It's not every day you get an inside peek at the world of a famous artist. So when bookseller Delhi Laine gets the opportunity to appraise the late Nate Erikson's library, she

jumps at the chance, despite the mysterious circumstances surrounding the illustrator's death. But as she spends more time with the eccentric Erikson clan at the family compound in the Hamptons, Delhi can't help but wonder what really happened to the lost patriarch. When death visits the family once more and another

Erikson is found murdered, dark secrets come to light. Left coping with a charmed family not quite as idyllic as she first believed, Delhi is determined to solve the murders once and for all. But digging up truths can get you dirty . . . and Delhi is about to discover just how far some will go to keep them buried.

Advice on achieving a fulfilling old age from one of the bestselling authors of Plato and a Platypus Walk into a Bar . . . After being advised by his dentist to get tooth implants, Daniel Klein decides to stick with his dentures and instead use the money to make a trip to the Greek island Hydra and discover the secrets of aging happily. Drawing on the inspiring lives of his Greek friends and philosophers ranging from Epicurus to Sartre, Klein uncovers the simple pleasures that are

available late in life, as well as the refined pleasures that only a mature mind can fully appreciate. A travel book, a witty and accessible meditation, and an optimistic guide to living well, *Travels with Epicurus* is a delightful jaunt to the terrain of old age that only a free spirit like Klein could lead.

They inspire feelings of great passion, serenity, and sometimes fear . . . they give people the

opportunity to find themselves--or to lose their minds . . . they are revered as paradise or treated as junkyards . . . both haunted by and respectful of history . . . they are central to the myths and religions of many peoples throughout time . . . they provide a real, friendly community or the hell of repetitive social encounters . . . What is it about islands that has captivated millions of people around the world and through the centuries? In a penetrating, brilliantly

written book that weaves sociology, history, politics, personality, and ancient and popular culture into one compelling narrative, Thurston Clarke island-hops around the oceans of the world, searching for an explanation for the most passionate and enduring geographic love affair of all time--between humankind and islands. Along the way Clarke visits the remote and silent Mas À Tierra, the island off the coast of Chile that inspired Defoe to write Robinson Crusoe; tropical Banda Neira, one

of the Spice Islands, where its self-crowned prince hopes for nothing less than nutmeg's complete and glorious revival; sleepy, simple Campobello, the Canadian island where Franklin D. Roosevelt spent his boyhood summers; Patmos, with its imposing mountaintop monastery; Malekula, once the most notorious cannibal island in the world; and Jura in Scotland's Hebrides, where George Orwell wrote 1984--the island that turned Clarke into a islomane, someone

Lawrence Durrell says experiences an "indescribable intoxication" at finding himself in "a little world surrounded by the sea." Despite colonialism and missionary conversions, wartime scars and shrinking coasts, islands have thrived. Though each island is unique in its own way, Clarke discovers that the islanders themselves are a distinct people-- tranquilized by their watery horizons yet sensitive to the first shift in weather, conservative yet more likely to drop

their inhibitions because no one is looking. And over every island falls the shadow of Robinson Crusoe, persuading us that islands are more liberating than confining, more contemplative than lonely, more holy than barbaric because we have been "removed from all the wickedness of the world." In a stunning work of wit, adventure, and incisive exploration, Thurston Clarke brings a unique passion to dazzling life.

"Nobody who has not taken one can imagine the beauty of a walk through Rome by full moon," wrote Goethe in 1787. Sadly, the imagination is all we have today: in Rome, as in every other modern city, moonlight has been banished, replaced by the twenty-four-hour glow of streetlights in a world that never sleeps. Moonlight, for most of us, is no more. So James Attlee set out to

find it. Nocturne is the record of that journey, a traveler's tale that takes readers on a dazzling nighttime trek that ranges across continents, from prehistory to the present, and through both the physical world and the realms of art and literature. Attlee attends a Buddhist full-moon ceremony in Japan, meets a moon jellyfish on a beach in Northern France, takes a moonlit hike in the Arizona desert, and experiences a lunar eclipse on New Year's Eve atop the snowbound

Welsh hills. Each locale is illuminated not just by the moonlight he seeks, but by the culture and history that define it. We learn about Mussolini's pathological fear of moonlight; trace the connections between Caspar David Friedrich, Rudolf Hess, and the Apollo space mission; and meet the inventors of the Moonlight Collector in the American desert, who aim to cure all kinds of ailments with concentrated lunar rays. Svevo and Blake, Whistler and Hokusai, Li Po and

Marinetti are all enlisted, as foils, friends, or fellow travelers, on Attlee's journey. Pulled by the moon like the tide, Attlee is firmly in a tradition of wandering pilgrims that stretches from Basho to Sebald; like them, he presents our familiar world anew.

Traveling through the chaotic landscape of modern China, Fergus M. Bordewich discovers the remains of an older world that Communism did its best to erase. "Mr.

Bordewich, by searching so assiduously, so affectionately, and so understandingly for legacies of the Chinese past, may paradoxically be giving us some foretastes of a China yet to be." —Jan Morris

An astonishing story that puts a human face on the ongoing debate about immigration reform in the United States, now updated with a new Epilogue and Afterword, photos of Enrique and his family, an author

interview, and more—the definitive edition of a classic of contemporary America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. Enrique’s Journey

recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States. Braving unimaginable peril, often clinging to the sides and tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: “This is a

twenty-first-century Odyssey. If you are going to read only one nonfiction book this year, it has to be this one.” Praise for Enrique’s Journey “Magnificent . . . Enrique’s Journey is about love. It’s about family. It’s about home.”—The Washington Post Book World “[A] searing report from the immigration frontlines . . . as harrowing as it is heartbreaking.”—People (four stars) “Stunning . . . As an adventure narrative alone, Enrique’s Journey is a worthy read. . . .

Nazario's impressive piece of reporting [turns] the current immigration controversy from a political story into a personal one."—Entertainment Weekly "Gripping and harrowing . . . a story begging to be told."—The Christian Science Monitor "[A] prodigious feat of reporting . . . [Sonia Nazario is] amazingly thorough and intrepid."—Newsday *Journey to Khiva* Abrams Excerpt from A Journey in Search of Christmas We've been ridin' trail for

This book explores the concept that the reality which is created by the consciousness inherent in the Western worldview is exceptionally limiting and probably unsustainable. After describing the contexts within which the book was written the author documents his personal journey in search of wholeness and

meaning. From his experience of this journey he suggests that the wisdom, insight, and praxis contained within - what he describes as the meta-narratives of - Holism, Indigenous cultures, and Eastern traditions are manifestations of a holistic consciousness. The author explores the concept that a shift to such a holistic consciousness is required in order to redress the imbalance that is evident in all humanity's relationships, and he

suggests that enabling such a shift in consciousness would have deep implications for the concepts and contexts of community, adult learning, meaningful work, and sustainability. Lerner Publications™  
From an acclaimed linguist, "part travelogue, part memoir, and part meditation on the intellectual and emotional underpinnings of language. . . . Priceless." (Booklist) In this discursive jaunt through the groves and thickets of the English language,

David Crystal creates an entertaining narrative account of his encounters with the language and its speakers. Woven from personal reflections, historical allusions, and observations of travelers, this fascinating journey through the language we use every day will have readers thinking twice about each word they speak. Starting in Wales and moving from England to San Francisco by way of, yes, Poland, Crystal encounters numerous linguistic side roads that he cannot resist

exploring, from pubs to trains to Tolkien. Walking English is a captivating exploration of language by “one of England’s greatest living language commentators.” (The New Statesman) “In a conversational style that includes plenty of quirky facts, Crystal captures the exploratory, seductive, teasing, quirky, tantalizing nature of language study, and in doing so illuminates the fascinating world of words in which we live.” —Publishers Weekly “An informative, transformative trip into

the mysterious, mutating, magical thicket of English.” (Kirkus Reviews) “Like passing the afternoon with a knowledgeable uncle.” —The Wall Street Journal “The Dr. Johnson of our age.” —The Sunday Herald “The book reads like a donnish Bill Bryson, a Bryson possessed with a maniacal passion for the Cambridge Encyclopedia of the English Language! . . . [A] compelling guide.” —Independent “Crystal proves an entertaining companion! It is pleasant to ramble with him along

the byways of language.”

David Thomson visited the remote sea coasts of the Scottish Isles and the

West of Ireland on journeys in search of the legends of the selchies - mythological creatures who transform from seals into humans. A magical world emerged, in which men are rescued by seals in stormy seas, take seal-women for their wives and have their children suckled by seal-mothers. Mysterious and fascinating, these stories retain their spellbinding charm through Thomson's beautiful prose. *The People of the Sea* is a timeless and haunting book, rich in rewards and

surprises.

“As the saying goes, the Ram was gone and so was his Ayodhya; I knew this only too well. Sita was underground; Lakshman, ostracized; Ramchandra’s youthful frame had long been borne away by the Sarayu. And the irresistible steamroller of time had pulverized the magnificent capital of the Koshals to dust. The modern town, 90 miles long and 36 miles wide, was nothing like the one described in The Ramayana. Maybe the ruins of the kingdom of Ayodhya were still buried

somewhere under millions of tons of soil. Then where had this Ayodhya turned up from—this janmabhumi, Kaushalya Bhavan, Kaikeyi's chambers? Or Raja Dasharath's Durbar or Kanak Bhavan, for that matter? Were all of these only for show? Made to order? Archaeologists had still not been able to find the original Ayodhya, but that made no difference—there were realistic reasons for which it was necessary to prop up another Ayodhya. A legend was required, and

whenever there is a need for one, it is King Vikramaditya with his scent of mythology who is summoned from the shadows of history."

In *Lives Between the Lines*, Michael Vatikiotis traces the journey of his Greek and Italian forebears from Tuscany, Crete, Hydra and Rhodes, as they made their way to Egypt and the coast of Palestine in search of opportunity. In the process, he reveals a

period where the Middle East was a place of ethnic and cultural harmony - where Arabs and Jews rubbed shoulders in bazaars and teashops, intermarried and shared family history. While lines were eventually drawn and people, including Vatikiotis's family, found themselves caught between clashing faiths, contested identities and violent conflict, this intimate and sweeping memoir is a paean to tolerance, offering a nuanced understanding of the lost Levant.
