the most fiery creative personas and influential approaches to lead guitar playing ever. Joshua has continually affirmed his stance in the upper echelon of contemporary super guitarists with accolades that include his work with Rob Halford of Judas Priest, Xzibit, Motograter, Christina Aguilera, Coolio, Dr. Dre, Mark Hamill as well as members of Metallica, Megadeth, Fear Factory, Testament, KISS, White Zombie, Whitesnake, CKY, Flotsam & Jetsam, Soulfly, Fight, Methods Of Mayhem, Black Dahlia Murder, Death and Cypress Hill to name a few. Equally attention-grabbing are Joshuas incendiary chops, technique, personality on guitar and his proven teaching style (focused on in Advanced Lead Guitar Concepts). Joshua walks the walk and talks the talk and proves himself and his theologies and mindset with every live performance, clinic, guitar lesson or lecture he gives. Advanced Lead Guitar Concepts: Mindset & Theologies in Improvisation will affirm any player with an advanced background in music that there is farther for you to go. You can get to that next breakthrough level in your guitar playing. This new method and approach of personal self discovery on the guitar will let you achieve that personal and very important goal. This is a brand new way and in a way, a reinvention of the wheel in discovery of lead guitar that you have never before thought of. Advanced lead Guitar Concepts is a book/CD/DVD set that is a must own tool for the modern day contemporary rock, metal and shred guitar enthusiast alike.

Lead Guitar Lessons - Guitar Scales and Modes LearnToPlayMusic.com

The Ultimate Guide For Guitarists That want To Reach Virtuoso Status High Intensity Guitar Technique Book 3 is the final instalment in this essential guitar technique course. Subtitled Virtuoso Techniques, High Intensity Guitar Technique Book 3 takes your playing from pro-level, covered in book 2 of the series into the stratospheric heights of world-class virtuoso playing. In this superb guide highly experienced professional guitarist and teacher Anthony George demystifies the confusion surrounding the four main technical areas of lead guitar, which are legato, alternate picking, sweep picking

and tapping. Taking influence from the methods of the greatest guitarists that have ever lived, Anthony George has compiled a wealth of technical knowledge in this guitar technique tour de force that will launch your guitar playing to a level you never thought possible. Subjects studied include: Full roll Legato, for ultra-smooth playing. Alternate Picking through entire scale shapes, across the whole neck. Sweeping combined with other techniques to create monster licks. Multi-string arpeggio tapping for mind-blowing phrases. Connecting sweep arpeggios along the neck for outrageous arpeggio lines. String Skipping, for wide interval head-turning, runs. Vast stretch and four notes per string hammer-ons and pull-offs, the pinnacle of modern Legato guitar playing. Economy Picking three notes per string, allowing you to blaze through scales Connecting large portions of the neck to create fret melting runs with every technique. Odd note groupings that produce stunning hyper-speed results. Detailed Explanation Can't find the answers to your questions on the internet? Are you wondering just how the virtuosos play so fast? Does it seem like a complete mystery as to how these great players can light up the neck and use every fret with ease and fluidity? One of the main issues with other instructional products is that the learner is left with so many questions after being shown an exercise. High Intensity Guitar Technique 3 solves this issue by explaining each task in phenomenal detail, so that the reader feels like Anthony is sitting in the room with them, giving them one to one tuition. How Does High Intensity Guitar Technique Tackle Guitar Playing Issues? Each of the four main areas of guitar technique covered in four stages of difficulty, so your learning is progressive, consistently achieving results. Hints, tips and tricks that unravel guitar mysteries. Over 240 examples delivered in a combination of Guitar Tablature, standard notation, and Fretboard Diagrams to support every learner's needs. FREE downloadable audio of every example so you can hear how it should sound. Bonus Material Other guitar books stop at showing you a host of examples, leaving you clueless as to how to continue to develop your playing after you've completed them. High Intensity Guitar Technique 3 eliminates this issue by giving you these bonus materials. Consolidation Routines - Once you've been through all of the examples in the book, the final chapter shows you how to consolidate this wealth of material into some convenient practice and maintenance routines. Etudes - Practicing exercises is a great way to build and maintain technique, but playing a piece is exciting and covers much ground in a smaller amount of time. High Intensity Guitar Technique 3 comes with etudes for practising the four main technical areas, all with included audio and backing tracks. Ready to take the final step towards virtuoso Guitar Mastery? Scroll to the top and buy High Intensity Guitar Technique 3 now.

How to Play Lead Guitar L.T.P. Publications

This book provides some melodically pleasing exercises, you will learn how to come up with your own guitar riffs, guitar licks, and guitar solos. As explained in those lessons, your riffs, licks, and solos don't need to be complex and fast to be of good quality. That said, if you're an advancing guitar player, you will also want to use techniques that increase the level of speed and complexity. These advanced guitar exercises are aimed to train you to gain more options for creating music. Options you didn't have when you were a beginner or an early intermediate guitar player.

House of Blues Registry Publications Ltd

For beginner guitarists. Covers both simple and advanced tuning methods. Discusses choosing and fitting strings for all types of guitars, as well as setup and maintenance tips.
