The Panzer IV BoD – Books on Demand

The easily buildable track plans in Starter Track Plans for Model Railroaders are perfect for beginners and small spaces. This mix of HO and N scale track plans from the pages of Model Railroader magazine, the most trusted name in modeling, emphasizes accessibility, versatility, and interesting operation. Order your copy today to get started on the track to success!

Imphal 1944 Lindhardt og Ringhof

Set in the Warring States period, Jiang Li, Warrior Woman of Yueh tells the story of one of the epic battles of Ancient China between the enemy states of Yueh and Wu. Marked by the magic of White Tiger Mother and trained to use the staff by the great mountain ape, Grandfather Wang, Jiang Li grows into a beautiful woman, loved by all in Yueh who meet her. Faced with the choice of becoming concubine to the Prince whom she loves, or a warrior and savior of Yueh, she forfeits love of a man for love of her country. While Jiang Li trains to save the State of Yueh, another woman warrior, Brother Rat, trains to save her State of Wu. The two women meet in dreams, and by the time they meet in life, they have become friends who must fight to the death.

This pictorial history of the infamous Nazi tank presents a full account—in words and photographs—of Hitler's most fearsome and versatile war machine. Throughout the Second World War, the Panzerkampfwagen Mk IV proved to be the one constant in Hitler's Panzerwaffe. It was the German equivalent of the American Sherman and the Soviet T-34. In this pictorial history, military expert Anthony Tucker-Jones provides a concise account of the Mk IV's design, development and performance in combat. The Mk IV served on every major front: in France, the Balkans, North Africa, the Soviet Union and, at the end of the war, in Germany itself. It was a key weapon in the blitzkrieg attacks and

in the later desperate defense of the Reich. Using more than 150 rare wartime photographs, plus a selection of specially commissioned color images, Tucker-Jones illustrates how the initial design of the Mk IV was refined throughout the war to counter the design advances in Allied tanks and anti-tank guns. While the Mk IV was never produced in the same numbers as the leading Allied tanks, it was one of the most important armored vehicles of the Second World War.

Do you love plants? Do you love crafting? Would you like to dye your own fabric, yarn or clothing? Learn the relaxing art of botanical dyeing with natural dyer, Rebecca Desnos. Connect with nature and open your eyes to the colour potential of plants. Discover how to: produce a wide palette of colours, including pink from avocados, yellow from pomegranates and coral from eucalyptus leaves; extract dye from just about any plant from the kitchen, garden or wild; use the ancient method of soya milk mordanting to achieve rich and long-lasting colour on plant fibres, such as cotton and linen; produce reliable colours that withstand washing and exposure to light.

Botanical Colour at Your Fingertips Rover Phils

Der Band enthält die detaillierte Bauanleitung (46 Schaltbilder, 25 Platinenvorlagen, Prozessoren doppelseitig für manuelle Durchkontaktierung, Decoder etc. einseitig) für eine komplette Digitalsteuerung von Zweileiter-Modellbahnanlagen, z.B. Roco, Fleischmann, Märklin mit DCC Decodern. Um den Selbstbau preisgünstig zu gestalten wurde ein Hybridsystem konzipiert, das für Fahrzeuge DCC- (voller NMRA Standard 10000 Adr.), für Schaltobjekte das Motorola Protokoll (1900 Objekte) verwendet. Kernstück ist das Mikroprozessor (80C535) unterstützte Steuergerät mit Eingabe von Tastaturen, Gleisbildstellwerk und PC. Breiter Raum ist der Beschreibung von Übertragungsformaten, Protokollen und Konfigurationsvariablen

gewidmet. Features: Umfangreiche Software Testhilfen, Booster für 5 und 10A, Decoder für Magnetartikel, Motorantriebe, Lichtsignale (mehrbegriffig mit Dunkelsteuerung), Rückmelder, Fahrstraßenunterstützung, Mehrfachtraktion, Bremsgenerator, Kehrschleifenschalter u.v.m.

Le Corbusier's Modulor—a fundamental work in the history of architecture—as a beautiful facsimile edition.

France in the Middle Ages 987-1460 Model Railroader's How-To Guid

The building and flying of radio-controlled aircraft is an involving and fun hobby. This text looks at different types of radio-controlled aircraft, including traditional fixed wing machines powered by internal combustion engines, electric powered planes, helicopters, indoor ultralights, jets and gliders.

An Atlas of Commercial Geography Kalmbach Publishing, Co.

This book compiles 4-view color profiles, scale plans, and photo details of the single variant of the Hawker Hurricane IIc. Scale plans in 1/72 and 1/48 scales plus drawings from wartime technical manuals. Also includes photos of the details in B&W and color and 4-view color profiles of the Hawker Hurricane IIc flown by Sgt Antoni Beda.

Hawker Hurricane IIc Yale University Press

More than a dozen easy weathering and detailing projects show you how to add realism to rolling stock and locomotives.

Beginning modelers will appreciate the well-illustrated, easy-to-follow instructions.

Bloomsbury Publishing

In this book, now available in paperback, he examines the history of France from the rise of the Capetians in the mid-tenth century to the execution of Joan of Arc in the mid-fifteenth. He takes the evolution of power and the emergence of the French state as his central themes, and guides the reader through complex - and, in many respects, still unfamiliar, yet fascinating terrain. He describes the growth of the castle and the village, the building blocks of the new Western European civilization of the second millennium AD.

Henry the Young King, 1155-1183 MMP

Fun! Fun! Fun! Let your creativity run wild! 60 Original Artist Designs, High Resolution A Gorgeous Coloring Book!!! You can color each flower design with realistic colors or let your imagination run wild and use whichever colors you choose! Relaxing Coloring Pages. Every page you color will pull you into a relaxing world where your responsibilities will seem to fade away...

Grammarway is a series of four grammar books in full colour. Designed for learners of English at beginner to intermediate level, they systematically practise and revise English grammar structures. The series can be used to supplement any main coursebook at secondary level and is suitable both for self-study and classroom use.

Subject guide to German books in print Brand Nu Words

In March 1944, the Japanese Fifteenth Army launched an offensive into India from Burma. Named 'U Go', its main objective was the capture of the town of Imphal, which provided the easiest route between India and Burma. Whoever controlled it, controlled access between the two countries. Facing off against the Japanese was the British Fourteenth Army and its Imphal-based 4 Corps. For the next four months, over 200,000 men clashed in the hills and valley of Manipur in what has since been described as one of the greatest battles of World War II. Although numbers vary, it is estimated that some 30,000 Japanese soldiers died and 23,000 were injured at Imphal-Kohima in 1944 due to fighting, disease and in the retreat back to Burma. It remains the largest defeat on land ever for the Japanese Army. With fully commissioned artwork and maps, this is the complete story of the turning point in the Burma campaign in World War II.

"After completing his Daneville & Donner River layout, Pelle Sæborg realized that he could build a better layout, so he did. Pelle kept seeing things he wanted to redo, and as he discovered new techniques and materials, his list of projects grew. Some projects involved major renovation, so it was easier to tear down the Daneville & Donner River layout and start over with a new model railroad, the Union Pacific's Daneville Subdivision. [This book] takes you through the complete construction process. Using the lessons Pelle learned from building his previous layout, the book covers benchwork, track, scenery, backdrops, and more."--p. [4] of cover.

Arduino ist ein Mikrocontroller-System, das aus einem Mikrocontroller der Firma Atmel und einer Open-Source-Entwicklungsumgebung, die auf einem vereinfachten C-Dialekt basiert, besteht. Der Mikrocontroller wird über den PC programmiert und kann eigenständig oder in Verbindung mit dem PC agieren. Es können für die Interaktion zwischen Mensch und Mikrocontroller diverse Sensoren angeschlossen werden, die unsere Umwelt erfassen und die Daten an den Mikrocontroller weitergeben. Der Mikrocontroller verarbeitet mit seinem Programm die Daten, und es können Ausgaben getätigt oder z. B. Aktuatoren gesteuert werden. Der Kreativität des Entwicklers sind dabei keine Grenzen gesetzt.

Deutsche Bibliographie Stackpole Books

This first modern study of Henry the Young King, eldest son of Henry II but the least known Plantagenet monarch, explores the brief but eventful life of the only English ruler after the Norman Conquest to be created co-ruler in his father's lifetime. Crowned

at fifteen to secure an undisputed succession, Henry played a central role in the politics of Henry II's great empire and was hailed as the embodiment of chivalry. Yet, consistently denied direct rule, the Young King was provoked first into heading a major rebellion against his father, then to waging a bitter war against his brother Richard for control of Aquitaine, dying before reaching the age of thirty having never assumed actual power. In this remarkable history, Matthew Strickland provides a richly colored portrait of an all-but-forgotten royal figure tutored by Thomas Becket, trained in arms by the great knight William Marshal, and incited to rebellion by his mother Eleanor of Aquitaine, while using his career to explore the nature of kingship, succession, dynastic politics, and rebellion in twelfth-century England and France.

Radio-Controlled Model Aircraft Springer Science & Business Media

Since the Gulf War, the Abrams tank has undergone a transformation, while fighting in conflicts across the world. Its M1A1 and M1A2 variants have seen great improvements made to this iconic tank, including in fire-control, armour protection, and thermal imaging technology. Involvement in the conflicts in Iraq and Afghanistan necessitated a number of upgrades and modifications as the United States fought two of its longest wars. Recent years have seen new variants of the series such as the ABV Assault Breacher Vehicle and M104 Wolverine Heavy Assault Bridge. Over the past few decades, the M1A1 Abrams has also been extensively exported and is license produced in Egypt. The long-awaited follow-up to NVG 2 M1 Abrams Main Battle Tank 1982-92 (1993), this fully illustrated study examines the Abrams tanks' last quarter-century of service with both the United States and its various foreign operators with a focus on its combat history.
