 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has

been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don’t know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-

talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for *Ask a Manager*
 “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that

communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review)
 “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I

am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author

of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* Greece John Wiley & Sons This publication contains the following four parts: A model Competent Authority Agreement (CAA) for the automatic exchange of CRS information; the Common Reporting Standard; the Commentaries on the CAA and the CRS; and the CRS XML Schema User Guide.

 It's an unquestioned truth

of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they

allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer.

Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for

work, family, and other things that really matter. [Accountability Report for Fiscal Year](#) Houghton Mifflin College Division Private Equity Accounting, Investor Reporting and Beyond takes the discussion around private equity accounting to the next level beyond the basic private equity accounting principles identifying areas of importance where things can go wrong and delving into the intimate details of the different sub-asset classes such as real estate funds,

infrastructure funds, debt funds, mezzanine funds, fund-of-funds (FoF) and other Limited Partners (large institutional investors, pension funds, university endowments, etc). The book also adds a new perspective - the perspective of the Limited Partners (LPs) investing in private equity allowing the LPs to have a peek at the private equity kitchen and its processes where all the General Partner (GP) accounts, investor reports and capital statements are forged and provides them with

essential tips on what to check in GP reports and what the pitfalls of LP accounting for PE investments are. Starting with the main changes in the private equity landscape, the impact of private equity structures on the accounting and reporting, the importance of allocations and allocation rules, the reasons of their existence and the impact on investor reports of getting them wrong, highlighting some neglected processes (e.g. rebalancing, partner transfers) and common

mistakes to some essential guidance and best practice of carried interest modelling, The Advanced Guide reveals intimate secrets of these processes previously available only by learning from peers. The Advanced Guide also elaborates on various reporting frameworks (ILPA Quarterly Reporting Best Practice, IPEV Investor Reporting Guidelines) and additional layers of reporting (ESG Reporting) and their specifics. The chapter on private equity valuations provides some

invaluable guidance on valuations for different types of instruments such as non-controlling interest, fund interests (for LPs), private loans, not-traded debt and other debt instruments and provides an update on some current discussions such as the unit of account and the use of mathematical models (e.g. Option Pricing Models, Probability-expected Weighted Return Models) in private equity. Performance measurement is also taken to a whole new

level discussing not only traditional performance metrics such as IRR and multiples and revealing some major flaws in the IRR as a traditional metric used by private equity, but also suggesting some new advanced performance metrics used by the most sophisticated GPs and LPs. Drawing on

extensive experience as a practitioner and instructor, Mariya Stefanova reviews all the details and processes that private equity firms and fund accountants should follow, identifying both current best practices and costly pitfalls to avoid. Replete with up-to-date, user-friendly examples

from all main jurisdictions, this guide explains the precise workings and lifecycles of private equity funds; reviews commercial terms; compares structures and their current tax treatments; shows how to read Limited Partnership Agreements; and much more.
