From a flame shaped toast holder to Tetris fridge

magnets, Just Brick It is the LEGO-lovers guide to all the best projects never included in a standard LEGO manual. For kids and big kids whose LEGO collections are missing a few key components (ie. the manuals) this book includes 50 quirky and retro projects, including useful objects for the home, Christmas decorations, and stylish art and design ideas, this is a fun, practical, and gloriously silly guide.

Detailed yet easy-to-follow instructions guide the LEGO aficionado through each step of a LEGO masterpiece. This hugely entertaining yet challenging book proves that Lego is most definitely not just for kids! *Catastrophic Happiness* JHU Press
A comic and heartwarming memoir about childhood's second act from Real Simple journalist Catherine Newman. Much is

written about a child's infancy and toddler years, which is good since children will never remember it themselves. It is ages 4-14 that make up the second act, as Catherine Newman puts it in this delightfully candid, outlandishly funny new memoir about the years that "your children will remember as childhood." Following Newman's son and daughter as they blossom from preschoolers into

teenagers, Catastrophic Happiness is about the bittersweet joy of raising children -- and the ever-evolving landscape of issues parents traverse. In a laugh out-loud, heart-wrenching, relatable voice, Newman narrates events as momentous as grief and as quietly moving as the moonlit face of a sleeping child. From tantrums and friendship to fear and even sex, Newman's

fresh take will appeal to any parent riding this same roller coaster of laughter and heartbreak. *Wild and Crazy* Routledge

 In Dante's Journey to Polyphony, Francesco Ciabattoni's erudite analysis sheds light on Dante's use of music in the Divine Comedy. Following the work's musical evolution, Ciabattoni moves from

the cacophony of Inferno through the monophony of Purgatory, to the polyphony of Paradise and argues that Dante's use of sacred songs constitutes a thoroughly planned system. Particular types of music accompany the pilgrim's itinerary and reflect medieval theories regarding sound and the sacred. Combining musicological and philological scholarship, this book

analyzes Dante's use of music in conjunction with the form and content of his verse, resulting in a cross-discipline analysis also touching on Italian Studies, Medieval Studies, and Cultural History. After moving from infernal din to heavenly harmony, Ciabattoni's final section addresses the music of the spheres, a theory that enjoyed great diffusion among the early middle ages, inspiring

poets and philosophers for centuries.

central role to bring us the first global history of human knowledge. Having sketched the history of the humanities in his ground-breaking *A New History of the Humanities*, Bod now adopts a broader perspective, stepping beyond classical antiquity back to the Stone Age to answer the question: Where did our knowledge of the world today begin and how did it develop?

Drawing on developments from all five continents of the inhabited world, *World of Patterns* offers startling connections. Focusing on a dozen fields—ranging from astronomy, philology, medicine, law, and mathematics to history, botany, and musicology—Bod examines to what degree their progressions can be considered interwoven and to what degree we can speak of global trends.

In this pioneering work, Bod aims to fulfill what he sees as the historian's responsibility: to grant access to history's goldmine of ideas. Bod discusses how inoculation was invented in China rather than Europe; how many of the fundamental aspects of modern mathematics and astronomy were first discovered by the Indian Kerala school; and how the study of law

provided fundamental models for astronomy and linguistics from Roman to Ottoman times. The book flies across continents and eras. The result is an enlightening symphony, a stirring chorus of human inquisitiveness extending through the ages.

Naming and Mapping the Gods in the Ancient Mediterranean Phaidon Press

He's bared himself on screens big and small, but now, Bam Margera exposes himself as never before. Famous for his fearless, cringe-inducing, funny as s*** daredevil stunts, he has thrilled and revolted

audiences worldwide. Now, for the first time, Bam shares his private writings, never-before-seen personal photos, drawings, and more in this anarchic auto-collage/travelogue, a frenetic yet brutally honest document of the life he leads and a dynamic testament to his wild imagination. Known for his creative style since becoming a pro skater at thirteen, Bam pulls readers into his

chaotic world—the music, the movies, the pranks, the skating, the glory, the pain, and the blood. This time, Bam Margera is serious . . . as dog dirt.

 This book is a collective effort to investigate and problematise notions of time and temporality in European travel writing from the late medieval period up to the late nineteenth century. It brings together nine researchers in European travel writing and covers a wide range of areas, travel genres, and

languages, coherently integrated around the central theme of time and temporalities. Taken together, the contributions consider how temporal aspects evolve and change in regard to spatial, historical, and literary contexts. In a chapter-by-chapter account this volume thus offers various case studies that address the issue of temporality by showing, for example, how time is

inscribed in landscape, how travellers' encounters with other temporalities informed other disciplines; it	interrogates the idea of "cultural temporalities" in regard to a tension between past and future,	passivity and progression; and focuses on how time is entangled in identity construction proper to travelogues.
