In this remarkable memoir, Anna Goldsworthy recalls her first steps towards a life in music, from childhood piano lessons with a local jazz muso to international success as a concert pianist. As she discovers passion and ambition, and confronts doubt and disappointment, she learns about much more than tone and technique. This is a story of the getting of wisdom, tender and bittersweet. With wit and affection, Goldsworthy captures the hopes and uncertainties of youth, the fear and exhilaration of performing, and the complex bonds between teacher and student. An unforgettable cast of characters joins her: her family; her friends and rivals; and her teacher, Mrs Sivan, who inspires and challenges her in equal measure, and who transforms what seems an impossible dream into something real and sustaining.

The Best Praise & Worship Songs Ever (Songbook) Mel Bay Publications

For Beginners. No Reading Sheet Music Required! "Playing the Piano for the rest of us" is a course created for people who want to play the piano without having to commit to years of study and practice before being able to play songs they really want to. Finally a piano course for people who want to play with other musicians without having to learn to read sheet music, to enjoy themselves or be included in groups, like church groups or bands, or just friends and family. Most of the piano instruction I have seen falls into two categories... it's too hard, so you quit, or, it doesn't teach

enough foundational skills and knowledge so the only thing learned is how to play songs that the course taught. I like the saying, "Give a man a fish, feed him for a day. Teach him to fish, feed him for a lifetime." This course hopes to be part of the latter, for people who want to play and enjoy the piano or keyboard. Many existing courses teach too much at once like classical piano finger-skills, music theory and how to read sheet music. Students often get lost and discouraged somewhere between reading sheet music and having too hard of a time getting their hands to work together, others teach a set of playing skills that allow the student to play a limited amount of songs or music, but no freedom to find and play what the student really wanted to in the first place. Classical training is fantastic, but can often times be overkill for people who want to accompany others or want to play and / or sing using chord music. Ultimately the student gets rolled over from too much and too hard of a learning curve, like a wave that came crashing down on their hopes and dreams. Some training methods don't provide enough foundation to enable the student to continue growing themselves, at their own pace, as they desire after they've completed the course. This course hopes to open the door for people to play the piano and then release them to grow-on! Learning to read chord music is the difference between a person having to "learn, read and interpret an extremely complicated map with a key of over 20 symbols," compared to having to read a simple map of "start point, landmark, end point."
