Recueil Des Cours, Collected Courses, 1925 BoD – Books on Demand

Writing in English, German, or French, more than 300 authors provide a historical description of the beginnings and of the early and subsequent development of thinking about language and languages within the relevant historical context. The gradually emerging institutions concerned with the study, organisation, documentation, and distribution are considered as well as those dealing with the utilisation of language related knowledge. Special emphasis has been placed on related disciplines, such as rhetoric, the philosophy of language, cognitive psychology, logic and neurological science.

A catalogue made by collectors for collectors. This year the Spink Maury Catalogue, heir to the prestigious Maury, Ceres and Dally catalogues, continues its work of research, compiled over generations of philately. It covers all French stamps from 1849 to the present day, offering hundreds of changes – with oddities, new varieties and discoveries presented, as always, in an exceptional way. Included in the new material is the continuation of the monographic studies, presenting a stamp per page with all varieties known until the First World War; a redesign of types Merson and Pasteur; and a specialised part devoted to Marianne de Beaujard, reviewed in depth. In addition the section on current usage stamps (TUC) is fully updated following feedback from our contributors and readers. France has one of the most beautiful philatelic legacies in the world, and we are pleased to be its modest ambassador to the numerous international readers who join us each year. “Layout and coverage are sumptuous ... The trite phrase “mine of information” does not begin to do justice to

this immense achievement. To any collector of France beyond the elementary stage, this would be a bargain at twice the official retail price ... Highly recommended.an absolute must for collectors of French stamps..." Michael Round, Journal of the France & Colonies Philatelic Society

The Edinburgh Review Merriam-Webster

Although nineteenth-century Egyptian Jewry was an active and creative part of society, this work from 1969 is the main comprehensive work devoted to an analysis and appraisal of its activities. The period under review commences with the fall of the Mamluk regime in Egypt, and the incipient modernization of the state, with the resulting increase in Jewish activity. It terminates with the end of World War I and the new era in the history of modern Egypt, an era of extreme nationalism that led to the undermining of the Jewish community.

New dictionary French and English and English and French abridged from Boyer Walter de Gruyter

The first five volumes of the Correspondence of Jeremy Bentham contain over 1,300 letters written both to and from Bentham over a 50-year period, beginning in 1752 (aged three) with his earliest surviving letter to his grandmother, and ending in 1797 with correspondence concerning his attempts to set up a national scheme for the provision of poor relief. Against the background of the debates on the American Revolution of 1776 and the French Revolution of 1789, to which he made significant contributions, Bentham worked first on producing a complete penal code, which involved him in detailed explorations of fundamental legal ideas,

and then on his panopticon prison scheme. Despite developing a host of original and ground-breaking ideas, contained in a mass of manuscripts, he published little during these years, and remained, at the close of this period, a relatively obscure individual. Nevertheless, these volumes reveal how the foundations were laid for the remarkable rise of Benthamite utilitarianism in the early nineteenth century. Bentham's early life is marked by his extraordinary precociousness, but also family tragedy: by the age of 10 he had lost five infant siblings and his mother. The letters in this volume document his difficult relationship with his father and his increasing attachment to his surviving younger brother Samuel, his education, his interest in chemistry and botany, and his committing himself to a life of philosophy and legal reform.
