Provides teaching notes and suggestions for each teaching spread in the Pupil's Book. Providing an overview of the unit content, list of the vocabulary, grammar and strategies, this book helps teachers plan their work. It also gives suggestions for ways in which ICT can be used to support and enhance the work of the course.

Hailed as one of the key theoreticians of modernism, Eugène-Emmanuel Viollet-le-Duc was also the most renowned restoration architect of his age, a

celebrated medieval archaeologist and a fervent champion of Gothic revivalism. He published some of the most influential texts in the history of modern architecture such as the Dictionnaire raisonné de l'architecture française du XIe au XVIe siècle and Entretiens sur l'architecture, but also studies on warfare, geology and racial history. Martin Bressani expertly traces Viollet-le-Duc's complex intellectual development, mapping the attitudes he adopted toward the past, showing how restoration, in all its layered meaning, shaped his outlook. Through his life journey, we follow the route by which the technological subject was born out of nineteenth-century historicism.

Provençal Literature & Language Including the Local History of Southern France Walter de Gruyter

Learning to Plan Modern Languages Lessons contains a wealth of guidance and ideas for those learning to teach in secondary schools. Drawing on

extensive experience and research in the field, it offers detailed explanation of basic lesson planning methods and the principles that underpin them, illustrated by worked examples of well-planned lessons. The book shows how to progress from planning smaller activities to full lessons to sequences of lessons, and how to ensure progression for your students. Specific aspects of language learning such as grammar and culture are explored, together with ideas for how to make your planning skills more effective in long-term collaborative and reflective practice. Starting from a presentation, practice, production (PPP) model of language teaching, the book aims to: provide structured, practical starting points in lesson planning for beginning teachers of modern languages (ML); deepen knowledge and understanding of ML as a subject and how it is learnt (pedagogical subject knowledge), in order to inform and support planning decisions; develop understanding of lesson planning as part of a planning cycle; enhance understanding of strategies and professional development opportunities to promote the further development of planning abilities. Including reflective/discussion tasks and example lesson plans Learning to Plan Modern Languages Lessons is a must-read book for beginning and more experienced teachers of any modern language.

The volume aims at investigating archetypes, concepts and contexts of the ancient philological discipline from a historical, methodological and ideological perspective. It includes 26 contributions by leading scholars divided into four sections: The ancient scholars at work, The ancient grammarians on Greek language and linguistic correctness, Ancient grammar in historical context and Ancient grammar in interdisciplinary context.

The Big one gets new clothes. The Little one gets hand-me-downs. The Big one does everything first. The Little one is always catching up But the little

one can do some things well, and can even teach the older one a thing or two.... Big sisters and little sisters alike will agree: this is a sassy and touching celebration of sisterhood for all ages.

Voyage is a French course with grammar and progression at its heart designed to help teachers cover all the requirements of the National Curriculum. The course provides clear explanations and a variety of practice activities, making learning and teaching easier. It fully integrates differentiation to meet the needs of a wide-ability range and includes regular assessments such as end-of-unit tests at Key Stage 3 and examination practice at Key Stage 4. It addresses the information and communication technology component of the National Curriculum.
