** Thousands of copies sold to happy kids everywhere.** ** Top 25 Children's Activity Book for three years.** After learning how to make balloon animals at camp, Emily and Elizabeth set out to create the ultimate balloon twist book -- for kids, by kids, with every page in full-color photographs. They left out the complicated designs and twists that required big hands, keeping only the projects that were fun and simple to learn. The book starts with seven-year-old Elizabeth's easiest balloon twists and works up to ten-year-old Emily's more advanced two and three-balloon creations. Included are suggestions on how to buy a pump and balloons, as well as warnings for noise-shy twisters who want to know when a part of the project needs extra care to avoid popping the

balloon.

"Really good. Highly recommended." Andrew Marr, Radio 4: Start the Week From the author of the internationally bestselling *The \$12 Million Stuffed Shark* comes a fresh and provocative look at the high-end art market and whether it is a bubble about to burst. Within forty-eight hours in the autumn of 2014, buyers in the Sotheby's and Christie's New York auction houses spent \$1.7 billion on contemporary art. Economist and bestselling author Don Thompson cites this and other fascinating examples to explore the sometimes baffling activities of the high-end contemporary art market, examining what is at play in the exchange of vast amounts of money and what nudges buyers, even on the subconscious level, to imbue a creation with such high commercial value. Thompson analyses the behaviours of buyers and sellers and delves into the competitions that define and alter the value of art in today's international market, from New York to London, Singapore to Beijing. Take heed if your fortunes are tied up in stainless steel balloon dogs - Thompson also warns of a looming bust of the contemporary art price balloon. A fascinating explanation, through the field of behavioural economics, for the phenomena that is behind the

incredible value of contemporary art.

#1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, The Subtle Art of Not Giving a F**k is a refreshing slap for a generation to help them lead contented, grounded lives.
