When Jack Taylor blew town at the end of The Guards his alcoholism was a distant memory and sober dreams of a new life in London were shining in his eyes. In the opening pages of The Killing of the Tinkers, Jack's back in Galway a year later with a new leather jacket on his back, a pack of smokes in his pocket, a few grams of coke in his waistband, and a pint of Guinness on his mind. So much for new beginnings. Before long he's sunk into his old patterns, lifting his head from the bar only every few days, appraising his surroundings for mere minutes and then descending deep into the alcoholic, drug-induced fugue he prefers to the real world. But a big gypsy walks into the bar one day during a moment of Jack's clarity and changes all that with a simple request. Jack knows the look in this man's eyes, a look of hopelessness mixed with resolve topped off with a quietly simmering rage; he's seen it in the mirror. Recognizing a kindred soul, Jack agrees to help him, knowing but not admitting that getting involved is going to lead to more bad than good. But in Jack Taylor's world bad and good are part and parcel of the same lost cause, and besides, no one ever accused Jack of having good sense. Ken Bruen wowed critics and readers alike when he introduced Jack Taylor in The Guards; he'll blow them away with The Killing of the Tinkers, a novel of gritty brilliance that cements Bruen's place among the greats of modern crime fiction.

Welcome to Patricia Briggs's world, a place where "witches, vampires, werewolves, and shape-shifters live beside ordinary people" (Booklist). It takes a very unusual woman to call it home—and there's no one quite like Mercy Thompson. By day, Mercy Thompson is a car mechanic in the sprawling Tri-Cities of Eastern Washington. By night, she explores her preternatural side. As a shape-shifter with some unusual talents, Mercy's found herself maintaining a tenuous harmony between the human and the not-so-human on more than one occasion. This time she may get more than she bargained for. Marsilia, the local vampire queen, has learned that Mercy crossed her by slaying a member of her clan—and she's out for blood. But since Mercy is protected from direct reprisal by the werewolf pack (and her close relationship with its sexy Alpha), it won't be Mercy's blood Marsilia is after. It'll be her friends'.

Young homeless women and drug addicts are being abducted before being brutally mutilated and murdered, and a city is held in a grip of unspeakable terror. The cops are unable - or unwilling - to apprehend the elusive serial killer, and corrupt politicians turn a seemingly blind and almost approving eye to the catalogue of murders. The perpetrator is cunning, wealthy and influential. More importantly, he has never once made a mistake in his grisly calling - until now. By abducting Katie, the young daughter of legendary private investigator, Karl Kane, the killer has just made his first mistake, which could well turn out to be his last. Blaming himself for his daughter's abduction, Karl Kane must now reach down to the darkest recesses of his troubled soul and mind, to become as

cunning and merciless as the killer - but even that may not be enough to penetrate the fortress-like lair where Karl suspects the killer keeps his victims. There is only one man capable of helping Kane attack the 'dark place', a man despised and hated by Detective Inspector Mark Wilson, but even that help becomes as elusive as any Karl will get from the cops. From the nail-biting beginning to the explosive ending, Karl Kane's nightmarish journey forces upon him a decision that changes his life forever, and forces him to look into the abyss of no return.

A dark, edgy novel from a master of Irish crime fiction who "is threatening to become a mass cult figure in the U.S. as well as a critical favorite" (The Atlantic). An elderly priest is nearly beaten to death. A special-needs boy is brutally attacked. Evil has many guises, and private investigator Jack Taylor has encountered most of them. But nothing before has ever truly terrified him until he confronts a group calling itself Headstone, responsible for a series of random violent crimes in Galway, Ireland. As Headstone barrels along its deadly path right to the center of Taylor's life, he will need to call upon his own capacity for brutality in order to stop them, in this suspenseful novel from a writer called "a Celtic Dashiell Hammett" (The Philadelphia Inquirer). "A nonstop rampage of intrigue, mayhem, lunacy and dark-dark-dark humor." —Shelf Awareness

*The Biblically Defined Process That Brings Fear of the Enemy Into A Person's Life* TRICORNE

Jack Taylor is walking the delicate edge of a sobriety he doesn't trust when his phone rings. He's in debt to a Galway tough named Bill Cassell, what the locals call a "hard man." Bill did Jack a big favor a while back; the trouble is, he never lets a favor go unreturned. Jack is amazed when Cassell simply asks him to track down a woman, now either dead or very old, who long ago helped his mother escape from the notorious Magdalen laundry, where young wayward girls were imprisoned and abused. Jack doesn't like the odds of finding the woman, but counts himself lucky that the task is at least on the right side of the law. Until he spends a few days spinning his wheels and is dragged in front of Cassell for a quick reminder of his priorities. Bill's goons do a little spinning of their own, playing a game of Russian roulette a little too close to the back of Jack's head. It's only blind luck and the mercy of a god he no longer trusts that land Jack back on the street rather than face down in a cellar with a bullet in his skull. He's got one chance to stay alive: find this woman. Unfortunately, he can't escape his own curiosity, and an unnerving hunch quickly turns into a solid fact: just who Jack's looking for, and why, aren't nearly what they seem. The Magdalen Martyrs, the third Galway-set novel by Edgar, Barry, and Macavity finalist and Shamus Award-winner Ken Bruen, is a gripping, dazzling story that takes the Jack Taylor series to explosive new heights of suspense.

The Algerian War 1954-62 was one of the most prolonged and violent examples of decolonization. At times horribly savage, it was an undeclared war in the sense that no formal declaration of hostilities was ever made. Bringing to an end one hundred and thirty two years of French rule, the Algerian struggle caused the fall of six French prime ministers, the collapse of the Fourth Republic and expulsion of one million French settlers. This volume, bringing together leading experts in the field, focuses on one of the key actors in the drama - the French army. They show that the Algerian War was just as much about conflicts of ideas, beliefs and loyalties as it was about simple military operations. In this way, the collection goes beyond polemic and recrimination to explore the many and varied nuances of what was one of the historically most important of the grand style colonial wars.

Cet été, j'avais vraiment hâte de retourner à la Pinède Enchantée pour retrouver Maggie, ma meilleure amie depuis notre dernière colo. Sauf que cet été, je ne venais pas seule. Avec moi, il y avait Devon, mon autre meilleure amie. Devon n'est pas vraiment le genre de fille qui aime la nature et les activités en plein air : elle est plutôt habituée aux piscines chauffées et aux intérieurs

climatisés. Mais je pensais quand même qu'on passerait toutes les trois une super colo. Sauf que je me suis complètement trompée ! À la seconde où je les ai présentées, Maggie et Devon se sont détestées... et je me suis retrouvée coincée entre mes deux meilleures copines. À croire que c'était impossible de rester amie avec chacune d'elles sans devenir folle !

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
