Open Book: The Inside Track to Law School Success, 2E is a book that every JD and LLM law student needs to read, either before classes start or as they get going in their 1L year. Now in an expanded second edition, the book explains in a clear and easygoing, conversational manner what law professors expect from their students both in classes and exams. The authors, award-winning teachers with a wealth of classroom experience, give students an inside look at law school by explaining how, despite appearances to the contrary, classes connect to exams and exams connect to the practice of law. Open Book introduces them to the basic structure of our legal system and to the distinctive features of legal reasoning. To prepare students for exams, the book explains in clear and careful detail what exams are designed to test. It then devotes a single, clearly written chapter to each step of the process of answering exams. It also contains a wealth of material, both in the book and digitally, on preparing for exams. Finally, and perhaps most importantly, Open Book comes with a free suite of 18 actual law school exams in Civil Procedure, Constitutional Law, Contracts, Criminal Law, Property and Torts, written and administered by law professors. These exams include not only questions, but: (1) annotations from the professors explaining what they were looking for; (2) model answers written by the professors themselves; and (3) actual student answers, with professor comments that explain why certain answers were stronger or weaker. As Open Book explains, there is no better way to prepare for exams than by practicing, and these unique materials will enable students to get the most out of their pre-exam practice.

Every year, law students across the country participate in the "write-on competition" for a shot at the most highly coveted prize in law school: membership on the law review. But until now, law students had nowhere to turn to for reliable information regarding the competition. This book has changed all that. Making Law Review explains how the competition works, and reveals the surprising and innovative techniques students have used to excel in it. Author Wes Henricksen interviewed dozens of current and former law review members at many of the top law schools to learn their secrets to success in the write-on competition. This book synthesizes those students' experiences into a comprehensive body of valuable advice on topics such as how to best prepare for the competition, how to effectively allocate your time throughout it, and how to write a winning submission paper.
