First We Surf, Then We Eat Simon and Schuster

While it features the "knights of the waves," the world's elite surfers, and the stunning locales where they practice their craft, this is not your standard sport photography collection. These breathtakingly dramatic images by leading figures in outdoor and extreme sport photography, it is the immense power and beauty of the ocean that is

the true "star." These brilliant and briny shots from seemingly impossible angles capture mounting ocean swells and cresting, curling, and crashing waves ridden by nimble, intrepid athletes, whose precarious dance embodies our collective love for the acrobatic challenge and of the sport. The entertaining text provides a breezy review of surfing history, from its Polynesian origins to the death-defying big wave riding of today, with vignettes of pioneers and contemporary luminaries, including big wave emeritus Jason Polakow, teenaged phenomena Kai

Lenny, windsurfer Robby Haish, bodyboarder Mike Steward, and the veritable Poseidon himself, Laird Hamilton. Readers will discover how each offshoot of the water surface sport emerged, how its innovators adopted new techniques and equipment to suit the unique aerodynamics of windsurfing, kite surfing, stand up paddle, body boarding, and most daring of all: tow-in surfing, which involves high-stakes teamwork and strategy to tow the surfer by jet ski and drop - at just the right moment-before a monster wave towering as high as 100 feet!

He has endeavored to make surfing more accessible and understandable to a broad audience. In addition, Slater has established a charitable foundation that embraces environmental issues and brings surfing to many who would otherwise never have the chance to participate. **Empire in Waves** Gibbs Smith This eclectic mix of surfing stories has something for everyone, from classic tales of monster waves and epic battles

Nineteenth-century philologist and Biblical critic William Robertson Smith famously concluded that the sacred status of holy places derives not from their intrinsic nature but from their social character. Building upon this insight,

Mecca and Eden uses Islamic exegetical and legal texts to analyze the rituals and objects associated with the sanctuary at Mecca. Integrating Islamic examples into the comparative study of religion, Brannon Wheeler shows how the treatment of rituals, relics, and territory is related to the more general mythological depiction of the origins of Islamic civilization. Along the way, Wheeler considers the contrast between Mecca and Eden in Muslim rituals, the dispersal and collection of relics of the prophet Muhammad, their relationship to the sanctuary at Mecca, and long tombs associated with the gigantic size of certain prophets mentioned in the Quran. Mecca and Eden succeeds, as few books have done, in making Islamic sources available to the broader study of

religion.

This important new study examines the changing place and meaning of lifestyle sports – parkour, surfing, skateboarding, kite-surfing and others – and asks whether they continue to pose a challenge to the dominant meanings and experience of ‘sport’ and physical culture. Drawing on a series of in-depth, empirical case-studies, the book offers a re-evaluation of theoretical frameworks with which lifestyle sports have been understood, and focuses on aspects of their cultural politics that have received little attention, particularly the racialization of lifestyle sporting spaces. Centrally, it re-assess the political potential of lifestyle sports, considering if lifestyle sports cultures present

alternative identities and spaces that challenge the dominant ideologies of sport, and the broader politics of identity, in the 21st century. It explores a range of key contemporary themes in lifestyle sport, including: identity and the politics of difference commercialization and globalization sportscares, media discourse and lived reality risk and responsibility governance and regulation the racialization of lifestyle sports spaces lifestyle sports outside of the Global North the use of lifestyle sport to engage non-privileged youth Casting new light on the significance of sport and sporting subcultures within contemporary society, this book is essential reading for students or researcher working in the sociology of sport, leisure studies or cultural studies.

As energy passing through matter organizes matter, so years of intimacy with the ocean and its waves organizes and alters the perceptions of the surfer. The lulls, sets, and rogue waves; the briny stew in which they tumble and struggle; the continual oscillations of reflective surfaces under shifting skies; the lurking presence of "The Landlord" -- all of this alters the senses while it educates the surfer, revealing the laws of the universe on a scale that can be engaged and understood. This collection of stories will pull you into the world of

the surfer -- capturing your emotion and engaging your mind. As varied as the patterns of waves, these stories reveal the joy, fear, longing, and ever-present questions of human emotion and existence. Book jacket.

A surfing, boy-crazy teenager comes of age in the summer of 1957 in this classic novel that inspired both movies and television and created an American pop

culture icon. “My English comp teacher Mr. Glicksberg says if you want to be a writer you have to—quote—sit on a window sill and get all pensive and stuff and jot down descriptions. Unquote Glicksberg! I don’t know what kind of things he writes but I found my inspiration in Malibu with a radio, my best girlfriends, and absolutely zillions of boys for miles. I absolutely had to write everything down because I heard that when you get older you forget things, and I’d be the most miserable woman in the world if I forgot all about Moondoggie and what happened this summer. I absolutely owe the world my story. (And every word is true. I swear.)” This is Franzie, part Holden Caulfield, part Lolita. The guys call her Gidget—short for girl midget. Based on the

experiences of his own daughter, Frederick Kohner’s trend-setting novel became an international sensation with an irrepressible heroine whose voice still echoes every thrill, every fear, and every hope that every teenager ever had about growing up.
