TimeRiders Simon and Schuster

It's 1897. Gold has been discovered in the Yukon.

New York is under the sway of Hearst and

Pulitzer. And in a few

months, an American

battleship will explode in

a Cuban harbor, plunging the U.S. into war.

Spanning five years and half a dozen countries, this is the unforgettable story of that extraordinary moment: the turn of the twentieth century, as seen by one of the greatest storytellers of our time. Shot through with a lyrical intensity and stunning detail that recall Doctorow and Deadwood

both, A Moment in the Sun takes the whole era in its sights—from the white-racist coup in Wilmington, North Carolina to the bloody dawn of U.S. interventionism in the Philippines. Beginning with Hod Brackenridge searching for his fortune in the North, and hurtling forward on the voices of a breathtaking range of men and women—Royal

Scott, an African American infantryman whose life outside the military has been destroyed; Diosdado Concepción, a Filipino insurgent fighting against his country's new colonizers; and more than a dozen others, Mark Twain and President McKinley's assassin among them—this is a story as big as its subject: history rediscovered through the lives of the people who made it happen.

This pivot analyzes the historical emergence of legal graffiti and how it has led to a new ethos among writers. Examining how contemporary graffiti

writing has been brought into new relationships with major social institutions, it explores the contemporary dynamics between graffiti, society, the art world and social media, paying particular attention to how New York City's political elite has reacted to graffiti. Despite its major structural transformation, officials in New York continue to construe graffiti writing culture as a monolithic, criminal enterprise, a harbinger of economic and civic collapse. This

basic paradox – persistent state opposition to legal forms of graffiti that continue to gain social acceptance – is found in many other major cities throughout the globe, especially those that have embraced neoliberal forms of governance. The author accounts for the cultural conflicts that graffiti consistently engenders by theorizing the political and economic advantages that elites secure by endorsing strong 'anti-graffiti' positions.

"Themed spaces have, at their foundation, an overarching narrative,

symbolic complex, or story that drives the overall context of their spaces. Theming, in some very unique ways, has expanded beyond previous stereotypes and oversimplifications of culture and place to now consider new and often controversial topics, themes, and storylines."-- Publisher's website.

plausible' DAILY TELEGRAPH It seems to be a very normal Monday morning. But in the space of only a few days, the world's oil supplies have been severed and at a horrifying pace things begin to unravel everywhere. And this is no natural disaster: someone is behind this. Jenny is stuck in Manchester, fighting desperately against the rising chaos to get back to London, where her children are marooned as events begin to spiral out of control: riots, raging fires, looting,

rape and murder. In the space of a week, London is transformed into a lawless and anarchic vision of hell. Jenny's estranged husband, oil engineer Andy Sutherland, is stranded in Iraq with a company of British soldiers, desperate to find a way home to his family, trapped as transport links and the very infrastructure of daily life begin to collapse around him. And against all this, a mysterious man is tracking Andy's family. He'll silence anyone who might be able to reveal

the identities of those behind this global disaster. It seems that the same people who now have a stranglehold on the future of civilisation have flexed their muscles before, at other significant tipping points in history, and they are prepared to do anything to keep their secret - and their power - safe.

Fewer Canadians than ever are lacing up skates, swimming lengths at the pool, practicing their curve ball, and experiencing the thrill of competition. However, despite a decline in active participation, Canadians spend enormous amounts of time and money on sports, as fans and followers of sporting events and sports culture. Never has media

coverage of sports been more exhaustive, and never has it been more driven by commercial interests and the need to fuel consumerism, on which corporate profits depend. But the power plays now occurring in the arena of sports are by no means solely a matter of money. At issue as well in the media capture of sports are the values that inform our daily lives, the physical and emotional health of the population, and the symbols so long central to a sense of Canadian identity. Writing

from a variety of perspectives, the contributors to this collection set out to explore the impact of the media on our reception of, and attitudes toward, sports—to unpack the meanings that sports have for us as citizens and consumers. Some contributors probe the function of sports as spectacle—the escalation of violence, controversies over drug use, and the media’s coverage of tragic deaths—while others shed light on the way in which the media

serve to transform sports into a vehicle for the expression of identity and nationalism. The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity.

 The stunning new thriller from one of the fastest-growing stars of the genre. 2008: deep in the mountain forests of Wyoming, Julian Cooke stumbles across the rotting remains of a wooden wagon. He's discovered what's left of the Preston Group, a convoy of settlers that vanished in the winter of 1856. It's clear that something horrific happened here all those years ago, but Cooke can only find a few tantalising clues. 1856: as early

snows descend, the eclectic group of settlers that form the Preston wagon train are forced to dig in. Miles from any kind of civilisation, they see the group of Native Americans also trapped nearby as their greatest threat. But they soon realise what true danger is. When a woman is found murdered, one of the Indian party struggles wounded back to camp, whispering of unspeakable evil as he dies. United by fear, the settlers and the Indians must protect themselves

against whatever is lurking in the woods. But as suspicion and panic grow, perhaps their own terror will be just as dangerous. Or maybe, whatever's out there is worse than anything they can imagine. Back in the present day, as Cooke unravels the mystery, he must question if the horror he is uncovering was in fact only the start of something much worse...
