In the

Wonderland of Investment (FY 2021-22) Princeton Review Available online: <https://pub.norden.org/tema/nord2021-547/> The Finnish presidency project on data exchange "Achieving the World's Smoothest Cross-Border Mobility and Daily Life Through Digitalisation" (2021-2023) has produced this baseline study report. The report outlines the current situation of cross-border data exchange between authorities in the Nordic and Baltic countries, while focusing on the three work packages of the presidency project: Studying in another Nordic-Baltic country, using health services in another Nordic-Baltic country, and the versatile use of the Nordic-Baltic legislative databases. Additionally, the barriers to cross-border data exchange was assessed based on the four interoperability layers of the European Interoperability Framework: legal, organisational, semantic and technical interoperability. The report will form the basis of the continued work of the presidency project.
