To deny the reality of the demonic world is to fall prey to it. This is the story of a fallen angel, Neddih, and his indoctrination into the dark world of demons by a powerful demon commander called Rellik. Neddih's heinous training involves learning techniques for orchestrating suicide, murder, and drug addiction-just to name a few-and together Neddih and Rellik wreak havoc on countless human lives. Their master plan is to deceive a group of Muslim extremists into carrying out the worst terrorist attack on U.S. soil in history-the attacks of 9/11. As Rellik prepares Neddih for that fateful day, lives are destroyed and good people are tricked into doing terrible things, culminating in yet another human atrocity. In the end Neddih must deal with the consequences of his actions-actions that mean the difference between freedom in Heaven or torment in Hell... Demons Among Us is a groundbreaking book-controversial, thought-provoking, even humorous at times. It will have you looking over your shoulder...and reexamining your own beliefs in the reality of demons walking among us. About the Author: Having come face-to-face with two demon-possessed men and after years of study on the subject, Robbie Pittman is somewhat of an expert in biblical demonology. Born and raised in Rock Hill, South Carolina-in the heart of the Bible Belt-Pittman became a Christian at the age of 14. He still resides in Rock Hill with his wife of 29 years, and they have two grown children. Demons Among Us is his first novel.

Rizwan Qureshi is from Columbus, Texas, USA. He writes all his personal knowledge, experiences, and 100 percent true information about demons, pains, painless diseases, and cancer/infection insects. He writes pure truth and only those things in this and book 1, whatever he was dealing and experiencing by himself. His source of knowledge is purely his own experiences with dealing with supernatural, invisible demons, different kind of invisible pains and painless diseases. According to him, cancer is a very easily treatable and curable disease. As he sees it, thousands of demons are residing in our houses around us. According to him, demons cannot perform any physical activity by themselves. He explains that, by nature, demons are very arrogant and extremely negative. The author suggested several practical ideas, procedures, and theories for common people, medical and modern science, on how they can learn and handle demons, pains, painless diseases, and insects responsible for cancer by themselves. The author is 100 percent sure that after reading his books, everyone will be aware and will be able to control the invisible parallel world around them. In this book, he writes clear instructions for individuals on how they can communicate and interact with the demons around them, how to make demons around them their friends, and how to ask demons to do some stuff for them. Author describes in detail how much stuff we can expect our demon friends to do for us. Author writes very clear and very easy instructions for an individual once someone decides to learn how to communicate with demons. He advises everyone to start practicing.

The devil's strongholds originated in the spirit realm. Satan, the devil, has many ways of creating and holding a person in a certain condition to benefit his purposes and cause in the world. Once he sets his plan, it's going to be carried out by the individual regardless of being a Christian; believer or nonbeliever, it makes no difference. He has a way to hold individuals to his cause, whether it's delayed or not; his method of holding persons under his control is even greater among Christians. Why is that? Because most Christians believe they are "exempt" from the devil's strongholds. Big mistake! No one is exempt from the forces of evil, whose strongholds are among the highest level of evil and wickedness in the spiritual realm. A person can bind themselves in a stronghold without having any knowledge; it's not Satan but their spirit of perception, which is as real, active, and alive as the person themselves, for which Satan, the devil, gets the credit and blame. The spirit of perception of the mind is more powerful than the world acknowledges. The spirit of perception can hold a person in restraint forever without changing their perception. The world does not acknowledge or consider the spirit of perception is the culprit, which Satan feeds off, and that holds the world, the entire world, in total darkness! Satan is the god of this world and its system of things, which he controls because of the world's lack of knowledge of strongholds. Most of the world population does not know what a stronghold really represents in all human lives. No one is exempt from strongholds, which can bind a person until death! This book, *Breaking Strongholds of the Devil Satan*, shall give some light to the world about how strongholds bind persons for lifetimes. He or she can be set free of any and all strongholds in minutes where others have been held a lifetime and died.

Demonology and Devil-lore The Complete Book on Demonology Three Friars, says a legend, hid themselves near the Witch Sabbath orgies that they might count the devils; but the Chief of these, discovering the friars, said-'Reverend Brothers, our army is such that if all the Alps, their rocks and glaciers, were equally divided among us, none would have a pound's weight.' This was in one Alpine valley. Any one who has caught but a glimpse of the world's Walpurgis Night, as revealed in Mythology and Folklore, must agree that this courteous devil did not overstate the case. Any attempt to catalogue the evil spectres which have haunted mankind were like trying to count the shadows cast upon the earth by the rising sun. This conviction has grown upon the author of this work at every step in his studies of the subject. In 1859 I contributed, as one of the American 'Tracts for the Times,' a pamphlet entitled 'The Natural History of the Devil.' Probably the chief value of that essay was to myself, and this in that its preparation had revealed to me how pregnant with interest and importance was the subject selected. Subsequent researches in the same direction, after I had come to reside in Europe, revealed how slight had been my conception of the vastness of the domain upon which that early venture was made. In 1872, while preparing a series of lectures for the Royal Institution on Demonology, it appeared to me that the best I could do was to print those lectures with some notes and additions; but after they were delivered there still remained with me unused the greater part of materials collected in many countries, and the phantasmal creatures which I had evoked would not permit me to rest from my labours until I had dealt with them more

thoroughly. The fable of Thor's attempt to drink up a small spring, and his failure because it was fed by the ocean, seems aimed at such efforts as mine. But there is another aspect of the case which has yielded me more encouragement. These phantom hosts, however unmanageable as to number, when closely examined, present comparatively few types; they coalesce by hundreds; from being at first overwhelmed by their multiplicity, the classifier finds himself at length beating bushes to start a new variety. Around some single form—the physiognomy, it may be, of Hunger or Disease, of Lust or Cruelty—ignorant imagination has broken up nature into innumerable bits which, like mirrors of various surface, reflect the same in endless sizes and distortions; but they vanish if that central fact be withdrawn. In trying to conquer, as it were, these imaginary monsters, they have sometimes swarmed and gibbered around me in a mad comedy which travestied their tragic sway over those who believed in their reality. Gargoyles extended their grin over the finest architecture, cornices coiled to serpents, the very words of speakers started out of their conventional sense into images that tripped my attention. Only as what I believed right solutions were given to their problems were my sphinxes laid; but through this psychological experience it appeared that when one was so laid his or her legion disappeared also. Long ago such phantasms ceased to haunt my nerves, because I discovered their unreality; I am now venturing to believe that their mythologic forms cease to haunt my studies, because I have found out their reality. Satan hid in the churches, and behind pulpits; he was not preached as man's arch enemy. Preachers kept quiet and just "preached Jesus." To preach Jesus is to preach the victory life -- victory over sin, victory over sickness and victory over Satan. It is one thing to preach it, but yet another to put it into practice; or in other words, to make it work! In Acts 10:38 we read clearly that the ministry of Jesus was to do good and to heal all those who were oppressed of the devil. Satan is one created being, albeit powerful. It is a fact that the very demons that hide themselves from our view manifest themselves in sin, sickness, and disease. Jesus did not commission His church to ask Him to heal. He commands us to bring His healing and deliverance in His name. Thus we Christians are supposed to be law enforcement officers -- officers commissioned by God to bring the law of love against these demonic invaders. And commissioned to command them off of God's property. Our spirits, minds, and bodies belong to God, not to ourselves or to Satan. We can command the trespasser to leave in Jesus Name and he has to go. I commend the reading of this book. It will enlighten you. Ignorance of evil is not Christian bliss. Satan and his horrible hordes are still largely avoided in spite of scriptural admonitions to the contrary. Ministers and evangelists extract the devil from their messages because it's an unsettling, unpopular subject. Congregations are rarely warned of demonic realities because they might become frightened. And well they might! Why do we spend billions of dollars on espionage and counter-espionage and yet speak in whispers of the world's ranking adversary? It's not as if there is no hope! It is not as if we are powerless to confront the enemy. But confrontation

only begins with realization. Advantage can only be gained from education. And conquest will only be achieved through application. Let the following pages help you realize who and what the enemy is. Learn that it is Christianity's responsibility to educate itself in demonology and Satanic resourcefulness. *Unmasking Satan & His Horde of Demons* is a how-to book. Allow *Unmasking Satan & His Horde of Demons* to lead you in the application of God's Word to the mightiest task mankind has ever known. It lays out the Scriptural methods for overcoming Satan's use of demons. It presents the Scriptural methods for casting out demons not only as Jesus Christ himself applied them during His healing ministry on earth more than 2,000 years ago, but especially as these methods have been applied during our day in Reverend G.M. Farley's confrontations with demon power throughout the pagan and Christian worlds, and in similar confrontations of his most eminent colleagues in the deliverance ministry. Case after case of demonic oppression and possession in the light of Scriptural precepts and examples are covered.. These cases -- whether in North America, Africa, Asia or South America -- find their victims deaf, dumb, blind, paralyzed, maimed, deformed, and sometimes mindless. It is a continual marvel that, time after time, such victims, some of them treated in vain by psychologists, psychiatrists and medical doctors over months or even years -- have been cured through the grace of Christian exorcism. *Unmasking Satan & His Horde of Demons* contains photographs taken during exorcisms; a summary of opinions on demon possession by leading members of the deliverance ministry; and a condensed account of the incredible exorcism and resulting cure of a retarded teenager documented in Pelton's landmark book *The Devil & Karen Kingston*.

"After Zambullo releases Asmodeus from a bottle, the two embark on a flight above the rooftops of Madrid. Peeking into houses, prisons, palaces, and even tombs, Zambullo witnesses one incident of treachery and self-delusion after another. Smollett's superior wit and sense of irony suited him as well as translator for this novel, with its juxtaposition of realism with romance, satire with sentiment, and sexual intrigue with moral admonition."

A collection of stories that circle around various beliefs of the enemy of God and the Christian church, the Devil. While most of us have some preconceived notions about who and what the Devil does, these stories will help to give you a fresh outlook on the topic of the Lord of Lies. Although written in a fictional way, these stories still hold some relevant points about the person of the Devil and will help us to look at the topic differently for our own study.

Paul Harvey once stated: "Demonic possession of humans is not something Hollywood invented. "It is quite as old as the Old Testament. "Clergymen of the 1970s, Catholic

and Protestant, can relate experiences very similar to those chronicled in the book, *The Exorcist*, and shown with such ghastly realism in the movie. "Frequently in their counseling, clergymen experience supernatural manifestations, which they are reticent to discuss from the pulpit." Renowned Evangelist Billy Graham said: "Don't make any mistake about it. There are demons as well as unseen angels, and that unseen world exists." Pope Paul VI declared: "We know that this dark and disturbing spirit really exists, and that he still acts with treacherous cunning." The idea of possessive, evil, supernatural beings is distasteful, but there are those who know that devils are real, walking among us, waiting to live within us. Many fundamental believers interpret the Bible simply and literally. It is with scriptural assurance that they are convinced of the reality of devil spirits. They confront these evil forces with calmness and determination, secure in the power of the Holy Ghost within themselves to protect them and overpower the opposition. "In my name shall they cast out devils" is the first of the five signs found in Mark 16:17-18. Christians throughout the world believe these signs were given to the true believers by Christ before his Ascension. To them, they are as necessary and as relevant today as they were when the risen Master offered them to his faithful few. Members of such faiths approach devil possession almost casually. It has been an integral part of their religion for generations. Others are just now beginning to discuss the subject, almost as if devil spirits must be officially recognized. "One becomes possessed to work Satan's end," suggested Reverend M. Thomas Starkes, former Director of the Department of Interfaith Witness on the Southern Baptist Home Mission Board. "When one is a non-Christian and possessed, Satan uses this to further his own kingdom, to display his power. "I have seen a Christian, a new Christian, who sold his soul completely out to Satan for a period of twelve years and was then converted. "He was still able to retain some of the satanic powers because Satan is very slow to let go - to let his control go over the life of an individual who is controlled or possessed." In some areas of religion, the exorcism of evil is practiced with zeal and dedication. The devout believe it takes a great amount of faith to seek and develop a productive relationship with God. It takes "living right" and constant spiritual contact to maintain the closeness that has as its reward invincible power from the Holy Ghost. Never do the recipients claim this power for themselves. Always, it is God working with them and through them. So it is when believers gather around a sinner or a stricken brother in the faith to cast out a devil that the Holy Ghost sends power enough to subjugate Satan's emissary. The devil must bow to God's supremacy. Countless men of God have experienced firsthand the horror of a rebellious devil clinging to the human being it has chosen for a home. These ministers are not shocked or surprised at the bizarre descriptions in the currently popular exorcism stories. They have seen it all. They have heard male voices utter verbal filth from female mouths. They have seen blood and vomit follow the expulsion of a struggling demon. They know devils are here! Listen to the preachers, teachers, evangelists, theologians, and faith-filled Christians who actually exorcise demonic spirits, tell how they do it. The methods they employ and the words they use are many and varied. But their reason for doing it is singular. Mark 16 spells it out clearly: "In My Name Shall They Cast Out Devils."

Exorcism or the casting out of devil spirits has become a worldwide curiosity. Many people blatantly deny the reality of devils and accredit unexplained mischief to psychological phenomena. Are there dangers in the current interest in devils, possession, and exorcism? Certainly there are dangers," warned the widely respected theologian Dr. Hans K. LaRondelle, associate professor of systematic theology at Andrews University. "Dangers that we can have an unhealthy interest in these powers and become more devil-oriented than Christ-oriented. "Throughout history, artists have grappled with the problem of depicting clearly and forcefully the principles of evil and suffering in human existence." With this view, the Lehnners have collected 244 representations, symbols, and manuscript pages of devils and death from Egyptian times to 1931. Reproductions from Dürer, Holbein, Cranach, Rembrandt, and many other lesser-known or unknown artists illustrate the fascinating history. The fifteenth, sixteenth, and seventeenth centuries are stressed. The book is divided into 12 chapters, each with a separate introduction. Most of the illustrations are collected in five of these chapters: Devils and Demons, including Belial, Beelzebub, and the Anti-Christ; Witches and Warlocks, their animals, forms, and rituals; The Danse Macabre, with the Dance of Death Alphabet by Holbein and representations of all classes leveled by the common force of death; Memento Mori, including a skull clock, a macabre representation of the Tree of Knowledge and Death, and the winged hourglass and scythe; and Religio-Political Devilry, the fight between the Papists and the Reformers, and symbols of devils in other political disputes. There are also chapters on the Fall of Lucifer, Faust and Mephistopheles, Hell and Damnation, The Apocalyptic Horsemen, Witch-Hunting, The Art of Dying, and Resurrection and Reckoning. Anyone curious about witchcraft, death, and devils will be interested in this book. It is particularly useful to teachers, artists, and illustrators who need clear reproductions for the classroom, for models, or for commercial uses. Death, devils, and their history are very much with us today.

Do not read this book if you are afraid to learn the truth. Remember, once you have learned the truth, there is no turning back. If you are not a believer and you read this book, you will become a

believer. In this book you will read about some of my personal experiences and a few others in my

life and their experiences. If this still is not convincing, then I've also added some biblical facts. The truth can be found in Ephesians 6:12. Churches—this is your wakeup call.
