When Time Began Penguin

'Soyinka's greatest novel ... No one else can write such a book' - Ben Okri 'A high-jinks state-of-the-nation novel' - Chibundu Onuzo A FINANCIAL TIMES AND SPECTATOR BOOK OF THE YEAR A towering figure in world literature, Wole Soyinka aims directly at the corridors of power as he warns against corruption both of high office and of the soul, with a dazzling lightness of touch and gleeful irreverence. Much to Doctor Menka's horror, some cunning entrepreneur has decided to sell body parts from his hospital for use in ritualistic practices. Already at the end of his tether from the horrors he routinely sees in surgery, he shares this latest development with his oldest college friend, bon viveur, star engineer and Yoruba royal, Duyole Pitan-Payne, who has never before met a puzzle he couldn't solve. Neither realise how close the enemy is, nor how powerful. *Chronicles from the Land of the Happiest People on Earth* is at once a savagely witty whodunit, a scathing indictment of Nigeria's political elite, and a provocative call to arms from one of the country's most relentless political activists and an international literary giant. MORE PRAISE FOR WOLE SOYINKA: 'You don't see the things the same when you encounter a voice like that' - Toni Morrison 'One of the best there is today, a poet and a thinker, who knows both how the world works and how the world should work' - Chimamanda Ngozi Adichie

The Lifetimes When Jesus and Buddha Knew Each Other Simon and Schuster

Reveals Zecharia Sitchin's groundbreaking research into the code left behind by the creators of humanity. • Explains how the Anunnaki were not merely the mythical gods of the Sumerians, but rather the founders of human life on Earth. • Using Biblical and ancient Sumerian sources, explains how to decode these messages our star ancestors left behind. Daring to challenge our long-held beliefs about the origins of man, Zecharia Sitchin suggests that humans are not the children of God, but rather the children of the Anunnaki, an ancient race from the planet Nibiru. His revolutionary theories are supported by his intense scrutiny of not only ancient Sumerian texts but also stone structures all over the world. The similarities and astrological significance of these formations suggests that rather than looking for guidance from leaders here on Earth, humanity should instead look to the sky for answers. The Earth Chronicles deal with the history and prehistory of Earth and

humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

Chronicles from the Land of the Happiest People on Earth Chelsea Green Publishing

The groundbreaking, bestselling series—millions of copies sold worldwide! A classic of ancient human history—and one of the inspirations behind the History Channel's *Ancient Aliens*—Zecharia Sitchin's Earth Chronicles series is the revelatory and deeply provocative masterwork that forever altered humankind's view of our history and our destiny. The fantastic conclusion to the groundbreaking Earth Chronicles series brings together past and present to offer a radical vision of the future Thirty years ago, Zecharia Sitchin challenged established notions of the origins of Earth and man. In a series of provocative books, he offered a radical new theory, based on indisputable documentary evidence, of extraterrestrial beings—the Anunnaki—who arrived eons ago to plant mankind's genetic seed. In this triumphant final volume, he closes the circle, exploring the profound question that has troubled us throughout time—from the Bible's Daniel to Sir Isaac Newton to modern Americans—When will the end come? In *The End of Days*, Sitchin solves ancient enigmas, dechiphers the original meaning of religious symbols, analyzes scientific calculations, explores Messianic expectation, and bridges the links between history and prophecy—between the 21st century, A.D. and the 21st century B.C.—to present a startling vision of what is to come for us all.

The 12th Planet Orion

Explains the links between the Bible and ancient Sumerian texts, probing the age-old question of the relationship between humanity and its creators. • Challenges scientific maxims of the basis of human life. • Draws fascinating parallels between the leaders of the Anunnaki (from the 12th planet) and Yahweh. • A comprehensive new look at the history of man. • First time available in hardcover. In *Divine Encounters* Zecharia Sitchin draws on basic Judeo-Christian texts to analyze the creation myths, paralleling Biblical stories to the myths of Sumer and Mesopotamia in order to show that humanity did not evolve without assistance. Sitchin daringly hypothesizes instead that Enki, one of the leaders of the Anunnaki from the 12th planet, created humanity as a "primitive worker." Furthermore, Sitchin suggests that the extraterrestrial encounters of today demonstrate the continued interest of the Anunnaki in the Earthlings they created.

The Earth Chronicles series, in six volumes, deals with the history and prehistory of Earth and humankind. Each book in the series, based upon information written on clay tablets by the ancient civilizations of the Near East, records the fantastic and real battles that occurred between the original creator gods over control of planet Earth. Asserting the premise that mythology is not fanciful but the repository of ancient memories, The Earth Chronicles series suggests that the Bible ought to be read literally as a historic/scientific document, and that ancient civilizations--older and greater than assumed--were the product of knowledge brought to Earth by the Anunnaki, "Those Who from Heaven to Earth Came." The 12th Planet, the first book of the series, presents ancient evidence for the existence of an additional planet in the Solar System: the home planet of the Anunnaki. In confirmation of this evidence, recent data from unmanned spacecraft has led astronomers to actively search for what is being called "Planet X." The subsequent volume, *The Stairway to Heaven*, traces man's unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids, which had served as landing beacons for it--refuting the notion

that these pyramids were built by human pharaohs. Recently, records by an eye-witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book's conclusions. In *The Wars of Gods and Men*, the third volume of his series, Zacharia Sitchin recounts events closer to our times, concluding that the Sinai spaceport was destroyed 4,000 years ago with nuclear weapons. Photographs of Earth from space clearly show evidence of such an explosion. *The Wars of Gods and Men* additionally embraces Canaanite, Hittite, and Hindu sources to include in these investigations the incidents of The Great Flood, the Tower of Babel, and the upheaval of Sodom and Gomorrah. Sitchin's unique reexamination of ancient mysteries explains these past cataclysmic events in the history of humanity, opening insights into our future.

Genesis Revisited Simon and Schuster

Discovered as a typewritten manuscript only after her death in 2006, *Family of Earth* allows us to see into the young mind of author and Appalachian native Wilma Dykeman (1920-2006), who would become one of the American South's most prolific and storied writers. Focusing on her childhood in Buncombe County, Dykeman reveals a perceptive and sophisticated understanding of human nature, the environment, and social justice. And yet, for her words' remarkable polish, her voice still resonates as raw and vital. Against the backdrop of early twentieth-century life in Asheville, she chronicles the touching, at times harrowing, story of her family's fortunes, plotting their rise and fall in uncertain economic times and ending with her father's sudden death in 1934 when she was fourteen years old. Featuring a new foreword by fellow North Carolinian Robert Morgan, *Family of Earth* stands as a new major literary work by a groundbreaking author.

Journeys to the Mythical Past Hay House, Inc

An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of *The 12th Planet*, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with *The 12th Planet*, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge.

Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of *The 12th Planet* in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of *There Were Giants Upon the Earth*. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.

Zecharia Sitchin and the Extraterrestrial Origins of Humanity UNC Press Books

The companion volume to *The Earth Chronicles* series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series *The Earth Chronicles* provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In *The Lost Book of Enki* we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

The Lost Book of Enki Simon and Schuster

The crowning work of the best-selling Earth Chronicles series • Reveals the existence of physical evidence of alien presence on Earth in the distant past • Identifies and describes the demigods, such as Gilgamesh, descended from these visitors • Outlines the tests of this physical evidence of alien presence that could unlock the secrets of health, longevity, life, and death In whose genetic image were we made? From his first book *The 12th Planet* on, Zecharia Sitchin has asserted that the Bible's Elohim who said "Let us fashion The Adam in our image and after our likeness" were the gods of Sumer and Babylon--the Anunnaki who had come to Earth from their planet Nibiru. The Adam, he wrote, was genetically engineered by adding Anunnaki genes to those of an existing hominid, some 300,000 years ago. Then, according to the Bible, intermarriage took place: "There were giants upon

the Earth” who took Adam’s female offspring as wives, giving birth to “heroes of renown.” With meticulous detail, Sitchin shows that these were the demigods of Sumerian and Babylonian lore, such as the famed Mesopotamian king Gilgamesh as well as the hero of the Deluge, the Babylonian Utnapishtim. Are we then, all of us, descendants of demigods? In this crowning oeuvre, Zecharia Sitchin proceeds step-by-step through a mass of ancient writings and artifacts, leading the reader to

the stunning Royal Tombs of Ur. He reveals a DNA source that could prove the biblical and Sumerian tales true, providing conclusive physical evidence for past alien presence on Earth and an unprecedented scientific opportunity to track down the “Missing Link” in humankind’s evolution, unlocking the secrets of longevity and even the ultimate mystery of life and death.
