The classic work on the
evaluation of city form.
What does the city's
form actually mean to
the people who live
there? What can the
city planner do to
make the city's image
more vivid and
memorable to the city
dweller? To answer
these questions, Mr.

City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book. In *Empire's Crossroads*, Carrie Gibson offers readers a vivid, authoritative and action-packed history of the Caribbean. For Gibson, everything was created in the West Indies: the Europe of today, its financial foundations built with sugar money: the factories and mills built as a result of the work

of slaves thousands of miles away; the idea of true equality as espoused in Saint Domingue in the 1790s; the slow progress to independence; and even globalization and migration, with the ships passing to and fro taking people and goods in all possible directions, hundreds of years before the term 'globalization' was coined. From Cuba to Haiti, from Dominica to Martinique, from Jamaica to Trinidad, the story of the Caribbean is not simply the story of slaves and masters - but of fortune-seekers and pirates, scientists and servants, travellers and tourists. It is not only a story of imperial expansion - European and American - but of global connections,

and also of life as it is lived in the islands, both in the past and today.

Indigenous sign-systems, such as pictographs, petroglyphs, hieroglyphs, and khipu, are usually understood as relics from an inaccessible past. That is far from the truth, however, as Edgar Garcia makes clear in *Signs of the Americas*. Rather than being dead languages, these sign-systems have always been living, evolving signifiers, responsive to their circumstances and able to continuously redefine themselves and the nature of the world. Garcia tells the story of the present life of these sign-systems,

examining the contemporary impact they have had on poetry, prose, visual art, legal philosophy, political activism, and environmental thinking. In doing so, he brings together a wide range of indigenous and non-indigenous authors and artists of the Americas, from Aztec priests and Amazonian shamans to Simon Ortiz, Gerald Vizenor, Jaime de Angulo, Charles Olson, Cy Twombly, Gloria Anzaldúa, William Burroughs, Louise Erdrich, Cecilia Vicuña, and many others. From these sources, Garcia depicts the culture of a modern, interconnected hemisphere, revealing that while these “signs of the Americas” have suffered expropriation, misuse, and

mistranslation, they have also created their own systems of knowing and being. These indigenous systems help us to rethink categories of race, gender, nationalism, and history. Producing a new way of thinking about our interconnected hemisphere, this ambitious, energizing book redefines what constitutes a “world” in world literature.

Fresh Air Fiend Harper Collins

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an

unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the

Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in

places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and

moral debate.

This book establishes an argument for deeper attention to the aesthetic qualities of literature, to the question of the relation between the aesthetic and more immediate, practical, and urgent social and political matters. It attempts to establish the intrinsic value of the aesthetic at the same time as it demonstrates that focus on the aesthetic does not preclude attention of the urgent questions with which works of art consistently engaged. It argues that attention to the aesthetic does not diminish attention to these larger issues, but in effect increases the power both of art

and criticism to engage them fruitfully.

Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as *The Diary of Anne Frank*." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer

and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences.

The poems in Manuel Paul López's *The Yearning Feed*, winner of the 2013 Ernest Sandeen Prize in Poetry, are embedded in the San Diego/Imperial Valley regions, communities located along the U.S.-Mexico border. López, an Imperial Valley native, considers *La Frontera*, or the border, as magical, worthy of Macondo-like

comparisons, where contradictions are firmly rooted and ironies play out on a daily basis. These poems synthesize López's knowledge of modern and contemporary literature with a border-child vernacular sensibility to produce a work that illustrates the ongoing geographical and literary historical clash of cultures. With humor and lyrical intensity, López addresses familial relationships, immigration, substance abuse, violence, and, most importantly, the affirmation of life. In the poem titled "Psalm," the speaker experiences a deep yearning to relearn his family's Spanish tongue, a language lost somewhere in the twelve-mile stretch

between his family's home, his school, and the border. The poem "1984" borrows the prose-poetics of Joe Brainard, who was known for his collage and assemblage work of the 1960s and 1970s, to describe the poet's bicultural upbringing in the mid-1980s. Many of the poems in *The Yearning Feed* use a variety of media, techniques, and cultural signifiers to create a hybrid visual language that melds "high" art with "low." The poems in *The Yearning Feed* establish López as a singular and revelatory voice in American poetry, one who challenges popular perceptions of the border region and uses the unique elements of the rich border

experience to inform and guide his aesthetics.

“A memorable and lovely debut.”--Kirkus Reviews “Walking with Miss Millie is full of subtle wisdom. Its ending is satisfying though sobering and there are elements of this story that stay with you long after the last page has been read.”--Karen English, Coretta Scott King Honor Award Author A poignant middle grade debut about the friendship between a white girl and an elderly black woman in the 1960s South Alice is angry at having to move to Rainbow, Georgia—a too small, too hot, dried-up place she’s sure will never feel like home. Then she gets put in charge

of walking her elderly neighbor’s dog. But Clarence won’t budge without Miss Millie, so Alice and Miss Millie walk him together. Strolling with Clarence and Miss Millie quickly becomes the highlight of Alice’s day and opens her eyes to all sorts of new things to marvel over. During their walks, they meet a mix of people, and Alice sees that although there are some bullies and phonies, there are plenty of kind folks, too. Miss Millie shares her family’s story with Alice, showing her the painful impact segregation has had on their town. And with Miss Millie, Alice is finally able to express her own heartache over why her family had to move there in the first place. Tamara

Bundy's beautifully written debut celebrates the wonder and power of friendship: how it can be found when we least expect it and make any place a home.

Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award

for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of "the Brotherhood", and retreating amid violence and confusion to the basement lair of the *Invisible Man* he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky. *Fencing: Ancient to Modern* Penguin
In the mid-21st century, a young

woman in Texas awakens to a nightmare: her skin has been genetically altered, turned bright red as punishment for the crime of having an abortion. A powerful reimagining of *The Scarlet Letter*, *When She Woke* is a timely fable about a stigmatized woman struggling to navigate an America of the not-too-distant future, where the line between church and state has been eradicated, and convicted felons are no longer imprisoned and rehabilitated but “chromed” and released back into the population to survive as best they can. In seeking a path northward to safety, through an alien and hostile world, Hannah unknowingly embarks on a journey of self-

discovery that forces her to question the values she once held true and the righteousness of a country that politicizes faith and love.

Acerbic, moving, and formally astonishing, Michael Prior's second collection explores the enduring impact of the Japanese internment upon his family legacy and his mixed-race identity. Canada-Japan Literary Award, Winner Dorothy Livesay Poetry Prize, Winner Raymond Souster Award, Shortlist Amid the record-breaking wildfires that scorched British Columbia in 2015 and 2017, the poems in this collection move seamlessly between geographical and psychological landscapes, grappling

with cultural trauma and mapping out complex topographies of grief, love, and inheritance: those places in time marked by generational memory "when echo crosses echo." *Burning Province* is an elegy for a home aflame and for grandparents who had a complex relationship to it--but it is also a vivid appreciation of mono no aware: the beauty and impermanence of all living things. "The fireflies stutter like an apology," Prior writes; "I would be lying to you / if I didn't admit I love them."

One of the most important works of gay literature, this haunting, brilliant novel is a seriocomic remembrance of things past -- and still

poignantly present. It depicts the adventures of Malone, a beautiful young man searching for love amid New York's emerging gay scene. From Manhattan's Everard Baths and after-hours discos to Fire Island's deserted parks and lavish orgies, Malone looks high and low for meaningful companionship. The person he finds is Sutherland, a campy quintessential queen -- and one of the most memorable literary creations of contemporary fiction. Hilarious, witty, and ultimately heartbreaking, *Dancer from the Dance* is truthful, provocative, outrageous fiction told in a voice as close to laughter as to tears. *The Great Gatsby*

An instant bestseller when first published in 1929—biographies of twelve bold individuals from history and what they did to separate themselves from the pack. In his trademark journalist style, author William Bolitho details the lives of twelve great adventurers—Alexander the Great, Casanova, Christopher Columbus, Mahomet, Lola Montez,

Cagliostro (and Seraphina), Charles XII of Sweden, Napoleon I, Lucius Sergius Catiline, Napoleon III, Isadora Duncan, and Woodrow Wilson. Bolitho elucidates both the struggles and successes that made these figures so iconic, and demonstrates how they all battled convention and conformity to achieve enduring fame and notoriety. “We are born adventurers,” Bolitho writes, “and the love of adventures never leaves us till we are very old; old, timid men, in whose interest it is that adventure should quite die out. This is why all the poets are on one side, and all the laws on the other; for laws are made by, and usually for, old men.” Though his essays are nearly

one hundred years old, they encompass the timeless values of perseverance, bravery, and strength of spirit that have proven to resonate with the pioneers and thought leaders of today.
