 Lecture Notes from the year 2016 in the subject Business economics - Accounting and Taxes, grade: 1,3, , language: English, abstract: The following text was created as part of the university module "Financial accounting according to IFRS standards". This work will introduce the financial reporting procedure as well as the legal framework and enable the reader to create (simple) financial statements on his/her own. Several examples and numerical figures as well as visual displays support the understanding. At the end, there is a summary about the balance sheet adjustments and a kind

of FAQ (as part of the exam preparation). Please be aware that the international approaches are very similar to the German ones, but are not always the same. This work is made from the notes taken during lectures and supplemented by additional information and pictures from secondary literature, namely "Financial Accounting - International financial reporting standards", published by Pearson and written by Walter T. Harrison Jr. and Charles T. Horngreen. Additionally, some information from this book was visually displayed in self-made figures, diagrams and compilations. If an image is not marked otherwise, it's self-created.

Canadian Financial  
Accounting Cases, 3rd  
edition has been  
developed to bridge  
the gap between the  
foundational concepts

and the real world. Students are introduced to the case study methodology for financial accounting, which focuses on identifying the issue, understanding implications, developing alternatives, and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams, or for in-class discussions. The cases have been developed using IFRS (Part I), ASPE (Part II) or ASNPO (Part III) as the accounting

frameworks, providing students with exposure to many different types of organizational structures, and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments.

This multipack consists of Britton: Financial Accounting 3<sup>rd</sup> Edition (ISBN 027365859X) and access to the Britton WebCT Online Resources. Developed out of the MTBE series in Business and Economics this thoroughly revised third edition of Financial Accounting successfully combines an academic, conceptual approach to the subject with an accessible, student friendly and interactive style. This new text adopts a questioning attitude to the subject, asking why accounting practices exist and how they work, without lingering on the technicalities. Increased in length, depth and coverage, for those that favour the 'why' over 'how to'

approach, Financial Accounting is now the ideal introductory core text for first year financial accounting students.
