SINGH SHELDON

Daily Graphic Routledge

Since the 1991-2002 civil
 conflict ended in Sierra
 Leone, the country has

failed to translate the accomplishments of women's involvement in bringing the war to an end into meaningful political empowerment. This is in marked contrast to other post-conflict countries, which have increased the political participation of women in elected and appointed office, increased the representation of women in leadership positions, and enacted constitutional reforms promoting women's rights. Written by Sierra Leonean and Africanist scholars and experts from a broad range of disciplines, this unique volume analyses the historical and contextual factors influencing women's political, economic and social development in the country. In drawing on a diverse array of case studies – from health to education, refugees to international donors – the contradictions, successes and challenges of women's lives in a post-conflict environment are revealed, making this an essential book for anyone involved in women and development.

Critical Curriculum

Studies Springer African Linguistics on the Prairie features select

revised peer-reviewed papers from the 45th Annual Conference on African Linguistics, held at the University of Kansas. The articles in this volume reflect the enormous diversity of African languages, as they focus on languages from all of the major African language phyla. The articles here also reflect the many different research perspectives that frame the work of linguists in the Association for Contemporary African Linguistics. The diversity of views presented in this volume are thus indicative of the vitality of current African linguistics research. The work presented in this volume represents both descriptive and theoretical methodologies and covers fields ranging from phonetics, phonology, morphology, typology, syntax, and semantics to sociolinguistics, discourse analysis, language acquisition, computational linguistics and beyond. This broad scope and the quality of the articles contained within holds out the promise of continued advancement in linguistic research on African languages.

Ama Ata Aidoo, The

Dilemma of a Ghost SAGE Publications

How and why did St. Ignatius Loyola develop the Examen prayer? What is it supposed to accomplish for those who practice it? Why do people choose to forgo this discipline that has proved to be invaluable and essential to spiritual growth and the discernment of spirits over the centuries? What are the contemporary cultural crises confronting today's would-be Examen practitioners provoking distrust, fear, or dismissive attitudes towards it? How can an Examen faithful to Ignatius' original method be modernized to address the mindset of today's Christians? This book in its three parts takes a new approach to answer these questions. It provides a new analysis on how Ignatius' spiritual Examen disciplines were developed, the challenges inherent in practicing them, and a dynamic new reading of the Examen called Sacred Story. This book will give you the spiritual tools you need for a practical, daily prayer discipline that incorporates principles of spiritual discernment. Creativity and Innovation in Times of Crisis

 Amber Jones is back home...temporarily. In 6 months, she plans to drive away from the town that still holds painful memories and back to her big city life. But a newcomer with a voice like the darkest roast and an ever-present smile unexpectedly makes returning to the hustle and bustle of the city, and the boyfriend she shares it with, seem much less appealing. Benjamin Murphy moved to Millensville for his ex-wife, but even after their very public split, he remained in the town that embraced

him and his now teenaged daughter as one of their own. When a gorgeous woman from the city walks into his quaint coffee shop, not even her dour expression is enough to keep him from trying to catch one more glimpse of her smile. These two seem like total opposites, but when the old adage of opposites attracting seems to hold true, will Amber and Benjamin be able to bridge the gaps between them and find love, or will their common ground crumble beneath the weight of their differences? CUPS OF YOU is sweet, steamy, full of sass, and comes complete with its own HEA.

Cups of You Graphic Communications Group
 Design a complete workflow with Blender to create stunning 3D scenes and films step-by-step! About This Book Give life to a character within a full animated short film by learning the rigging and animation process Make use of the powerful tools available in Blender to produce professional-quality 3D characters and environments Discover advanced techniques by adding fur to a character, creating a grass field, and fine-tuning a shot with post-processing effects to

enhance your creations
 Who This Book Is For This book will give any beginner the necessary skills and knowledge to create own 3D projects with Blender. You don't need to have any previous experience in 3D modeling, but if you do, then this book is a great way get you started with Blender. This book is for anyone who wants to learn Blender by creating concrete projects. What You Will Learn Understand the basics of 3D and how to navigate your way around the Blender interface Create a 3D robot toy model from start to finish using the basic modeling tools of Blender Make a full alien character using the skin mesh modifier and the sculpting tools with an artistic approach Use re-topology techniques to create a clean 3D version of the previously sculpted alien Model a full haunted house and its environment using more advanced modeling tools and techniques such as the Array Modifier, Instance duplication, or Curves Discover the power of the texture paint tool in order to add color to the haunted house Get to know the Cycles render engine by creating different materials for the

house and the environment In Detail Blender is a powerful tool, stable, with an integral workflow that will allow you to understand your learning of 3D creation with serenity. Today, it is considered to be one of the most complete 3D packages on the market and it is free and open source! It is very efficient for many types of productions, such as 3D animated or live action films, architecture, research, or even game creation with its integrated game engine and its use of the Python language. Moreover, Blender has an active community that contributes to expanding its functionalities. Today, it is used in many professional products and by many companies. Through this book, you will create many types of concert projects using a step-by-step approach. You will start by getting to know the modeling tools available in Blender as you create a 3D robot toy. Then, you will discover more advanced techniques such as sculpting and re-topology by creating a funny alien character. After that, you will create a full haunted house scene. For the last project, you will create a

short film featuring a rat cowboy shooting cheese in a rat trap! This will be a more complex project in which you learn how to rig, animate, compose advanced material, composite, and edit a full sequence. Each project in this book will give you more practice and increase your knowledge of the Blender tools. By the end of this book, you will master a workflow that you will be able to apply to your own creations. Style and approach This is an easy-to-follow book that is based on four concrete projects, with increasing levels of difficulty. Each chapter will teach you how to create these projects step-by-step. New tools and techniques are introduced in a theoretical and practical way, so you can apply them in your own projects later.

Think Like a Freak (Republish) Graphic Communications Group This survey aims to help countries review and develop policies to make the teaching profession more attractive and more effective.

Passion Over Power Routledge Although most of the world's children live in the Global South, much of the

corpus of scientific knowledge which forms the basis of the current notion of "good childhood" worldwide is drawn from research on Western, middle-class children. Even cross-cultural research often applies the Western model of childhood as the standard to which others must correspond. This volume serves to bridge this gap by both bringing up significant features of the development and socialisation of children in African countries and presenting cross-cultural procedures which help to discuss and develop differentiated and joint ideas about childhood, instead of implementing one-sided standards which are disconnected from most children's lives. Children, Childhood, and the Future IAP

The Bible's final book, Revelation, can seem intimidating or downright impossible to comprehend, but this guided tour by Bible scholar Tim LaHaye and renowned puzzle master Timothy E. Parker makes it easily understandable. Filled with complex imagery, vivid depictions of violence, and challenging spiritual references, Revelation is often set aside by readers

in favor of more straightforward, easier-to-digest biblical material. Yet the capstone of the canon need not remain a mystery. Cleverly designed for maximum learning and retention, this book covers every verse of Revelation step by step and, for each grouping of verses, includes a short three-question pre-quiz; the passage of scripture being addressed; a precise explanation of what the scripture means; and, finally, the same three questions repeated with the answers provided. By following this method, you will be amazed at how well you retain the teachings. Absorb this book and discover afresh?or for the first time?the richness of Revelation and its God-breathed, life-changing power to deepen your walk of faith.

Educationeering describes the author's areas of professional and academic concern for the past 55 years. Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the education challenges of

society. Prof. Obanya is an international Education Strategist and his original ideas are widely discussed throughout Africa.

Educationeering GRIN Verlag

The multiple, related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe.

There is no other comparable work that is designed not only to gather vital, current, and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields. The Handbook is composed of substantive (5,000 to 15,000 words), peer-reviewed entries that examine and explicate seminal facets of learning theory, research, and practice. It provides a broad range of relevant topics, including significant developments as well as innovative uses of technology that promote learning,

performance, and instruction. This work is aimed at researchers, designers, developers, instructors, and other professional practitioners.

Sips of Her Springer New, updated and expanded topics in the fourth edition include: EBCDIC, Grey code, practical applications of flip-flops, linear and shaft encoders, memory elements and FPGAs. The section on fault-finding has been expanded. A new chapter is dedicated to the interface between digital components and analog voltages. *A highly accessible, comprehensive and fully up to date digital systems text *A well known and respected text now revamped for current courses *Part of the Newnes suite of texts for HND/1st year modules [African linguistics on the prairie](#) Editions

L'Harmattan

Julie Kim's life was supposed to be simple. Falling for the gorgeous barista with the enigmatic smile was not part of the plan. Cameran Davis loves love and her coffee shop, Love & Lattes, reflects that. But, she's starting to wonder if maybe happily ever after isn't in the cards. A surprise run-in culminates

in a ruse leading to acknowledging feelings and steamy nights. When things get real, will they fight for a chance at happiness or go their separate ways? *SIPS OF HER* is adorably sweet, wonderfully steamy, and comes complete with its own HEA.

Creating Effective Teaching and Learning Environments: First Results from TALIS Noura Books

This open access book identifies the multiple ways that IEA's studies of civic and citizenship education have contributed to national and international educational discourse, research, policymaking, and practice. The IEA International Civic and Citizenship Education Study (ICCS), first conducted in 2009, was followed by a second cycle in 2016. The project was linked to the earlier IEA Civic Education Study (CIVED 1999, 2000). IEA's ICCS remains the only large-scale international study dedicated to formal and informal civic and citizenship education in school. It continues to make substantial contributions to understanding the nature of the acquired civic knowledge, attitudes, and

participatory skills. It also discusses in-depth how a wide range of countries prepare their young people for citizenship in changing political, social, and economic circumstances. The next cycle of ICCS is planned for 2022. In this book, more than 20 national representatives and international scholars from Europe, Latin America, Asia, and North America assess how the processes and findings of the 2009 and 2016 cycles of ICCS and CIVED 1999/2000 have been used to improve nations' understanding of their students' civic knowledge, beliefs, attitudes, current civic-related behaviors, and intentions for future participation in a comparative context. There are also chapters summarizing the secondary analysis of those studies' results indicating their usefulness for educational improvement and reflecting on policy issues. The analyses and reflections in this book provide timely insight into international educational discourse, policy, practice, and research in an area of education that is becoming increasingly important for many societies.

This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

[The Book of Revelation Made Clear](#) Cambridge

Scholars Publishing

Nobody denies that trust in schools is key to success in generating any educational outcomes. However, trust is often eroded, resulting in conflicts, alienation, and differentiation among school-level stakeholders. This book analyses school-based management (SBM) of education through the lens of relational trust in the context of Ghana, revealing how community participation in school management leads to educational outcomes. Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana, Shibuya offers critical insights into

building sustainable relationships between individual households and geographical/school communities. He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management. The research finds that trust in schools is a two-way mechanism, and the mutuality of expectations and obligations among stakeholders is essential if children's learning outcomes are to improve. With its mixed-methods approach, this book will be a valuable resource for scholars in comparative education, those in educational development, and those interested in African contexts.

Indigenist African Development and Related Issues Thomas Nelson

User modeling researchers look for ways of enabling interactive software systems to adapt to their users-by constructing, maintaining, and exploiting user models, which are representations of properties of individual users. User modeling has been found to enhance the effectiveness and/or usability of software systems in a wide variety

of situations. Techniques for user modeling have been developed and evaluated by researchers in a number of fields, including artificial intelligence, education, psychology, linguistics, human-computer interaction, and information science. The biennial series of International Conferences on User Modeling provides a forum in which academic and industrial researchers from all of these fields can exchange their complementary insights on user modeling issues. The published proceedings of these conferences represent a major source of information about developments in this area.

Influences of the IEA Civic and Citizenship Education Studies Graphic Communications Group Exam Revision from the year 2015 in the subject Mathematics For Pre-University Students, , language: English, abstract: Preparing for exams in Mathematics has been a thorny issue especially for students at the lower levels. This is a question and answer book for students preparing for Basic School Certificate Examinations in West Africa. Every exercise is

explained in order to guide the reader.

The Impacts of Language and Literacy Policy on Teaching Practices in Ghana

Frontiers Media SA Neurocritical Care Board Review: Questions and Answers provides clinicians with a thorough review of the complex subspecialty of Neurocritical Care, using a question-and-answer (Q&A) format. The Q&A format is easily readable, high yield, and serves as good practice for test takers or anyone looking to improve or reinforce essential knowledge. The book covers the key topics pertinent to (and found on) neurocritical care boards, and is organized according to the exam core curriculum outline.. A total of 649 questions address both neuroscience critical care (general neurology, neurotrauma, neurovascular and neurosurgical problems) and general critical care topics (systems trauma, cardiovascular, infectious disease, pulmonary and renal issues, and hemodynamic monitoring). Detailed explanations follow in the answer section of each chapter, along with references for further

study. Where relevant, neuroimaging, EEG and monitoring waveforms, and other images are included in case questions to allow candidates to familiarize themselves with these tools that form a significant part of the exam. Features of Neurocritical Care Board Review include: Comprehensive, high-yield review that covers all areas tested on the

neurocritical care certifying exam
 Applicability to a wide range of physicians in multiple specialties reviewing for boards or looking to test skills and clinical acumen in this challenging area
 Question and answer format with detailed explanations and references to facilitate recall of must-know information and help

identify knowledge gaps for further attention
 Material aggregated from multiple specialties into a singular resource for exam study
Junior Graphic HEBN Publishers
 This encyclopedia is the first major reference guide for students new to the field, covering traditional areas while pointing the way to future developments.
