Humour and Laughter in History transcript
 Verlag

Expelled from Russia after exposing corruption in Russian companies, an investment broker describes how his attorney was detained, tortured and beaten to death for testifying against Russian law enforcement officers who stole millions in taxes paid to the government. Illustrations. Tour.
The Many Faces of Corruption Cambridge University Press
 Russian edition of Red Notice by Bill Browder A real-life political thriller about an American financier in the Wild East of Russia, the murder of his principled young

tax attorney, and his dangerous mission to expose the Kremlin's corruption.

Red Notice World Bank Publications
 Nach über 20 Jahren als Korrespondent in Moskau, mit dem Einblick, den nur viele Gespräche vor Ort ermöglichen, grosser Sachkenntnis und in Auseinandersetzung mit vielen geschriebenen Texten zeichnet der Autor ein Bild von Putin, das nicht sehr positiv ausfällt. Sehr gut begründete Darstellung.

The Red Goldmann Verlag

At once a financial caper, an international adventure, and a passionate plea for justice, *Freezing Order* is a stirring morality tale about how one man can take on one of the most dangerous and ruthless villains in the world.

RED NOTICE (Russian Edition) Atlas Contact, Uitgeverij
 Explores European civilisation as a

concept of twentieth-century political practice and the project of a transnational network of European elites. This title is available as Open Access.

Hitler's Fatal Miscalculation Baldini & Castoldi

Conchita Wursts Sieg beim Eurovision Song Contest 2014 war ein zentrales diskursives Moment, welches das derzeitige Spannungsfeld zwischen Postgenderismus und Traditionalismus in Russland offenlegte und aufzeigte, wie sehr Geschlecht und Sexualität, nicht zuletzt für das russische Selbstbild und die Konstruktion einer russischen nationalen Identität, instrumentalisiert und politisiert werden und wie sehr Identitätskonzepte den russischen Alltag mitbestimmen. Die Monografie widmet sich der Diskussion um Geschlecht und Sexualität in Russland nach dem Sieg von Conchita Wurst und

untersucht das Verhältnis von Diskurs und Identität. Im Vordergrund steht die Funktion von Sprache sowohl für die Identitätskonstruktion als auch für die Schaffung und Abgrenzung von Räumen. Dabei lassen sich nicht nur lexikologische und wortbildnerische Besonderheiten beobachten, sondern es liegt insgesamt ein auffälliger Sprachgebrauch mit interessanten Argumentationsstrategien vor. Ausführungen zu Identität und kritische Anmerkungen zur russischen Gender- und Queer-Linguistik komplettieren diesen Band. Conchita Wurst's 2014 victory in the Eurovision Song Contest was a significant discursive moment which revealed the current tensions between postgenderism and traditionalism in contemporary Russia. This case also made clear just how far gender and sexuality are instrumentalised and politicised – not least in creating Russians' self-perception and constructing a Russian national identity – and how massively notions of identity impact on Russian everyday life. The monograph focuses on the discussion of gender and sexuality in Russia following the 2014 event and investigates the relation between discourse and identity. Above all, it is concerned with the function of language in identity construction, and in the creation and demarcation of spaces. In this context, Dr. Scheller-Boltz's study not only analyses lexicological and word-formation peculiarities, but also provides some revealing research findings about specific language use, including certain argumentation strategies. The monograph begins with a detailed introduction to notions of identity and concludes with some critical remarks on Russian gender and queer linguistics.

The Plot to Scapegoat Russia Yale University Press

Humour can be used as a »weapon« or as a means of coping with problematic historical events, especially in times of war and crisis. The book presents examples from different cultures (Russia, Europe, USA), from different historical epochs (from the Napoleonic era up to the current time) and from different medias (caricature, journalism, film). By looking at the individual cases it becomes possible to recognize some general structural patterns and to gain a deeper insight into the »functioning« of humour and laughter.

Black Earth Simon and Schuster

A brilliant, haunting, and profoundly original portrait of the defining tragedy of our time. In this epic history of extermination and survival, Timothy Snyder presents a new explanation of the great atrocity of the twentieth century,

and reveals the risks that we face in the twenty-first. Based on new sources from eastern Europe and forgotten testimonies from Jewish survivors, *Black Earth* recounts the mass murder of the Jews as an event that is still close to us, more comprehensible than we would like to think, and thus all the more terrifying. The Holocaust began in a dark but accessible place, in Hitler's mind, with the thought that the elimination of Jews would restore balance to the planet and allow Germans to win the resources they desperately needed. Such a worldview could be realized only if Germany destroyed other states, so Hitler's aim was a colonial war in Europe itself. In the zones of statelessness, almost all Jews died. A few people, the righteous few, aided them, without support from institutions. Much of the new research in this book is devoted to understanding these extraordinary individuals. The almost insurmountable difficulties they faced only confirm the dangers of state destruction and ecological panic. These men and women should be emulated, but in similar circumstances few of us would do so. By overlooking the lessons of the Holocaust, Snyder concludes, we have misunderstood modernity and endangered the future. The early twenty-first century is coming to resemble the early twentieth, as growing preoccupations with food and water accompany ideological challenges to global order. Our world is closer to Hitler's than we like to admit, and saving it requires us to see the Holocaust as it was – and ourselves as we are. Groundbreaking, authoritative, and utterly absorbing, *Black Earth* reveals a Holocaust that is not only history but warning.

Order to Kill Penguin

Von heruntergekommenen Städten an der sibirischen Grenze über Steueroasen in der Karibik bis zu den Verbrechervillen in London und Manhattan – irgendwas läuft falsch in dieser Welt. Dieses Buch zeigt Ihnen, was. Vor nicht allzu langer Zeit konnte ein Amtsträger, der sich aus der öffentlichen Kasse bediente, nicht ganz so viel mit seinem Geld anfangen. Er konnte sich ein neues Auto kaufen oder sich ein schönes Haus bauen, es vielleicht noch an Freunde und Familie verschenken, aber das war es im Großen und Ganzen dann auch. Wenn er weiter stehlen würde, würden sich die Geldscheine nur in seinem neuen Haus stapeln, bis alle Zimmer voll wären oder es die Mäuse auffressen würden. Dann hatten ein paar Banker in London eine geniale Idee ... Begleiten Sie den investigativen Journalisten Oliver Bullough auf eine Reise ins »Land des Geldes« – einen grenzenlosen Staat der

Superreichen. Erfahren Sie, wie die Institutionen Europas und der USA zu Geldwäschereinstituten wurden, die die Fundamente westlicher Stabilität untergraben. Entdecken Sie die wahren Kosten einer Geschäftspolitik, die weder Korruption noch Gefahr scheut. Treffen Sie die Kleptokraten und ihre schrecklichen Kinder. Und finden Sie heraus, wie heroische Aktivisten sich auf der ganzen Welt zur Wehr setzen. Dies ist die Geschichte von Geld und Macht im 21. Jahrhundert. Es ist noch nicht zu spät, sie umzuschreiben.

Blood and Oil Sort of Books

Corruption... How can policymakers and practitioners better comprehend the many forms and shapes that this socialpandemic takes? From the delivery of essential drugs, the reduction in teacher absenteeism, the containment of illegal logging, the construction of roads, the provision of water and electricity, the international trade in oil and gas, the conduct of public budgeting and procurement, and the management of public revenues, corruption shows its many faces. 'The Many Faces of Corruption' attempts to bring greater clarity to the often murky manifestations of this virulent and debilitating social disease. It explores the use of prototype road maps to identify corruption vulnerabilities, suggests corresponding 'warning signals,' and proposes operationally useful remedial measures in each of several selected sectors and for a selected sample of cross cutting public sector functions that are particularly prone to corruption and that are critical to sector performance. Numerous technical experts have come together in this effort to develop an operationally useful approach to diagnosing and tackling corruption. 'The Many Faces of Corruption' is an invaluable reference for policymakers, practitioners, and researchers engaged in the business of development.

Land des Geldes Crown

In *Adulterous Nations*, Tatiana Kuzmic enlarges our perspective on the nineteenth-century novel of adultery, showing how it often served as a metaphor for relationships between the imperialistic and the colonized. In the context of the long-standing practice of gendering nations as female, the novels under discussion here—George Eliot's *Middlemarch*, Theodor Fontane's *Effi Briest*, and Leo Tolstoy's *Anna Karenina*, along with August Šenoa's *The Goldsmith's Gold* and Henryk Sienkiewicz's *Quo Vadis*—can be understood as depicting international crises on the scale of the nuclear family. In each example, an

outsider figure is responsible for the disruption experienced by the family. Kuzmic deftly argues that the hopes, anxieties, and interests of European nations during this period can be discerned in the destabilizing force of adultery. Reading the work of Šenoa and Sienkiewicz, from Croatia and Poland, respectively, Kuzmic illuminates the relationship between the literature of dominant nations and that of the semicolonized territories that posed a threat to them. Ultimately, Kuzmic's study enhances our understanding of not only these five novels but nineteenth-century European literature more generally.

The Discourse on Gender Identity in Contemporary Russia Penguin

In December 2013, David Satter became the first American journalist to be expelled from Russia since the Cold War. The *Moscow Times* said it was not surprising he was expelled, "it was surprising it took so long." Satter is known in Russia for having written that the apartment bombings in 1999, which were blamed on Chechens and brought Putin to power, were actually carried out by the Russian FSB security police. In this book, Satter tells the story of the apartment bombings and how Boris Yeltsin presided over the criminalization of Russia, why Vladimir Putin was chosen as his successor, and how Putin has suppressed all opposition while retaining the appearance of a pluralist state. As the threat represented by Russia becomes increasingly clear, Satter's description of where Russia is and how it got there will be of vital interest to anyone concerned about the dangers facing the world today.

Red Notice Hachette UK

NATIONAL BEST SELLER A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come. The veteran of four spaceflights and the American record holder for consecutive days spent in space, Scott Kelly has experienced things very few have. Now, he takes us inside a sphere utterly hostile to human life. He describes navigating the extreme challenge of long-term spaceflight, both life-threatening and mundane: the devastating effects on the body; the isolation from everyone he loves and the comforts of Earth; the catastrophic risks of colliding with space junk; and the still more haunting threat of being unable to help should tragedy strike at home—an agonizing situation Kelly faced when, on a previous mission, his twin brother's wife, American

Congresswoman Gabrielle Giffords, was shot while he still had two months in space. Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight. In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy.

Endurance Simon and Schuster

Created in 1945, yet published in this country for the very first time, *The Moomins and the Great Flood* offers an extraordinary glimpse into the creativity and imagination that launched the Moomin books. Moominmamma and young Moomintroll search for the long lost Moominpappa through forest and flood, meeting a little creature (an early Sniff) and the elegantly strange Tulippa along the way. Tove Jansson illustrates her first ever Moomin adventure with stunning sepia watercolour and delightful pen and ink drawings. A revelation for Moomin fans.

What It Takes Cambridge University Press

"THE BOOK CHINA DOESN'T WANT YOU TO READ."--CNN A riveting insider's story of how the Party and big money work in China today, by a man who, with his wife, Whitney Duan, rose to the zenith of power and wealth--and then fell out of favor. She was disappeared four years ago. News of this book led to a phone call from Whitney, proof that she's alive. As Desmond Shum was growing up impoverished in China, he vowed his life would be different. Through hard work and sheer tenacity he earned an American college degree and returned to his native country to establish himself in business. There, he met his future wife, the highly intelligent and equally ambitious Whitney Duan who was determined to make her mark within China's male-dominated society. Whitney and Desmond formed an effective team and, aided by relationships they formed with top members of China's Communist Party, the so-called red aristocracy, he vaulted into China's billionaire class. Soon they were developing the massive air cargo facility at Beijing International Airport, and they followed that feat with the creation of one of Beijing's premier hotels. They were dazzlingly successful, traveling in private jets, funding multi-million-dollar buildings and endowments, and purchasing expensive homes, vehicles, and art. But in 2017, their fates diverged irrevocably when Desmond,

while residing overseas with his son, learned that his now ex-wife Whitney had vanished along with three coworkers. This is both Desmond's story and Whitney's, because she has not been able to tell it herself.

Putinomics Scholastic Inc.

An in-depth look at the decades-long effort to escalate hostilities with Russia and what it portends for the future. Since 1945, the US has justified numerous wars, interventions, and military build-ups based on the pretext of the Russian Red Menace, even after the Soviet Union collapsed at the end of 1991 and Russia stopped being Red. In fact, the two biggest post-war American conflicts, the Korean and Vietnam wars, were not, as has been frequently claimed, about stopping Soviet aggression or even influence, but about maintaining old colonial relationships. Similarly, many lesser interventions and conflicts, such as those in Latin America, were also based upon an alleged Soviet threat, which was greatly overblown or nonexistent. And now the specter of a Russian Menace has been raised again in the wake of Donald Trump's election. *The Plot to Scapegoat Russia* examines the recent proliferation of stories, usually sourced from American state actors, blaming and manipulating the threat of Russia, and the long history of which this episode is but the latest chapter. It will show readers two key things: (1) the ways in which the United States has needlessly provoked Russia, especially after the collapse of the USSR, thereby squandering hopes for peace and cooperation; and (2) how Americans have lost out from this missed opportunity, and from decades of conflicts based upon false premises. These revelations, amongst other, make *The Plot to Scapegoat Russia* one of the timeliest reads of 2017.

Adulterous Nations Simon and Schuster

Ноябрь 2009 года. В одиночной, промозглой камере московского изолятора, было обнаружено истерзанное побоями восьми охранников, бездыханное тело, тяжело больного юриста - Сергея Магнитского. В чем было его преступление? - Разоблачение коррумпированных должностных лиц МВД, причастных к хищению из российского бюджета 230 миллионов долларов налогов, уплаченных ранее одним из самых успешных в мире инвестиционных фондов. И по сей день виновные в этом жестоком убийстве остаются безнаказанными. Последующий постыдный посмертный судебный процесс над юристом воспринят международным сообществом как акт

средневекового мракобесия путинского режима. Красный циркуляр – книга разоблачение масштабного сокрытия правды и следов совершенных преступлений российской властью в отношении Сергея Магнитского – его незаконный арест и убийство – проникает глубоко в Кремль, вскрывая неприглядную правду о режиме. Билл Браудер – инвестиционный управляющий и клиент Магнитского – погружает нас в головокружительный мир финансов Нью-Йорка и Лондона 90-х годов, его схватку с российскими олигархами в постсоветской Москве и последующее выдворение из России по указанию Путина (Кремля). Автору удается на фактах показать сращивание российской власти с криминалом, где грани настолько размыты, что уже невозможно отличить одного от другого. Под влиянием произошедшего мы наблюдаем трансформацию человека (автора) из финансиста в правозащитника, ведущего кампанию за установление справедливости в отношении своего покойного адвоката и друга. Красный циркуляр – нещадно оголяет то, от чего страдает сегодняшняя Россия – взяточничество, коррупция, мошенничество, пытки и убийство каждого, кто оказался на пути развратной власти. Книга шокирует нас откровениями о политических механизмах работы в высших эшелонах власти на Западе.
American Kingpin A&C Black

Hitler's decision to declare war on the United States has baffled generations of historians. In this revisionist new history of those fateful months, Klaus H. Schmider seeks to uncover the chain of events which would incite the German leader to declare war on the United States in December 1941. He provides new insights not just on the problems afflicting German strategy, foreign policy and war production but, crucially, how they were perceived at the time at the top levels of the Third Reich. Schmider sees the declaration of war on the United States not as an admission of defeat or a gesture of solidarity with Japan, but as an opportunistic gamble by the German leader. This move may have appeared an excellent bet at the time, but would ultimately doom the Third Reich.
The Simpsons and Their Mathematical Secrets Possessed Ppr
This instant #1 New York Times bestseller and “modern techno-thriller” (New York Journal of Books) follows Mitch Rapp in a race to prevent Russia’s gravely ill leader from starting a full-scale war with NATO. When Russian president Maxim Krupin discovers that he has inoperable brain cancer, he’s determined to cling to power. His first task is to kill or imprison any of his countrymen who can threaten him. Soon, though, his illness becomes serious enough to require a more dramatic diversion—war with the West. Upon learning of Krupin’s condition, CIA director Irene Kennedy understands that the US is

facing an opponent who has nothing to lose. The only way to avoid a confrontation that could leave millions dead is to send Mitch Rapp to Russia under impossibly dangerous orders. With the Kremlin’s entire security apparatus hunting him, he must find and kill a man many have deemed the most powerful in the world. Success means averting a war that could consume all of Europe. But if his mission is discovered, Rapp will plunge Russia and America into a conflict that neither will survive in “a timely, explosive novel that shows yet again why Mitch Rapp is the best hero the thriller genre has to offer” (The Real Book Spy).
A Higher Loyalty Avid Reader Press / Simon & Schuster
You may have watched hundreds of episodes of The Simpsons (and its sister show Futurama) without ever realising that they contain enough maths to form an entire university course. In *The Simpsons and Their Mathematical Secrets*, Simon Singh explains how the brilliant writers, some of the mathematicians, have smuggled in mathematical jokes throughout the cartoon's twenty-five year history, exploring everything from to Mersenne primes, from Euler's equation to the unsolved riddle of P vs. NP, from perfect numbers to narcissistic numbers, and much more. With wit, clarity and a true fan's zeal, Singh analyses such memorable episodes as 'Bart the Genius' and 'Homer3' to offer an entirely new insight into the most successful show in television history.
