Grammatical Theory and Philosophy of Language in Antiquity Rowman & Littlefield

The manner in which social science studies relating to Indo-European colonial encounters emerged in Indian academics post-1947 evidently shows a tendency whereby such studies are essentially made to fit into the widely recognized and much studied colonizer-colonized dynamic proposed by the celebrated works of Edward Said and Albert Memmi. And there

is an almost instinctual implication of Indo-British encounters into this dynamic. How does one, then, situate the presence of the marginalized French colonial exercise in India – in some sorts – that of a colonized colonizer – into this model? How does one explain such presences in the larger, more inclusive framework of a co-constituted history of colonial empires in India? How does the evolution of alternative territorial sovereignties impact the imaginative faculty of Indians in the colonial landscape? What are the ways in which the evolution of such imagined alternative territories shape inter-empire relations? Could such ‘voids’ in the dominant discourses of empire have led to the re-imagination of the territoriality of national anti-colonial resistance and created new strategic regimes of networked circulations? Or, could such potholes in the landscape of the dominant empire have led to the evolution of such spaces as territories of inter-empire resistance?

The first sixteen essays of this volume are devoted to different aspects of the Yorkshire Reformation and Counter-Reformation. The second half of the

volume is dedicated to essays on the contemporary historians of the Reformation, religious toleration, and the Reformation in France and Germany.

The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book – the first comprehensive study of collage and its relation to modernism – challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage – and the Futurist multimedia work that was inspired by it – undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of

exchange.

The leading historians who are the authors of this work offer a highly original account of one of the most important transformations in Western culture: the change brought about by the discovery and development of printing in Europe. Focusing primarily on printed matter other than books, The Culture of Print emphasizes the specific and local contexts in which printed materials, such as broadsheets, flysheets, and posters, were used in modern Europe. The authors show that festive, ritual, cultic, civic, and pedagogic uses of print were social activities that involved deciphering texts in a collective way, with those who knew how to read leading those who did not. Only gradually did these collective forms of appropriation give way to a practice of reading--privately, silently, using the eyes alone--that has become common today. This wide-ranging work opens up new historical and methodological perspectives and will become a focal point of debate for historians and sociologists interested in the cultural transformations that

accompanied the rise of modern societies. Originally published in 1989. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

People are using the future to search for better ways to achieve sustainability, inclusiveness, prosperity, well-being and peace. In addition, the way the future is understood and used is changing in almost all domains, from social science to daily life. This book presents the results of significant research undertaken by UNESCO with a number of partners to detect and define the theory and practice

of anticipation around the world today. It uses the concept of 'Futures Literacy' as a tool to define the understanding of anticipatory systems and processes – also known as the Discipline of Anticipation. This innovative title explores: • new topics such as Futures Literacy and the Discipline of Anticipation; • the evidence collected from over 30 Futures Literacy Laboratories and presented in 14 full case studies; • the need and opportunity for significant innovation in human decision-making systems. This book will be of great interest to scholars, researchers, policy-makers and students, as well as activists working on sustainability issues and innovation, future studies and anticipation studies. Annulosa. [By W. E. Leach. Extracted from vol. 1 of the Supplement to the Encyclopædia Britannica.] Routledge First Published in 1987 The Yezidis: A Study in Survival traces the origin of Yezidi

community's religion, describes the discovery of the people by Western travellers in the early nineteenth century and details the Yezidi community's traumatic history and their status in the 80s. The Yezidi religious group is spread out over Iraq, Turkey, Syria, and erstwhile USSR and have retained their identity for over 500 years. The Yezidi's believe that Lucifer, the fallen angel, has been forgiven by God and reinstated as chief angel: their history is, like their faith, characterized by dignity and survival in the face of great odds. Chapters also cover Sultan Abdul Hamid's cruel but vain efforts to force the Yezidis to embrace Islam, leading to the emergence of Mayan Khatun, a strong-willed Yezidi princess who ruled the community from 1913-1958. They include vivid account of her rivalry with her brother Ismail and the ill-fated marriage between her son and his daughter. The final chapter describes the community in Soviet Armenia and Georgia. This book is a must read for students of Middle East studies and Middle East history. *Hymn of the Universe* Oxford University Press

This volume provides concise, authoritative accounts of the approaches and methodologies of modern lexicography and of the aims and qualities of its end products. Leading scholars and professional lexicographers, from all over the world and representing all the main traditions and perspectives, assess the state of the art in every aspect of research and practice. The book is divided into four parts, reflecting the main types of lexicography. Part I looks at synchronic dictionaries - those for the general public, monolingual dictionaries for second-language learners, and bilingual dictionaries. Part II and III are devoted to the distinctive methodologies and concerns of the historical dictionaries and

specialist dictionaries respectively, while chapters in Part IV examine specific topics such as description and prescription; the representation of pronunciation; and the practicalities of dictionary production. The book ends with a chronology of the major events in the history of lexicography. It will be a valuable resource for students, scholars, and practitioners in the field. *The Acharnians* Peter Owen Publishers
Liberating Literature is, primarily, a bold and revealing book about feminist writers, readers, and texts. But it is also much more than that. Within this volume Maria Lauret manages to look with fresh vision at the American Civil Rights movement of the 1960s; socialist women's writing of the 1930s; the emergence of the New Left; and the second wave women's movement and its cultural practices. Lauret's historicisation of feminist political writing allows for a new definition of the genre, and enables her to illuminate the profound influence and importance of African-American women's writing. Well-grounded historically and theoretically, *Liberating Literature* speaks about and to a political and cultural tradition, and offers stunning new readings of both familiar and

neglected novels within the feminist canon. Reader and students of feminist fiction cannot afford to be without this major new work.

Wittig describes an extraordinary journey through the infernal regions towards a paradisaical land. Angels ride motorcycles, and cruelty and suffering are unknown on the other side of the Acheron, the legendary river of sorrows. Wittig reveals her poetic, sometimes humorous story in a vivid and highly individual style, creating a kaleidoscopic mixture of the mythological and the modern. Across *The Acheron* confirmed Wittig's position as one of France's most original and gifted writers of the 20th century.

"The Paris symposium was requested to examine the following questions and, if possible, provide answers to them: What is an Arab? What distinguishes the Arabs of African countries from those of other regions? To what extent and up to what point have life on the African continent and ties with other Africans affected their culture, religion, etc., creating a difference or a distinction between African Arabs and

the Arabs of other regions? What are the relations between pan-Arabism, pan-Islamism and pan-Africanism? What are the relations between the Organization of African Unity (OAU) and the Arab League? "--Introductory note, page [9]

The Rhaeto-Romance languages have been known as such to the linguistic community since the pioneering studies of Ascoli and Gartner over a century ago. There has never been a community of RR speakers based on a common history or polity and the various dialects are mutually unintelligible, but a unity, based on a number of common features, has been advanced. This book is the first general description of the Rhaeto-Romance languages to be written in English. It provides a critical examination of the phonology, morphology, lexicon, and syntax of the modern Rhaeto-Romance dialects within the broader

perspective of Romance comparative linguistics.

"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

Murder in Byzantium Routledge

Mixing fiction, history, psychoanalysis, and personal fantasy, *Teresa, My Love* turns a past world into a modern marvel, following Sylvia Leclercq, a French psychoanalyst, academic, and incurable insomniac, as she falls for the sixteenth-century Saint Teresa of Avila and becomes consumed with charting her life. Traveling to Spain, Leclercq, Julia Kristeva's probing alter ego, visits the sites and embodiments of the famous mystic and awakens to her own desire for faith, connection, and rebellion.

One of Kristeva's most passionate and transporting works, *Teresa, My Love* interchanges biography, autobiography, analysis, dramatic dialogue, musical scores, and images of paintings and sculpture to engage the reader in Leclercq's—and Kristeva's—journey. Born in 1515, Teresa of Avila outwitted the Spanish Inquisition and was a key reformer of the Carmelite Order. Her experience of ecstasy, which she intimately described in her writings, released her from her body and led to a complete realization of her consciousness, a state Kristeva explores in relation to present-day political failures, religious fundamentalism, and cultural malaise. Incorporating notes from her own psychoanalytic practice, as well as literary and philosophical references, Kristeva builds a fascinating dual diagnosis of contemporary society and the individual psyche while sharing unprecedented insights into her own character.

This collective volume contains studies in the field of ancient grammar, poetics and philosophy of language. The contributions, written by specialists in the field, focus on

central themes in the historiography of ancient linguistics, such as the status of grammar as a discipline in Antiquity, the relationship between poetics and grammatical theory, the constitution and development of the word class system, the descriptive format of grammars, the nature and description of specific word classes, the development of grammatical argumentation. In addition, several methodological issues in the study of ancient grammar and philosophy of language are dealt with: the problem of continuity vs. discontinuity in the history of linguistic thought, the role of schoolroom activities in the development

of grammatical description and theory-formation, and problems concerning "tradition", "influence" and "originality" in ancient linguistics. The volume is rounded off with extensive indices of proper names, concepts and technical terms.

The Spirit of Solesmes Columbia University Press

Surrounded on all borders but its western coastline by hostile and aggressive neighbors, the state of Israel resembles the walled city of the Middle Ages. But its walls are not stone and mortar, they are flesh and blood—they are the soldiers, both men and women—the airmen, the intelligence, the tankscorpomen and the paratroops. These young people—from the

old ghettos of Europe, from the cities of North Africa and Asia, native-born Sabras—are the protecting wall that keeps Israel free. The Walls of Israel is Jean Lartéguy's fascinating 1968 study of the Israeli armed forces. Talking with them, living with them, joining in their operations (he was taken along on a nighttime ambush set up to catch Syrian infiltrators), Lartéguy got to know the Israeli soldier as few could. From this book, wide ranging and filled with lively anecdotes, emerges a picture of an army, tough and determined, yet intelligent and realistic enough to foresee a long and dangerous road ahead before a peace is won.
