### **Brothers in War** Lonely Planet

Sad Topographies is an illustrated guide for the melancholic among us. Dispirited travellers rejoice as Damien Rudd journeys across continents in search of the world's most joyless place names and their fascinating etymologies. Behind each lugubrious place name exists a story, a richly interwoven narrative of mythology, history, landscape, misadventure and tragedy. From Disappointment Island in the Southern Ocean to Misery in Germany, across to Lonely Island in Russia, or, if you're feeling more intrepid, pay a visit to Mount Hopeless in Australia – all from the comfort of your armchair. With hand drawn maps by illustrator Kateryna Didyk, Sad Topographies will steer you along paths that lead to strange and obscure places, navigating the terrains of historical fact and imaginative fiction. At turns poetic and dark-humoured, this is a travel guide quite like no other. Damien Rudd is the founder of the hugely popular Instagram account @sadtopographies.

Bradt's fully illustrated wildlife guides focus on regions of the world particularly celebrated for their amazing and often unique species. With spectacular photography or exclusive watercolour drawings throughout, each visitors' guide provides an introduction to the region's principal flora and fauna alongside suggested wildlife itineraries, practical information on when to go and what to take and photography tips. Written in a deliberately engaging way, they offer something different from dry field guides, and will appeal to the interested layman as much as the wildlife devotee. Ideal as a lightweight companion to any wildlife trip they also make a handsome souvenir. Beautifully illustrated with full-colour photographs throughout, Madagascar Wildlife is a celebration of the unique fauna of a remarkable island. Featuring over 250 species - from lemurs to

millipedes - this guide is ideal for natural history enthusiasts and travellers alike. Newly discovered species and recently protected habitats are all covered in this fully revised edition. Also included is practical advice on visiting the key national parks and reserves plus special features on the evolution, camouflage, night-time wildlife and conservation issues.

Brothers in War is the immensely powerful

and deeply tragic story of the Beechey brothers, and how they paid the ultimate price for King and country. All eight went to fight in the Great War on such far-flung battlefields as France, Flanders, East Africa and Gallipoli. Only three would return alive. Even amid the carnage of the trenches, it was a family trauma almost without parallel. Their wives and sweethearts were left bereft, their widowed mother Amy devastated. It is a tragedy that has remained forgotten and unmarked for nearly 90 years. Until now. Kept in a small brown case handed down by the brothers' youngest sister, Edie, were hundreds of letters sent home from the front by the Beechey boys: scraps of paper scribbled on in the firing line, heartfelt messages written from a deathbed, exasperated correspondences detailing the absurdities of life in the trenches. From it all emerges the remarkable tale of the lost brothers. Tragic and moving, poetic in its intensity, *Brothers in War* reveals first-hand the catastrophe that was the Great War; all told through one family forced to sacrifice everything.

The most northerly of Britain's island groups, Shetland is so far removed from the rest of the UK that it usually appears as an inset on maps. Although relatively little known to those from outside the islands, Shetland is a magnificent terrain for walkers, especially those who love to really explore and get away from the beaten track. The coastal walking here includes some of the finest in the country, with superb cliffs, towering sea stacks,

caves and natural arches seemingly around every corner. Added to this is Shetland's better known claim to fame for its spectacular seabird colonies ¿ huge gannetries, moorland packed with arctic and great skuas, arctic terns in the more sheltered spots, and everyone's favourite ¿ the puffins. The islands also enjoy a dense population of otters, many seals, and a chance to see killer whales or other giants of the deep. Beyond all this natural grandeur, Shetland's history is fascinating too. The archaeological attractions are much less known than those on Orkney, but sites such as Jarlshof have amazingly preserved remains from prehistory right up to more recent times. These include iron age villages, chambered cairns, viking longhouses, pictish carvings, and impressive brochs ¿ including the most complete of all these iron-age defensive towers, on Mousa.
