We, school bus drivers, are a twenty-five-minute parents and a short trip teacher in our profession of driving school buses. Our responsibilities go beyond any training or preparation that we might have along the way, coping with difficult students and rewarding act of kindness from unexpected parents or students. Timing and safety are well seen by parents and teachers as good token for being always on time. However, school bus driver faces many scenarios which could test his/her patience and goodwill and put his/her job in jeopardy at any given time. In A School Bus Driver's Memoirs, I described several scenarios--some funny, others were exciting and traumatic, but most of them were rewarding and happiness as part of the daily life of a school bus driver.

DID YOU KNOW THAT school busing is America's largest transit system? According to the American School Bus Council, 26 million students ride a school bus every day. School bus drivers across the country are entrusted with the care and safety of more than 25 million children as they are transported to and from school and school-related activities. School buses provide 10 billion annual student rides. Each school bus carries fifty to sixty-five passengers per route, per school. Most drivers have three daily pickup routes in the morning and afternoons. The first route picks up elementary school children, the second route picks up middle school children, and the third route picks up high schoolers.

Intended to help produce safe, competent California school bus drivers, this document contains

instructor's materials for a bus driver education course with eight sequential skill levels, including a final appraisal. The first section contains the curriculum's purpose and objectives, the California standards for a state-certified bus driver instructor, the California standards for a delegated behind-the-wheel trainer, and general guidelines for selection of training sites. In addition, information is provided on vehicle inspection training, brake system inspection training, and undercarriage training. Copies of a driver's inspection report and a driver's performance review also appear. Each of the next eight sections contain materials for one of the following skill levels: (1) basic vehicle familiarization; (2) precision training in vehicle movement and driving fundamentals; (3) transmission control and shifting procedures; (4) general defensive driving techniques; (5) specialized defensive driving techniques; (6) passenger loading and unloading procedures; (7) emergency procedures; and (8) final appraisal. The first seven sections each contain a table of contents, purpose and objectives, a note to the instructor, a glossary of terms, an outline of content to be taught, and a sheet on which the instructor can record the trainee's demonstrated competence at each task covered. The final appraisal section includes the purpose and objectives of the appraisal, advice to instructors on being tough but fair, final appraisal

procedures, and a form on which to document the final appraisal. (CML)

School Bus Driver Instructional Program. Instructor's Guide

The purpose of this book, "SCHOOL BUS WISDOM," is to aid the new school bus driver as well as the seasoned school bus driver in keeping their attitude, skills, safety performance and their interaction with students positive, professional, and sharp. Every School Bus driver who transports a part of that precious cargo of 24 million students to and from schools across this vast nation every day, of each school year, will benefit from this book. This book has a massive audience: Every School District throughout this country, as well as the contractors who serve School Districts which do not operate their own School Transportation. The audience also includes Parents and Guardians of students who ride a School Bus and the combination of material would be valuable information for the students themselves. Much of the information found in this book is not included in current school bus driving manuals or training materials. This is a collection of thoughts and ideas to help school bus drivers achieve positive results. This safety tool would make an excellent

gift for all school bus drivers who qualify for a safety award at the end of the school year. Read a blog about the book through this link: <http://schoolbuswisdom.com/blog/>
