But I Just Grew Out My Bangs! Farrar,
Straus and Giroux

In this frank and witty memoir, Katya Lezin chronicles the way her world was turned upside down by an ovarian cancer diagnosis and the year of treatment that followed. Interweaving the e-mail updates she regularly sent out during her journey, newspaper columns she wrote for The Charlotte Observer, and her own candid reflections on her experience, Lezin highlights the many physical hardships and indignities she

suffered as a result of her surgeries, treatment and recovery, and the emotional toll this battle took on her and her loved ones. But Lezin's Ovarian Odyssey is ultimately an uplifting account of the many triumphs she experienced along the way, and serves as a tribute to the power of love, friendship, humor and the indefatigable human spirit.

The Olympic swimmer reveals the wild and challenging journey that took place between two gold medals: "Inspiring, humorous, and often profound."—People Magazine
Anthony Ervin is an Olympic swimmer who won the gold at

nineteen—and that may be one of the least interesting things about him. An athlete of Jewish and African-American descent who is also a practicing Buddhist, he auctioned off the medal he won in Sydney to help raise funds for victims of the 2004 tsunami. He had grown up battling Tourette’s syndrome, and later struggled with suicidal depression, drinking and drugs, and a period of homelessness. This blend of memoir and biography, written by Ervin in collaboration with trainer Constantine Markides, is part spiritual quest, part self-destructive bender involving Zen temples, fast motorcycles, tattoo parlors, and rock 'n' roll bands—revealing the journey that preceded his remarkable 2016 Olympic comeback as the oldest individual gold medal winner in

swimming. Winner of the 2018 Buck Dawson Author Award presented by the International Swimming Hall of Fame “Gripping...Readers will understand the psyche and life of elite athletes as never before.”—Library Journal “A celebrated Olympian recounts how he rose to the top of his sport, crashed, and found redemption...The author never flinches at revealing his less-than-perfect past, and the humility he demonstrates at coming to terms with his own egotism and personal shortcomings makes the book frequently compelling. A provocative and refreshingly honest redemption memoir.”—Kirkus Reviews *Chindi Farrar*, Straus and Giroux One of Esquire's best books of spring 2022 An extended meditation on late style and last works from "one of our

greatest living critics" (Kathryn Schulz, New York). When artists and athletes age, what happens to their work? Does it ripen or rot? Achieve a new serenity or succumb to an escalating torment? As our bodies decay, how do we keep on? In this beguiling meditation, Geoff Dyer sets his own encounter with late middle age against the last days and last works of writers, painters, footballers, musicians, and tennis stars who've mattered to him throughout his life. With a playful charm and penetrating intelligence, he recounts Friedrich Nietzsche's breakdown in Turin, Bob Dylan's reinventions of old songs, J. M. W. Turner's paintings of abstracted light, John Coltrane's cosmic melodies, Bjorn Borg's defeats, and Beethoven's final quartets—and considers the

intensifications and modifications of experience that come when an ending is within sight. Throughout, he stresses the accomplishments of uncouth geniuses who defied convention, and went on doing so even when their beautiful youths were over. Ranging from Burning Man and the Doors to the nineteenth-century Alps and back, Dyer's book on last things is also a book about how to go on living with art and beauty—and on the entrancing effect and sudden illumination that an Art Pepper solo or Annie Dillard reflection can engender in even the most jaded and ironic sensibilities. Praised by Steve Martin for his "hilarious tics" and by Tom Bissell as "perhaps the most bafflingly great prose writer at work in the English language today," Dyer has now blended criticism,

memoir, and humorous banter of the most serious kind into something entirely new. *The Last Days of Roger Federer* is a summation of Dyer's passions, and the perfect introduction to his sly and joyous work.

Tender Is the Flesh Simon and Schuster
The author of the acclaimed bestseller *Bobos in Paradise*, which hilariously described the upscale American culture, takes a witty look at how being American shapes us, and how America's suburban civilization will shape the world's future. Take a look at Americans in their natural habitat. You see suburban guys at Home Depot doing that special manly, waddling walk that American men do in the presence of large amounts of lumber; super-efficient ubermoms who chair school auctions, organize the PTA,

and weigh less than their children; workaholic corporate types boarding airplanes while talking on their cell phones in a sort of panic because they know that when the door closes they have to turn their precious phone off and it will be like somebody stepped on their trachea. Looking at all this, you might come to the conclusion that we Americans are not the most profound people on earth. Indeed, there are millions around the world who regard us as the great bimbos of the globe: hardworking and fun, but also materialistic and spiritually shallow. They've got a point. As you drive through the sprawling suburbs or eat in the suburban chain restaurants (which if they merged would be called Chili's Olive Garden Hard Rock Outback Cantina),

questions do occur. Are we really as shallow as we look? Is there anything that unites us across the divides of politics, race, class, and geography? What does it mean to be American? Well, mentality matters, and sometimes mentality is all that matters. As diverse as we are, as complacent as we sometimes seem, Americans are united by a common mentality, which we have inherited from our ancestors and pass on, sometimes unreflectingly, to our kids. We are united by future-mindedness. We see the present from the vantage point of the future. We are tantalized, at every second of every day, by the awareness of grand possibilities ahead of us, by the bounty we can realize just over the next ridge. This mentality leads us to work feverishly

hard, move more than any other people on earth, switch jobs, switch religions. It makes us anxious and optimistic, manic and discombobulating. Even in the superficiality of modern suburban life, there is some deeper impulse still throbbing in the heart of average Americans. That impulse is the subject of this book.

Driven Rowman & Littlefield

From a popular senior writer for Sports Illustrated comes this high-stakes, boys-on-the-road story about the most unlikely of phenoms--a heavyset, bipolar, and endlessly charming pool hustler named Kid Delicious. In most sports the pinnacle is Wheaties-box notoriety. But in the world of pool, notoriety is the last thing a hustler desires. Such is the dilemma that faces one Danny Basavich,

an affable, generously proportioned Jewish kid from Jersey, who flounders through high school until he discovers the one thing he excels at--the felt--and hits the road. Running the Table spins the outrageous tale of Kid Delicious and his studly--if less talented--set-up man, Bristol Bob. Never was there a more entertaining or mismatched pair of sidekicks, as together they go underground into the flavorfully seamy world of pool to learn the art of the hustle and experience the highs and lows of life on the road. Their four-year odyssey takes them from Podunk pool halls to slick urban billiard rooms across America, as they manage one night to take down as much as \$30,000, only to lose so much the next night that they lack gas money to get home. With every

stop, the action gets hotter, the calls get closer, and Delicious's prowess with a cue stick becomes known more and more widely. Ultimately, Delicious sheds his cover once and for all and becomes professional pool's biggest sensation since Minnesota Fats. In a book sure to appeal to fans of *Bringing Down the House* and *Positively Fifth Street*, Wertheim evokes a subculture full of nefarious but loveable characters and illuminates America's fascination with games and gambling. He also paints a lasting portrait of an insanely talented and magnetic hustler, who is literally larger than life.

 "An upbeat chronicle of [Clavel's] children's school experiences in Hong Kong, Shanghai, and Tokyo...[offering]

advice about vetting schools and enriching children's education." —Kirkus Reviews "An intriguing volume on the differences in global education." —Library Journal A must-read firsthand exploration of why Asian students are outpacing their American counterparts and how to help our children excel in today's competitive world. When Teru Clavel had young children, she watched her friends and fellow parents vie for spots in elite New York City schools. Instead of losing herself in the intensive applications and interview process, Teru and her family moved to Asia, embarking on a decade-long journey through the public schools of Hong Kong, Shanghai, and Tokyo. These schools were low-tech and bare-bones, with teachers who demanded obedience and order. In Hong

Kong, her children's school was nicknamed The Prison for its foreboding facilities, yet her three-year-old loved his teachers and his nightly homework. In Tokyo, the students were responsible for school chores, like preparing and serving school lunches. Yet Teru was amazed to discover that her children thrived in these academically competitive cultures; they learned to be independent, self-confident, resilient, and, above all, they developed a deep love of learning. When the family returned to the States, the true culture shock came when the top schools could no longer keep up with her children. Written with warmth and humor, *World Class* is a compelling story about how to inspire children to thrive academically. "Studded with lists of useful tips about choosing schools and

hiring tutors, for parents who must advocate for their children and supplement gaps in their educations” (Publishers Weekly) and an insightful guide to set your children on a path towards lifelong success.

An informal history of professional tennis over the past thirty years, in the form of personal anecdotes from a tennis reporter

St. Martin's Press

Roberto Duran, Marvelous Marvin Hagler, Sugar Ray Leonard, and Thomas "Hit Man" Hearns all formed the pantheon of boxing greats during the late 1970s and early 1980s—before the pay-per-view model, when prize fights were telecast on network television and still captured the nation's attention.

Championship bouts during this era were replete with revenge and fury, often pitting one of these storied fighters against another. From training camps to locker rooms, author George Kimball was there to cover every body shot, uppercut, and TKO. Inside stories full of drama, sacrifice, fear, and pain make up this treasury of boxing tales brought to life by one of the sport's greatest writers.

The best writing on tennis from the best tennis writers in the business. Racquet was founded in 2016 to be the voice of a new tennis boom. When the popularity of tennis peaked in the late '70s and early '80s, the sport was populated by buccaneering talents with outsize personas, such as Borg, Evert, McEnroe,

Navratilova, Gerulaitis, Austin, King, and Connors. The game was played in every park, and tennis clothes became appropriate attire for cocktails as well as for a match. With success, however, came polish, and tennis--if not the game itself, then how it came to be represented in the culture--got boring. Having a big personality was no longer a virtue. Tennis went back to being a bastion of the elite. Racquet is a place for those who knew all along that the spirit of the tennis boom was alive. Tennis has always been present in the arts, in the popular culture, in the skateboarding, hip-hop, and fashion worlds. That side of tennis was--and is--obscured by the tightly controlled messaging of the athletes, the corporate glean of the major tournaments, and the

all-white attire of the country-club scene. Racquet was launched to represent the latent, diverse, and large constituency of tennis that has not been embraced by the sport writ large. Featuring the work of some of today's finest writers, the quarterly independent magazine highlights the art, culture, and style that are adjacent to the sport--and just enough of the pro game to keep the diehards satisfied. This collection features some of the best writing from the first four years of Racquet and tackles such immediate topics as: How should tennis smell? What's the deal with Andre Agassi's private jet? What can a professional tennis player learn from Philip Roth? Why is tennis important in Lolita? How was Arthur Ashe like Muhammad Ali? And, crucially,

what lessons have we learned from the implosion of that first tennis boom?

This account of a tennis match played by Arthur Ashe against Clark Graebner at Forest Hills in 1968 begins with the ball rising into the air for the initial serve and ends with the final point. McPhee provides a brilliant, stroke-by-stroke description while examining the backgrounds and attitudes which have molded the players' games.

A masterful debut from a powerfully original poetic voice A poignant and terse vision of New York City unfolds in Rowan Ricardo Phillips's debut book of poetry. A work of rare beauty and lyric grace, *The Ground* is an entire world, drawn and revealed through contemplation of the post-9/11 landscape. With musicality and precision of thought, Phillips's poems limn the troubadour's journey in an increasingly surreal modern world ("I plugged my poem into a manhole cover/That flamed into the first guitar"). The origin of mankind, the origin of the self, the self's development in the sensuous world, and--in both a literal and figurative sense--the end of all things sing through Phillips's supple and idiosyncratic

poems. The poet's subtle formal sophistication—somewhere between flair and restraint—and sense of lyric possibility bring together the hard glint of the contemporary world and the eroded permanence of the archaic one through remixes, underground sessions, Spenserian stanzas, myths and revamped translations. These are poems of fiery intelligence, inescapable music and metaphysical splendor that concern themselves with lived life and the life of the imagination—both equally vivid and true—as they lay the framework for Phillips's meditations on our connection to and estrangement from the natural world.

Chick Flicks William Heinemann Limited Working at the local processing plant, Marcos is in the business of slaughtering

humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat—“special meat”—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a live specimen of the finest quality. Though he’s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

"Writing this funny requires immense talent." —AV Club H. Jon Benjamin—the lead voice behind Archer and Bob's Burgers—helps us all feel a little better about our own failures by sharing his own in a hilarious memoir-ish chronicle of failure. Most people would consider H. Jon Benjamin a comedy show business success. But he'd like to remind everyone that as great as success can be, failure is also an option. And maybe the best option. In this book, he tells stories from his own life, from his early days ("wherein I'm unable to deliver a sizzling fajita") to his romantic life ("how I failed to quantify a threesome") to family ("wherein a trip to P.F. Chang's fractures a family") to career ("how I

failed at launching a kid's show"). As Jon himself says, breaking down one's natural ability to succeed is not an easy task, but also not an insurmountable one. Society as we know it is, sadly, failure averse. But more acceptance of failure, as Jon sees it, will go a long way to making this world a different place . . . a kinder, gentler place, where gardens are overgrown and most people stay home with their pets. A vision of failure, but also a vision of freedom. With stories, examples of artistic and literary failure, and a powerful can't-do attitude, *Failure Is an Option* is the book the world doesn't need right now but will get regardless.

renewal of civic poetry in Living Weapon.
. . . and we'd do this again And again

"Even Homer Nods" A revelation, a
shoring up, a transposition: Rowan
Ricardo Phillips's Living Weapon is a love
song to the imagination, a new blade of
light honed in on our political moment. A
winged man plummets from the
troposphere; four NYPD officers enter a
cellphone store; concrete sidewalks hang
overhead. Here, in his third collection of
poems, Phillips offers us ruminations on
violins and violence, on hatred, on
turning forty-three, even on the end of
existence itself. Living Weapon reveals
to us the limitations of our vocabulary,
that our platitudes are not enough for

the brutal times in which we find
ourselves. But still, our lives go on, and
these are poems of survival as much as
they are an indictment. Couched in
language both wry and ample, Living
Weapon is a piercing addition from a
"virtuoso poetic voice" (Granta).

Named one of the best books of 2018 by The Washington Post, The Seattle Times, and The Advocate “Staggeringly brilliant . . . You’ll start The Maze of Windermere with bewilderment, but you’ll close it in awe.” —The Washington Post “Pitch perfect.” —New York Times Book Review

When a drunken party guest challenges him to a late-night tennis match, Sandy Allison finds himself unexpectedly entangled in the monied world of Newport, Rhode Island. A former touring pro a little down on his luck, Sandy has nothing to stake against the vintage motorcycle his opponent wagers. But then Alice DuPont—the young heiress to a Newport mansion called Windermere—offers up her diamond necklace. With this reckless wager

begins a dazzling narrative odyssey that braids together four centuries of aspiration and adversity in this renowned seaside society capital. A witty and urbane bachelor of the Gilded Age embarks on a high-risk scheme to marry into a fortune; a young Henry James, soon to make his mark on the world, turns himself to his craft with harrowing social consequences; an aristocratic British officer during the American Revolution carries on a courtship that leads to murder; and, in Newport’s earliest days, a tragically orphaned Quaker girl imagines a way forward for herself and the slave girl she has inherited. Gregory Blake Smith weaves these intersecting worlds into a rich, brilliant tapestry. A deftly layered novel of love, ambition, and duplicity, The

Maze at Windermere charts a voyage across the ages into the maze of the human heart.

In 2004, in a stunning upset against the two-time defending champion Serena Williams, seventeen-year-old Maria Sharapova won Wimbledon, becoming an overnight sensation. Out of virtual anonymity, she launched herself onto the international stage. "Maria Mania" was born. Her success would last: she went on to hold the number-one WTA ranking multiple times, to win four more Grand Slam tournaments, and to become one of the highest-grossing female athletes in the world. And then -- at perhaps the peak of her career -- she

was charged by the ITF with taking the banned substance meldonium, only recently added to the ITF's list. The resulting suspension would keep her off the professional courts for fifteen months -- a frighteningly long time for any athlete. But Sharapova's career has always been driven by her determination and by her dedication to hard work. Her story doesn't begin with the 2004 Wimbledon championship, but years before, in a small Russian town, where as a five-year-old she played on drab neighborhood courts with precocious concentration. It begins when her father, convinced his daughter could be a star, risked everything to get them to Florida, that sacred land of tennis academies. It begins when the two arrived with only seven hundred dollars and knowing only

a few words of English. From that, Sharapova scraped together one of the most influential sports careers in history. *The Last Days of Roger Federer* Penguin Lyrical, provocative, and highly original—a groundbreaking book by one of America’s smartest young poet-critics. In *When Blackness Rhymes with Blackness*, Rowan Ricardo Phillips pushes African American poetry to its limits by unraveling “our desire to think of African American poetry as African American poetry.” Phillips reads African American poetry as inherently allegorical and thus “a successful shorthand for the survival of a poetry but unsuccessful shorthand for the sustenance of its poems.” Arguing in favor of the “counterintuitive imagination,” Phillips demonstrates how these poems tend to

refuse their logical insertion into a larger vision and instead dwell indefinitely at the crux between poetry and race, “where, when blackness rhymes with blackness, it is left for us to determine whether this juxtaposition contains a vital difference or is just mere repetition.” From *When Blackness Rhymes with Blackness: Phillis Wheatley*, like the epigraphs that writers fit into the beginning of their texts, is first and foremost a cultural sign, a performance. It is either in the midst of that performance (“at a concert”), or in that performance’s retrospection (“in a cafe?”), that a retrievable form emerges from the work of a poet whose biography casts a far longer shadow than her poems ever have. Next to Langston Hughes, of all African American poets

Wheatley's visual image carries the most weight, recognizable to a larger audience by her famed frontispiece, her statue in Boston, and the drama behind the publication of her book, *Poems on Various Subjects Religious and Moral*. All

of this will be fruit for discussion in the pages that follow. Yet, I will also be discussing the proleptic nature with which African American literature talks, if you will, Phillis Wheatley.
