Katherine Hopkins is a strong believer in an all-natural and organic lifestyle, she specialises in nutrition and weight management and has a passion for beauty. With her vast knowledge of

nutrition, she's devised many healthy and all-organic skin and body care recipes to enable you to reveal your beauty naturally. In this edition, Katherine brings to you the ultimate pampering recipe kit, for relaxation, nourishment, soothing and exfoliation of the skin. The recipes for Skincare include; Body Scrubs, Body Butters, Body Wash & Bath Salts. Also inside, are Shampoo recipes to promote hair growth, treat dry/oily scalps and anti-dandruff. We're only too aware these days, of the ill-effects of using chemical based beauty products, created using conventionally produced natural

ingredients. The standard methods of growing herbs and other natural ingredients involve the use of pesticides and herbicides, which contain multiple harmful chemicals, therefore, beauty products formulated using those natural ingredients tend to contain remains of the perilous chemicals. All-organic products produce soothing affects without any negative repercussions, and by using products that contain organically farmed ingredients, you can be certain that no chemicals get released into the environment. All-natural and organic body care products are totally absent of any chemicals, as the natural ingredients used to make them, are produced without the application of any pesticide or herbicide. Neither do they contain artificial fragrances or parabens which are used to extend the shelf-life of a product, unlike conventionally produced products. The recipes provided within this book, give you the opportunity to create your own all-natural and organic beauty products, inexpensively and in your very own home. Let your skin breathe, live healthily and stay beautiful.
