Fold decorative origami objects out of cloth with this easy-to-use origami book. *Fabrigami* is the Asian art of folding fabrics to create three-dimensional objects ranging from the practical to the whimsical. Like paper, there are countless beautiful fabric designs to choose from, only fabric has the virtue of being extremely durable. *Fabrigami* began as origami legend Florence Temko's final project. Everyone knows that origami is the art of paper folding, but Temko had begun experimenting with folding fabric to make objects that are just as beautiful but more lasting than paper. Sadly, Temko passed away before the book was completed, but her collaborator, Jill Stovall, continued their work. Now, Stovall—with the help of Scott Stern, a rising young star of origami—brings *Fabrigami* to print for everyone to use and enjoy. This origami book begins by presenting instructions on how to treat fabric so it holds a shape when folded. Then Stovall shares a series of fun craft projects with simple origami-style diagrams that you can use to make a range of lovely objects. Stiffening the fabric requires some practice, but the folds are all easy enough to be considered origami-for-kids projects and are a great way to learn origami. Cloth origami projects include: Fan-tastic Fold Earrings Evening Wine Coat Florence's Hexagon Box Cloth Kimono Card Pleated Peacock

*Blooming Origami* offers easy-to-follow and perfectly logical instructions that enable readers to create twenty-nine different 3-dimensional flowers by folding square origami paper into pentagons, hexagons and octagons. The flowers are presented by season, so, for example, in the spring, readers will learn to make the cherry blossom, dogwood, pansy violet, sweet pea, lily-of-the-valley, climbing rose and hydrangea, among others; in summer, the morning glory, clematis, bougainvillea, lily, sunflower and dahlia; in fall, the gentian and chrysanthemum; while the narcissus, camellia, Adonis, tree peony, Kaffir lily and orchid can be found in the winter collection. The flowers themselves require no scissors or adhesive to make. Then with some floral tape and wire, they can be combined into beautiful arrangements, bouquets and even interior decorations. The designs in *Blooming Origami*, which are shown in vivid, full-color photographs, are stylized in the way of traditional Japanese origami flowers, different from the more realistic blooms in other books such as *JPT's Origami Flowers*. Renowned artist Fumio Inoue's motto is "origami from hand to hand," which describes his mission to pass on to others, by demonstrating with his own hands, his art and ideas. Ever since his childhood in Tokyo, he has been passionate about origami paper folding. In 1970, he began creating innovative designs of his own to complement the traditional styles he loved so well. Now, in *Blooming Origami*, he shares his love for the craft by guiding even less experienced origamists in fashioning these glorious flowers for all seasons.
