The papers gathered in this volume explore the economic and social roles of exchange systems in past societies from a variety of different perspectives. Based on a broad range of individual case studies, the authors tackle problems surrounding the identification of (pre-monetary) currencies in the archaeological record.

Dutch Oven Faber & Faber

For years, the Dutch oven has been popular on the grill and barbecue scene, and cooking with the "black pots" over an open fire has become a fashionable cult; it is a symbol of the Wild West, freedom and adventure. Bothe shows you how to cook over open flames in a Dutch over, from roasts and casseroles to desserts and breads.

die letzten Zeitzeugen aus Sachsen vorgestellt, die an sich selbst oder deren Familienmitglieder die Auswirkungen der eugenischen und nationalsozialistischen Erbgesundheitspolitik zu spüren bekommen hatten: Sterilisation und Ermordung, die sogenannte NS-„Euthanasie“. Im Rahmen eines Projektes am Lebensgeschichtlichen Archiv im Institut für Sächsische Geschichte und Volkskunde Dresden in Zusammenarbeit mit dem Bund der „Euthanasie“-Geschädigten und Zwangssterilisierten Detmold wurden 13 Personen in der Zeit von 2008 bis 2012 über ihr Leben interviewt. Aus der Erfahrung des Verlustes von familiären Bezugspersonen, schädigender Pflegefamilien, körperlicher und seelischer Gewalt und von Diskriminierungen in der NS- und DDR-Zeit entstanden erhebliche Auswirkungen bis in die heutige Zeit. Vor dem Hintergrund von mehreren hunderttausend Betroffenen ist der Ausschnitt begrenzt und zeigt dennoch die typischen Lebensverläufe dieser Gruppe von NS-Opfern.

The #1 New York Times bestseller! From the #1 New York Times

bestselling author of the Reckoners series, the Mistborn trilogy, and the Stormlight Archive comes the second book in an epic series about a girl with a secret in a dangerous world at war for humanity's future. All her life, Spensa's dreamed of becoming a pilot and proving herself a hero like her father. She made it to the sky, but the truths she learned there were crushing. The rumors of her father's cowardice are true--he deserted his Flight during battle against the Krell. Worse, though, he turned against his team and attacked them. Spensa is sure that there's more to the story. And she's sure that whatever happened to her father that day could happen to her. When she made it outside the protective shell of her planet, she heard the stars--and what they revealed to her was terrifying. Everything Spensa has been taught about her world is a lie. Humankind has always celebrated heroes, but who defines what a hero is? Could humanity be the evil the galaxy needs to be protected from? Spensa is determined to find out, but each answer she discovers reveals a dozen new questions: about the war, about her enemies, and even, perhaps, about Spensa herself. But Spensa also discovered a few other things about herself--and she'll travel to the end of the galaxy to save humankind if she needs to. "Sanderson delivers a cinematic adventure that explores the defining aspects of the individual versus the society. . . . Fans of Sanderson will not be disappointed." --SLJ "It is impossible to turn the pages fast enough." --Booklist "He's simply a brilliant writer. Period." --Patrick Rothfuss, author of the New York Times bestseller *The Name of the Wind*, on Brandon Sanderson.

Urban Machinery investigates the technological dimension of modern European cities, vividly describing the most dramatic changes in the urban environment over the last century and a half. Written by leading scholars from the history of technology, urban history, sociology and science, technology, and society, the book views the European city as a complex construct entangled with technology. The chapters examine the increasing similarity of modern cities and their technical infrastructures (including communication, energy, industrial, and transportation systems) and the resulting tension between homogenization and cultural differentiation. The contributors emphasize the concept of circulation--the process by which architectural ideas, urban planning principles, engineering concepts, and societal models spread across Europe as well as from the United States to Europe. They also examine the parallel process of appropriation--how these systems and practices have been adapted to prevailing institutional structures and cultural preferences. *Urban Machinery*, with contributions by scholars from eight countries, and more than thirty illustrations (many of them rare photographs never published before), includes studies from northern and southern and from eastern and western Europe, and also discusses how European cities were viewed from the periphery (modernizing Turkey) and from the United States. Contributors Hans Buiters, Paolo Capuzzo, Noyan Dinçkal,

Cornelis Disco, Pål Germuska, Mikael Hård, Martina Heßler, Dagmara Jajiesniak-Quast, Andrew Jamison, Per Lundin, Thomas J. Misa, Dieter Schott, Marcus Stippak

The third volume in the 'Car Racing' collection, 1967 bears witness to the gradual appearance of color. Photographers henceforth juggled rolls of both black & white and color film as they ventured as close as possible to the drivers and throngs entranced with speed and competition. Industries and automobile marques understood the full import of the tremendous platform motorsport offered them, and became ever more enthusiastic to share their stories and victories with the public. Many are mentioned in these pages, including Ford's extraordinary epic with the Cosworth engine and triumph at Le Mans. This volume also showcases portraits of drivers from François Cevert to Bruce McLaren, and touches on the careers of legendary designers such as Jean R  d  l, Colin Chapman and Jim Hall... In their lively commentary, Johnny Rives and Manou Zurini take evident pleasure in recalling old acquaintances from the pitched fever of the track, joyfully sharing their knowledge through anecdotes and memories. Text in English and French.

Ulysses is a novel by the Irish writer James Joyce. It is considered to be one of the most important works of Modernist literature, it has been called "a demonstration and summation of the entire movement". "Before Joyce, no writer of fiction had so foregrounded the process of thinking." However, even proponents of Ulysses such as Anthony Burgess have described the book as "inimitable, and also possibly mad". There have been at least 18 different "Ulysses" editions (Joyce's handwritten manuscripts were typed by a number of amateur typists). This eBook is a faithful reproduction of the notable first book edition published in Paris on 2 February 1922 by Sylvia Beach at Shakespeare and Company (only 1000 copies were printed). James Augustine Aloysius Joyce (2 February 1882 – 13 January 1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses (1922), a landmark work in which the episodes of Homer's Odyssey are paralleled in an array of contrasting literary styles, perhaps most prominent among these the stream of consciousness technique he perfected. Other major works are the short-story collection Dubliners (1914), and the novels A Portrait of the Artist as a Young Man (1916) and Finnegans Wake (1939). His complete oeuvre also includes three books of poetry, a play, occasional journalism, and his published letters.

Pulitzer Prize-winning author Annie Proulx brings the immigrant experience to life in this stunning novel that traces the ownership of a simple green accordion. E. Annie Proulx's Accordion Crimes is a masterpiece of storytelling that spans a century and a continent. Proulx brings the immigrant experience in America to life through the eyes of the descendants of Mexicans, Poles, Africans, Irish-Scots, Franco-Canadians and many others, all linked by their successive ownership of a simple green accordion. The music they make is their last link with the past—voice for their fantasies, sorrows and exuberance. Proulx's prodigious knowledge, unforgettable characters and radiant language make Accordion Crimes a stunning novel, exhilarating in its scope and originality.

The Ford GT 40, Alpine, Ferraris, BRM, Lotus, Mini Cooper and more, apotheoses of design and mechanical thunder, outdared each other continuously in pursuit of the top spot, in rallies and endurance races such as Le Mans. Indeed, it was in 1966 that one of the authors of this work, Johnny Rives, got to drive the n° 53 car down the Hunaudières straight. The drivers, whether at Le Mans, in hill-climbs or on the first circuits of what had not yet become the full circus that is Formula 1, were universally accessible and welcoming, smiling at amateurs and the media, who were not yet clustered in droves around the route or track. Amazing memories! Text in English and French.

Angela Merkel Giorgio NADA Editore

With the Eurozone engulfed in an unprecedented crisis, one political figure looms largest of all, Angela Merkel, the leader of its most powerful economy. While foreign affairs have become the central issues of her chancellorship in this crucial election year, the entire world is anxiously looking to Germany to play its part in Europe's rescue. This authorized biography sheds light on the person behind the politician – from her youthful days of hitchhiking in Tbilisi to being the guest of honour at a White House state dinner – and examines how a girl from East Germany rose to the highest echelons of European power. As well as explaining how Angela Merkel's world view was shaped and influenced by her background and ideology, Stefan Kornelius's lively account discusses her personal relations with international counterparts such as David Cameron, Barack Obama or Vladimir Putin, as well as her attitude towards the countries and cultures over which they rule.

1922. The Australian author, Henry Handel Richardson's (Ethel Florence Lindesay Richardson), is best remembered for The Fortunes of Richard Mahony trilogy. Her novel, Maurice Guest, plays out the history of Maurice and Louise against the background of the musical life in Leipzig, of which she has intimate knowledge, having studied music there herself. The other figures in the drama, Madeleine, Krafft, Ephie, Schwarz's wife, landladies and musical students, are inevitably pieces in the principal game, and yet are never deliberately so placed there by the author in order to assist the final catastrophe. At a time when opinion trumps facts and truth is treated as nothing more than another perspective, free speech has become a battleground. While authoritarians and algorithms threaten democracy, we argue over who has the right to speak. To protect ourselves from encroaching tyranny, we must look beyond this

one-dimensional notion of what it means to be free and, by reconnecting liberty to equality and accountability, restore the

individual agency engendered by the three dimensions of freedom.
